BOARD OF TRANSPORTATION MEETING

June 5, 2008

Call to Order

Chairman Galyon called the meeting of the Board of Transportation to order at 9:03 a.m., Thursday, June 5, 2008 in Raleigh, North Carolina with the following members present:

Blount, Burrell, Campbell, Collier, Dennis, Dunn, Galyon, Kindley, McRae, Perkins, Sewell, Spaulding, Thornburg, Tulloss, Wilson

Member Lakey participated via conference call.

Members Cowell, Szlosberg, and White were absent.

Invocation

The invocation was offered by Board Member Tulloss.

Ethics Statement

Chairman Galyon read the Ethics Statement advising any Board Member that may have a conflict of interest or appearance of conflict to abstain from participation in that particular item and to file the proper paper work with the Secretary to the Board.

Approval - Minutes of May 1, 2008 Board Meeting

The minutes of the May 1, 2008 Board of Transportation Meeting were unanimously approved upon a motion by Board Member Sewell and was seconded by Board Member Perkins.

Approval - Award of Highway Construction Contracts in the May 20, 2008 Letting

Director of Preconstruction Debbie Barbour reviewed projects advertised in the May 20, 2008 letting, noting on the basis of the low bids received that 21 projects would cover all the work in the letting. After review of the projects, the following actions on award of contracts were taken:

- (1) On Project C202062, Wilson County, 4CR.10981.10, 4CR.20981.9, the Board rejected all bids. Project will be re-advertised.
- (2) On Project C201368, 34422.3.5, Stanly County, (R-2320G), the Board delegated authority to the Secretary to award or reject all bids pending the receipt of the executed municipal and utility agreements with the City of Albemarle. **
- (3) Upon a motion by Board Member Burrell, seconded by Board Member Thornburg, the vote was unanimous with the exception of Board Member Dennis, who abstained from voting on Project C201368, Stanly County, (R-2320G), to award the contracts on the remaining highway construction contracts to the respective low bidders.

Award of all contracts covering the use of Federal-aid highway funds is subject to concurrence by the Federal Highway Administration.

Approval – Public Transportation Program

Following the recommendation of Miriam Perry, Director of Public Transportation Division, a motion was made by Board Member Thornburg, seconded by Board Member Burrell, and the vote was unanimous to allocate funds to the following projects:

Community Transportation Program

The Community Transportation Program (CTP) is designed to enhance the provision of human service and rural general public transportation in North Carolina. The CTP is consistent with the Department of Transportation's goal to develop an efficient, effective, safe, reliable and convenient rural public transportation program that affords all North Carolinians with mobility choices and the opportunity to improve their quality of life. To achieve this goal, administrative funds will be provided to each community transportation system across the state to manage these services.

State Human Service Transportation Management Program funds and Rural Capital Program funds, state matched with local funds, will be used to cover the administrative and capital costs for community transportation systems that operate in the state's urban counties and those systems that provide only human service transportation. State and federal funds will be used to support the administrative and capital needs of 10 community transportation systems.

This is to request Board of Transportation approval to provide state funds totaling \$1,944,238.00 to the projects as specified below.

Division 1

Project No. 09-SF-005	<p>Albemarle Regional Health Services (operating as Inter-County Public Transportation Authority - ICPTA) currently has a new maintenance facility under construction. They are requesting funding for surveillance equipment for the facility and their fleet parking lot which has been vandalized recently. Urban Planning

The Federal Transit Administration’s Section 5303 Metropolitan Planning Program provides financial assistance to local governments in urbanized areas of over 50,000 population to conduct transportation planning activities. Funds are apportioned to each state on the basis of its total urban population. The goal of the Metropolitan Planning Program is the development of transportation systems that embrace all modes of transportation to maximize the mobility of people and distribution of goods in urban areas in an efficient manner. To meet this goal, each Metropolitan Planning Organization (MPO) submits an annual Planning Work Program (PWP) which identifies the transportation planning tasks to be addressed. Both highway and transit planning tasks are addressed in the PWP, consistent with particular items in individual MPO transportation planning prospectuses. The Public Transportation Division uses the PWPs from each of the seventeen urbanized areas in the state to prepare a composite to be submitted to FTA as North Carolina’s Statewide Planning Work Program.

