DESIGN DATA

Functional Class. = Rural Arterial
Design Speed = 60 mph
Max. Superelev. = 0.06

NOTE:
Full Control of Access will be maintained at the proposed NC 87/NC 11 and US 74-76/NC 87 Interchanges as well as all Directional Crossovers. No driveway access will be allowed from adjacent properties to NC 87, US 74-76 or NC 11 in these areas.

NOTE:
Partial Control of Access is defined as one access point per parcel. For properties with large road frontages (for example, 2000 feet or more), an additional access point may be considered. For properties that have access, such as via a side road, access to NC 87 may be eliminated.