This is to request Board of Transportation approval to submit a Section 5303 application to the Federal Transit Administration (FTA) in the amount of \$793,129 in federal funds, enter into agreement and provide the necessary state match. The department will provide federal and state funds for the following projects:

Transportation Demand Management Program

Program Overview: The Transportation Demand Management Program, initiated in 2004, provides state funds to cover 50% of the administrative costs of TDM Programs across the State. The four major emphasis areas for work accomplished with the funds are getting employers designated as Best Workplaces for Commuters, conducting commuter challenge campaigns aimed at employees, promoting the on-line rideshare matching program ShareTheRideNC, and promoting the vanpool programs in urban areas. There are currently three TDM Programs located in the Triad, Asheville, and Charlotte in addition to a regional TDM program in the Triangle that encompasses 5 programs. The total amount of state funds requested for TDM is \$1,078,677.

These TDM Programs are a critical component of the NCDOT's compliance with Senate Bill 953, the Ambient Air Quality Act. This legislation directed the NCDOT to reduce the growth of Vehicle Miles Traveled (VMT) by 25% by 2009, focusing on job related travel. By 2007, the growth of daily commuter VMT had been reduced by 24% and 2,816 tons of NOx had been eliminated. There are currently 187 vanpools in the state and an estimated 995 carpools formed during FY 2007. There are currently 17,135 commuters on file in the on-line rideshare matching database ShareTheRideNC, a 14% increase over 2007 registrations.

This responsibility is outlined in the Triangle 7-Year TDM Plan which describes specific activities to enable the Triangle Region to reach the state goal of reducing the growth of commute VMT by 25%. TJCOG is requesting \$102,500 in state funds to perform the administrative functions. TJCOG is also requesting a total of \$1,352,000 (\$676,000 in state funds and \$676,000 in local match) to provide funding to the TDM Programs at North Carolina State University (NCSU), the University of North Carolina at Chapel Hill (UNC), the Durham and Wake Counties Research and Production Service District (SmartCommute@rtp), the Town of Chapel Hill, and Triangle Transit.</p>	<p>1,454,500 Total 102,500 State 676,000 State 676,000 Local</p>

Employment Transportation Program

The Job Access and Reverse Commute Program (JARC) is a Federal Transit Administration (FTA) program that develops transportation services designed to transport welfare recipients and low income individuals to and from jobs. The program develops transportation services for residents of urban centers and rural and suburban areas to suburban employment opportunities. JARC projects implement new transportation services or extend existing services to fill the gaps that exist in many areas between where people live and employment sites. JARC funds may be used for up to fifty percent (50%) of the cost of the service with a 50% local match. An unexpended balance of funds is available from projects funded in FY06. If not used, the funds will revert to the Federal Transit Administration.

Division 8

06-JA-005 Amendment	<p>Chatham Transit Network is requesting Federal Transit Administration Job Access and Reverse Commute grant funds for employment related transportation services. The funds will allow the system to maximize the use of existing funds to support a route from Siler City to Chapel Hill. Many of passengers are disabled and or have part time jobs. Reliable transportation has allowed some of the passengers to move into full time employment. The federal funds will be matched with United Way funding and state operating assistance program funds.</p>	<p>\$75,275 Total 37,637 Federal 37,638 Local</p>

Following the recommendation of Shirley Williams, Director of Environmental and Planning for the Rail Division, a motion was made by Board Member Thornburg, seconded by Board Member Burrell, and the vote was unanimous to allocate funds to the following projects:

Town/County Division	Project Description	Estimated Cost
1. Statewide	Board approval is requested to execute a contract with the Institute for Transportation Research and Education (ITRE), North Carolina State University, for the Rail Intern Program for The period July 2008 through August 2010. The program provides vital GIS, CADD, and engineering technical support to the Rail Division and provides quality work experience to trainees as well as undergraduate/graduate students studying programs related to GIS and CAD. ITRE will recruit student interns, process applications, conduct orientation and administer the program. Interns are paid a stipend and extend professional staff capabilities in conducting inventory of highway-railroad crossings and in developing engineering solutions for highway railroad crossing safety projects. The total cost for the 26 month period will be \$399,996; \$179,054 for FY 2009, \$188,032 for FY 2010, and \$32,910 for July and August of 2010. WBS 41176	\$179,054
2. Kinston Lenoir Division 2	State Rail Industrial Access Funds are needed to partially finance the costs of constructing a rail industrial access track to serve Project Sunflower. The company is considering renovating and constructing production facilities in Kinston. The company proposes to hire about 204 employees and make a capital investment of up to \$206 million. The company will receive about 12,600 carloads of freight per year. Funding is contingent upon an environmental review and all other Rail Industrial Access Program requirements being satisfied, and is conditional on implementation of transportation improvements necessary to protect the safety of the public, contractors and employees of Project Sunflower. Approval - Municipal and Special Agreements

Manager of the Funds Administration Section Laurie Smith outlined provisions for municipal and special agreements. Pursuant to her recommendation, a motion was made by Board Member Burrell, seconded by Board Member Dennis, and the vote was unanimous to approve the following agreements:

SUMMARY: There are a total of 45 agreements for approval by the Board of Transportation. The agreements are as follows: 38 TIP, 2 Utility, 1 Special and 4 Enhancement.

Statewide

North Carolina Floodplain Mapping Program

This Agreement provides for NCFMP to provide: (1) updates to the flood insurance rate maps (FIRMS) in order to maintain National Flood Insurance Program (NFIP) compliance associated with the Department's projects, (2) complete map revisions, and (3) update certain reports and studies as required by FEMA and other governmental agencies. The Department shall reimburse NCFMP the costs of this work. (Estimated annual cost is \$255,000).

Aberdeen, Carolina & Western Railway

The Aberdeen, Carolina & Western Railway will enter into a Master Agreement with the Department to install, revise, or replace automatic railway-highway grade crossing signals, gates, and traffic control devices at various locations throughout the State. The Master Agreement will streamline construction authorizations by eliminating the drafting and executing of individual project agreements after engineering and estimates have been prepared and submitted by the Railroad.

Notification by the Department to the Railroad will be by an executed Authorization for Construction, providing the necessary information as to each project. Cost will be determined on the basis of individual projects authorized by the Department.

Approval - Revisions of Final Right of Way Plans

Upon a motion by Board Member Blount, seconded by Board Member Perkins, the following resolution was approved:

Whereas, right of way acquisition in accordance with the final right of way plans for the following projects has been determined to be necessary and authorized by the Board. Plans are on file at the Office of the Secretary to the Board of Transportation as an addendum to the minutes of the meetings hereinafter indicated; and

Whereas, certain changes in right of way, construction and drainage easements, and control of access have been necessitated by alterations in the construction plans of these projects. Amended plan sheets for these projects have been prepared which provide for changes of certain right of way areas, construction and drainage easements and control of access; and

Whereas, the Board finds that the revised areas of right of way, construction and drainage easements and control of access, as shown on the amended plan sheets hereinafter set out, are for a public purpose and are necessary for the construction of projects.

Now, therefore, it is hereby ordained that the right of way, construction and drainage easements and control of access are hereby revised as shown on the plan sheets incorporated herein as an addendum, said projects, date of original final approval, and revised right of way, easements and access being as follows:

Approval - Acquisition of Structures Partially Outside the Right of Way

Upon a motion by Board Member Blount, seconded by Board Member Perkins, the following resolution was approved:

Whereas, the preliminary right of way plans for the following highway projects necessitate the acquisition of a part of certain buildings or structures located within the right of way of projects. Based upon the recommendation of the Manager of the Right of Way Branch and affidavits of independent real estate appraisers, the Board finds that the partial taking of the buildings or structures will substantially destroy the economic value or utility of the buildings or structures; and

Whereas, the Board finds that such acquisition of the structures or parts thereof outside the right of way are for a public use and are necessary for the construction of the projects; and

Now, therefore, it is hereby ordained that the Right of Way Branch has been directed to acquire the below described buildings or structures in their entirety for the construction of the listed projects. The Attorney General, if necessary, is requested to institute proceedings to acquire the buildings or structures in their entirety, together with the right to enter upon the surrounding lands for the purpose of removing the buildings or structures.

Approval - Authorization to Condemn Right of Way for Secondary Road Project

The Department has been unsuccessful in acquiring certain right of way for Secondary Roads; and the indemnity bond for the cost of any condemnation proceeding required is being secured in keeping with the Secondary Roads Policy of the Department.

Upon recommendation of the Chief Engineer, and on a motion by Board Member Blount, seconded by Board Member Perkins, the Board finds and hereby authorizes the Right of Way Branch to acquire right of way by condemnation through the Attorney General's office for the following parcel(s):

Division 12

CLAIM OF: Libby Austin

WBS # : 12C.002007

PARCEL #: 181

COUNTY: Alexander

SR #: 1126 (Jake Reese Court)

**Approval – Recommended Supplemental Allocation of Highway Maintenance Appropriations -
Fiscal Year 2007-2008**

Pursuant to the recommendation of Lacy Love, Director of Asset Management, a motion was made by Board Member Sewell, seconded by Board Member Dunn, and the vote was unanimous to approve the following:

On July 11, 2007 and Sept 5, 2007 the Board of Transportation approved allocations of maintenance funds totaling \$905,285,444. Funds have now been made available to cover salary increases granted July 1, 2007 in the amount of \$10,717,518. Also, \$354,596 is recommended to be allocated in accordance with G.S. 20-119.1 for funds generated by oversize & overweight permit fees in excess of the cost of administrating the program. The staff recommends these maintenance funds be allocated to the various systems as indicated below:

	Primary	Secondary	Statewide Infrastructure
Legislative Pay and Retirement Rate Increases	\$3,929,042	\$6,788,476	
Revenues from Oversize & Overweight Permits			\$354,596

The staff recommends these funds be allocated to the Divisions and Counties based on the existing maintenance formulas approved by the Board of Transportation and in accordance with pages 2 through 8.

EXCESS OVERSIZE & OVERWEIGHT FEES

These funds will be used to repair roads and bridges due to oversized & overweight loads as required by general statutes. In accordance with G. S. 20-119.1, funds generated by overweight and oversize permit fees in excess of the cost of administering the program, shall be used for highway and bridge maintenance required as a result of damages caused from these loads. Currently, there are \$354,596 dollars available for use to repair roads and bridges due to these overweight and oversized loads. The staff recommends allocation of these funds to address these needs.

At the time of preparation of this agenda item, the 2008 General Assembly had not ratified the current appropriations act. Accordingly, it is recommended that Maintenance and System Preservation allocations be made in accordance with the continuation budget as shown on Page 13.

ROAD MAINTENANCE

This item, listed under the Primary and Secondary Systems, will be utilized for the purposes of continuing routine maintenance activities including pavement patching, pavement markings, markers, signs, symbols, roadside vegetation management, drainage, unpaved shoulders, litter pickup, and other similar maintenance activities. These expenditures will include both contract and force account maintenance.

Further detail regarding recommended allocations of these funds to Division/Counties are addressed under Schedules I, II, and III.

BRIDGE MAINTENANCE – DIVISIONS

These funds will be utilized for the maintenance of existing bridges including foundations, support bents, flooring and rails in order to maintain the structural integrity of the bridges. The replacement of critical small bridges and pipes is also eligible for funding under this allocation. The amounts recommended for bridge maintenance activities are based upon a maintenance needs inspection, numbers of deficient structures, structures with timber components, and school bus loading of each state highway system bridge. Further details regarding recommended allocations of Division funds are addressed on Page 21.

BRIDGE MAINTENANCE – CENTRAL

These funds will be utilized for the rehabilitation and repair of concrete bridge decks, girder painting, emergency bridge repair or replacement, and the repair or replacement of draw bridge electrical components and equipment, and maintenance of navigational lighting systems on high level bridges located over navigational waterways.

GENERAL MAINTENANCE RESERVE

Beginning in 1999, the General Assembly has provided additional maintenance dollars to help address maintenance needs identified by the Department's Maintenance Condition Assessment Program. This year staff recommends these funds be appropriated as follows:

- A) A direct allocation is made for each of the following statewide programs shown on pages 10 – 12 and itemized on page 13.
- B) A direct allocation to appropriate divisions as indicated on page 22 for the estimated cost of: (1) electricity for traffic control devices (2) roadway and interchange lighting (3) rest area and welcome center maintenance (4) river ferries and (5) other special maintenance needs like landscaping unique to the division.
- C) Remainder of the funds to be allocated to each division based on each division's pro-rata share of total paved lane mileage as indicated on page 22.

WEIGH STATIONS

This item will be utilized for the purpose of maintaining nineteen (19) weigh stations at nine (9) locations across the state on the Primary Highway System. These expenditures will include both contract and force account maintenance.

CONDITION ASSESSMENT AND PERFORMANCE SURVEY

These funds will be used to conduct an assessment of the condition of the State Highway System in the respective divisions for the purpose of planning work to achieve the performance measures and guidelines for the maintenance of the department's highway assets. Data collected from these surveys will be used to develop individual maintenance management plans for each division based on consistent performance measures and goals. This will allow the divisions to set realistic maintenance targets and levels of service based on available funding and an objective method of evaluating their performance.

INMATE LABOR

These funds will be expended as reimbursement to the Department of Correction for the daily furnishing of minimum and medium custody inmates to the Department of Transportation for highway purposes.

HISTORICAL MARKERS

This item will be utilized for the purchase and erection of Historical Markers on sites selected by the Department of Cultural Resources in accordance with General Statute 136-42.3.

RENOVATION OF REST AREAS

These funds will be utilized for the purpose of making maintenance repairs to rest areas located along Interstate and Primary System Routes. The work will include: painting; replacement of floors; bathroom renovations to include replacement of the tile and fixtures; roof replacements; improvements to heating and ventilation; additions of sidewalks; correction of safety hazards; and correction of water and sewer problems.

MAJOR EVENTS

This allocation will assist Divisions in providing traffic control support to Law Enforcement Agencies at major events such as automobile races, golf tournaments, etc.

STATE PARK MAINTENANCE

These funds will be used for maintenance of state park roads as required by G. S. 136-44.12

MAINTENANCE SYSTEMS IMPROVEMENT

This allocation will be used to research, develop, and implement state of the art maintenance technologies, practices, and procedures. The major objective of this program is to improve maintenance efficiencies, improve cost effectiveness, and improve maintenance procedures.

NPDES – NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM

These funds will be utilized for the purpose of facility improvements or installation of retrofit devices for stormwater run off at Division of Highways maintenance facilities in order to comply with the requirements of the National Pollutant Discharge Elimination System permit.

DRUG AND ALCOHOL TESTING

In December of 1994, the Board of Transportation approved allocations to perform drug and alcohol testing to comply with rules and regulations established by the U.S. Department of Transportation. The Department's Drug and Alcohol Testing Program was implemented, and all employees who have a commercial drivers license are being randomly tested for drugs and alcohol.

MAINTENANCE AND REPAIR OF GUARDRAIL

This item represents funds, which will be utilized for the purpose of making maintenance repairs to guardrail, cable guiderail, concrete barriers, anchor end treatments, and other related guardrail items.

SNOW AND ICE COSTS

These funds will be utilized for snow and ice removal and anti-icing costs.

RAILROAD SIGNALS

These funds will be utilized to reimburse various Railroad Companies for maintenance of railroad crossing signals necessitated by State System Highway Railroad Crossings. The proposed expenditures are in accordance with existing agreements with the affected Railroad Companies.

BEAVER CONTROL

The North Carolina Beaver Management Assistance Program is a program established by the North Carolina State Legislature with the purpose of “controlling beaver damage on private and public lands” by providing landowner assistance in beaver control and management. The DOT has provided support in an advisory role and by an annual contribution since the program’s inception to supplement work performed for the protection of DOT assets and allows DOT maintenance forces more flexibility in utilizing their limited resources on mission critical activities.

LITTER REMOVAL

These funds will be used to establish contracts to pick up litter in areas of the State that do not have inmate labor available on interstate and major primary routes. This effort will be combined with the inmate labor program to provide statewide coverage of litter removal crews on the heaviest traveled routes to enhance the scenic beauty of North Carolina.

MANAGEMENT AND TECHNICAL TRAINING

The purpose of this line item is to provide funding for the Division of Highways to administer critical maintenance personnel training needs. Needs have been identified in the areas of management, supervisory and technical expertise to include employee safety.

EMERGENCY WORK ORDERS

These funds will be used to cover previously incurred expenditures for emergency operations, which cannot be collected from other sources.

NON TIP PAVEMENT ACTIVITIES

These funds will be utilized to collect data related to pavement performance, including friction, profile and deflections. This data is used to assist field personnel in planning maintenance activities or scheduling pavement improvements.

BRIDGE FENDER SYSTEM

Bridges over shipping channels rely on fender systems to protect substructures from vessel impact. Fender systems are usually constructed from timber and steel components with timber cushions to attenuate vessel impact. In a marine environment, timber and steel deteriorate at an accelerated rate. Some fender systems are now in need of replacement or major repair.

ASPHALT EMULSION STORAGE TANKS

These funds will be used to replace deficient or irreparable Asphalt Storage Tanks on a priority basis. A biannual inspection is performed on all Asphalt Storage Tanks and replacements will be prioritized based on these inspections and division needs.

MAJOR REPAIRS, RENOVATIONS, AND REPLACEMENT OF DOT FACILITIES

In accordance with HB397 Section 29.10, these funds will be used for maintenance and construction programs for major repair, renovation, and replacement of facilities that fail to meet safety standards or that are obsolete for current or future use. The work will include, but is not limited to, such items as: roof replacements, improvements to heating and ventilation, correction of safety hazards, and correction of water and sewer problems.

SCHEDULE I – PRIMARY SYSTEM

In accordance with recommended allocations listed on Page 13, \$130,277,247 is available for allocation to the Divisions for primary road maintenance. The staff recommends road maintenance funds available be allocated to the Divisions on the basis of each Division’s pro-rata share of statewide primary lane mileage.

SCHEDULE II – SECONDARY SYSTEM

In accordance with recommended allocations listed on Page 13, \$209,079,520 is available for allocation to the counties for the purposes of routine secondary road maintenance.

The staff recommends the following allocation formula:

- (a) \$5,000,000 distributed as a uniform allocation of \$50,000 to each county. This relatively small, uniform lump sum allocation has proven to provide a slightly higher proportionate share of the total allocation to smaller counties and allow them to carry out a more effective program. The amount of reduction to the larger counties will not significantly reduce their maintenance program.

- (b) Of the remaining \$204,079,520 available, in order to support the continuing need for paved road maintenance activities such as, patching, maintenance of unpaved shoulders, drainage maintenance, and traffic services maintenance, it is recommended that 92% be allocated for paved road maintenance and the remaining 8% be allocated for unpaved road maintenance including blading and stabilization of unpaved roads, drainage, signs, and other related activities. For amount allocated to paved road

maintenance, 90% of this amount is allocated for pro-rata share of total secondary paved miles and 10% is allocated for pro-rata share of total population. For amount allocated to the unpaved roads, 100% is allocated to each county based on its pro-rata share of total secondary unpaved miles. A breakdown by county is shown on pages 17 through 20.

BRIDGE MAINTENANCE - DIVISIONS

These funds will be used for activities such as maintenance of existing bridges, including foundations, support bents, flooring, rails, and other necessary activities in order to maintain the structural integrity of the bridges. The replacement of critical small bridges and pipes is also eligible for funding under this allocation. The amounts recommended for Bridge Maintenance activities are based upon a maintenance needs inspection, numbers of deficient structures, structures with timber components, and school bus loading of each State Highway System Bridge.

The staff recommends allocation of funds by Division-wide Highway System as shown below.

SCHEDULE III – GENERAL MAINTENANCE RESERVE

The Continuation Budget provides for additional Highway Maintenance Funds totaling \$149,867,199. This year staff recommends that a direct allocation be made for each of the programs listed on pages 10 – 12 and itemized on page 13, a direct allocation to appropriate divisions for the estimated cost of electricity for traffic control devices, roadway and interchange lighting, rest area and welcome center maintenance, river ferries, and other special maintenance needs like landscaping unique to divisions. The remainder would be allocated to the Divisions based on each Division’s pro-rata share of total paved lane mileage.

SCHEDULE IV – SYSTEM PRESERVATION

At the time of preparation of this agenda item, the 2008 General assembly had not ratified the current appropriations act. It is recommended that System Preservation allocations be made as based on the continuation budget in the amount of \$79,951,301. The staff recommends a uniform allocation of \$28,000,000 divided equally between the divisions, \$15,000,000 allocated to the divisions based on bridge deck area, and \$36,951,301 allocated to the divisions based on pro-rata share of divisions paved lane miles. These funds will be used for system preservation activities such as, but not limited to, chip seals, crack sealing, pavement markings and markers, painting structural steel, replacing expansion joints and waterproofing bridge decks.

Approval – Granville County Comprehensive Transportation Plan

Mike Bruff, Branch Manager of Transportation Planning, advised that the Transportation Planning Branch has worked cooperatively with the County of Granville and participating municipalities to develop a Comprehensive Transportation Plan for the County. The Plan is based on an analysis of existing and projected travel, land use, public involvement and field investigations of recommended improvements.

The County of Granville adopted the Plan on October 1, 2007. The Cities of Butner and Oxford adopted the plan on September 6, 2007 and September 11, 2007, respectively. The Towns of Stovall and Stem adopted the plan on September 10, 2007 and September 17, 2007, respectively. The plan has also

been coordinated with, and endorsed by, the Capital Area MPO, the City of Creedmoor, and the Kerr-Tar RPO.

Accordingly, on a motion by Board Member McRae, seconded by Board Member Blount, the Board approved the Granville County Comprehensive Transportation Plan.

Approval – Warren County Comprehensive Transportation Plan

Mike Bruff, Branch Manager of Transportation Planning, advised the Transportation Planning Branch has worked cooperatively with the County of Warren and participating municipalities to develop a Comprehensive Transportation Plan for the County. The Plan is based on an analysis of existing and projected travel, land use, public involvement and field investigations of recommended improvements.

The County of Warren adopted the Plan on November 11, 2007. The Towns of Warrenton, Norlina and Macon adopted the Plan on November 12, 2007, April 7, 2008 and October 9, 2007, respectively. The plan has also been coordinated with, and endorsed by the Kerr-Tar RPO.

Accordingly, on a motion by Board Member McRae, seconded by Board Member Blount, the Board approved the Warren County Comprehensive Transportation Plan.

Approval – Lee County Comprehensive Transportation Plan

Mike Bruff, Branch Manager of Transportation Planning, advised that the Transportation Planning Branch has worked cooperatively with Lee County and participating municipalities to develop a Comprehensive Transportation Plan for the County. The Plan is based on an analysis of existing and projected travel, land use, public involvement and field investigations of recommended improvements.

Lee County adopted the Plan on December 3, 2007. The Town of Broadway adopted the Plan on November 26, 2007 and the City of Sanford adopted the Plan on November 20, 2007. The Plan has also been coordinated with, and endorsed by the Triangle RPO.

Accordingly, on a motion by Board Member McRae, seconded by Board Member Blount, the Board approved the Lee County Comprehensive Transportation Plan.

Approval – Town of Mooresville Comprehensive Transportation Plan

Mike Bruff, Branch Manager of Transportation Planning, advised that the Transportation Planning Branch has worked cooperatively with the Town of Mooresville to develop a Comprehensive Transportation Plan. The Plan is based on an analysis of existing and projected travel, land use, public involvement and field investigations of recommended improvements.

The Town adopted the Plan on September 4, 2007. The Plan has also been coordinated with, and endorsed by the Lake Norman RPO.

Accordingly, on a motion by Board Member McRae, seconded by Board Member Blount, the Board approved the Town of Mooresville Comprehensive Transportation Plan.

North Carolina Turnpike Authority 2009 Annual Plan of Work

Following the recommendation of Doug Galyon, Chairman of the Board of Transportation, the North Carolina Turnpike Authority 2009 Annual Plan of Work will lay on the table for thirty days. Mr. Galyon encouraged everyone to review the plan of work and be prepared for discussion at the July Finance and Programming Committee meeting.

Additional Business

Approval – 2009-2015 State Transportation Improvement Program

Upon a recommendation of the Finance and Programming Committee, a motion was made by Board Member Campbell, seconded by Board Member McRae and the vote was unanimous to approve the 2009-2015 State Transportation Improvement Program.

A copy of this agenda item is made a part of the record of this meeting and filed as an addendum to Minute Book 25.

Approval – EEP Biennial Budget

Upon a recommendation of the Finance and Programming Committee, a motion was made by Board Member Campbell, seconded by Board Member Blount and the vote was unanimous to approve the EEP Biennial Budget for State Fiscal Years 2008/09 and 2009/10.

A copy of this agenda item is made a part of the record of this meeting and filed as an addendum to Minute Book 25.

Approval – Letter Of Objection To The Current Rules That Are Being Reviewed For The Jordan Lake Nutrient Study

Upon a recommendation of the Environment-Planning and Policy Committee, a motion was made by Board Member Perkins, seconded by Board Member Dennis and the vote was unanimous to approve the letter of objection to the current rules that are being reviewed for the Jordan Lake Nutrient Study.

Approval – Resolution for Supporting Timely Implementation of a Third Intercity Passenger Rail Frequency to Operate Between Raleigh and Charlotte

Upon a recommendation of the Transit, Rail, Ferry and Aviation Committee, a motion was made by Board Member Dunn, seconded by Board Member Sewell and the vote was unanimous to approve the following resolution:

WHEREAS, the North Carolina Department of Transportation has partnered with Norfolk Southern Railway, CSX Transportation and the North Carolina Railroad Company to invest in additional railroad capacity, enhance crossing safety and reduce travel times; and

WHEREAS, the Department has partnered with communities to renovate historic train stations, build new multimodal transportation centers and make investments that provide for modern, safe and efficient intercity passenger rail stations; and

WHEREAS, the Department has invested State funds to refurbish passenger rail cars and locomotives and provide facilities that support intercity passenger operations; and

WHEREAS, the Department has supported operation of the daily intercity passenger trains known as the *Carolinian* since 1990, said train providing service to Charlotte, Kannapolis, Salisbury, High Point, Greensboro, Burlington, Durham, Cary, Raleigh, Selma, Wilson, Rocky Mount and on to Washington, D.C. and New York City; and

WHEREAS, the Department has supported operation of the daily intercity passenger trains known as the *Piedmont* since 1995, said train providing service to Charlotte, Kannapolis, Salisbury, High Point, Greensboro, Burlington, Durham, Cary and Raleigh; and

WHEREAS, the National Railroad Passenger Corporation doing business as Amtrak's national passenger rail system currently serves 16 cities and towns in North Carolina with six daily trains, two in partnership with North Carolina, providing safe, efficient and affordable intercity mobility for hundreds of thousands of North Carolinians annually; and

WHEREAS, the rising cost of energy impacts citizens, commerce and mobility in our State; and

WHEREAS, ridership on both the *Piedmont* and *Carolinian* has increased by 22 percent during the first half of the year and ticket revenues have increased by 21 percent; and

WHEREAS, funds are available to the Department from the federal Congestion Mitigation and Air Quality program to operate the service for a period of up to three years; and

WHEREAS, the North Carolina General Assembly through adoption of the Ambient Air Quality Act of 1999 has tasked the Department to reduce the rate of growth in vehicle miles traveled by automobiles and vehicle emissions; and

WHEREAS, as North Carolina's population and traffic grow, development of rail transportation becomes increasingly important as an alternative to auto and air transport for both freight and passengers; and

WHEREAS, the foundation has been established to support expanded service options; and the public response to the existing service has been positive; and

WHEREAS, the North Carolina Board of Transportation supports timely implementation of a third intercity passenger rail frequency to operate between Raleigh and Charlotte (the service); and

Now, therefore, be it resolved by the North Carolina Board of Transportation (Board):

SECTION 1 The Board directs the staff to work with Norfolk Southern Railways, CSX Transportation and other freight railroads, the North Carolina Railroad Company, Amtrak and other entities as necessary to implement this service as soon as practical.

SECTION 2 This resolution is effective upon adoption, this the fifth day of June 2008.
