BOARD OF TRANSPORTATION MEETING

May 7, 2009

Call to Order

Chairman Galyon called the meeting of the Board of Transportation to order at 11:00 a.m., Thursday, May 7, 2009 in Raleigh, North Carolina with the following members present:

Burrell, Collier, Cowell, Dennis, Dunn, Galyon, Kindley, Lakey, Perkins, Szlosberg, White

Member Tulloss participated via conference call.

Members Blount, McRae and Wilson were absent.

Invocation

The invocation was offered by Board Member White.

Ethics Statement

Chairman Galyon read the Ethics Statement advising any Board Member that may have a conflict of interest or appearance of conflict to abstain from participation in that particular item and to file the proper paper work with the Secretary to the Board.

Approval - Minutes of April 2, 2009 Board Meeting

The minutes of the April 2, 2009 Board of Transportation Meeting were unanimously approved upon a motion by Board Member Collier and was seconded by Board Member Burrell.

Approval - Award of Highway Construction Contracts in the April 21, 2009 Letting
Director of Preconstruction Debbie Barbour reviewed projects advertised in the April 21, 2009 letting, noting on the basis of the low bids received that 20 projects would cover all the work in the letting. After review of the projects, according to Executive Order No. 2 and G.S. 143B-350(g) the Board concurred with staff recommendations and delegated authority to the Secretary to award the following highway construction projects:

(1) Upon a motion by Board Member Burrell, seconded by Board Member Lakey, the vote was unanimous to delegate authority to the Secretary to award all of the following highway construction projects to the respective low bidders.

Award of all contracts covering the use of Federal-aid highway funds is subject to concurrence by the Federal Highway Administration.

According to Executive Order No. 2 and G.S. 143B-350(g) the Board is requested to concur with staff recommendations and delegate authority to the Secretary to award contracts to private firms for engineering services.

Approval – Award of Contracts to Private Firms for Engineering Services - Highway Design Branch
Pursuant to the recommendation of Art McMillan, State Highway Design Engineer, a motion was made by Board Member Burrell, seconded by Board Member Lakey, and the vote was unanimous to delegate authority to the Secretary to award the following contracts. Award of contracts is subject to approval by the Advisory Budget Commission pursuant to G.S. 136-28(f).

The following are supplemental contracts to previous contracts approved by the Board with the same engineering firm. These supplemental contracts were necessary due to approved additional work that was unknown at the inception and is required of the firms to complete the designs.

DIVISION 3
(1) Project: 35008.1.1 (U-4007B) Onslow County
Design of US 17 Western Parkway from SR 1403 (Country Club Road) to Western Boulevard in Jacksonville

Estimated Construction Cost: $33,800,000.00
Firm: Stantec Consulting Services, Inc., Raleigh, NC
Original Engineering Fee: $567,135.96
Supplemental Fee: $60,998.67
Supplemental Work: Traffic control plans
SPSF Utilization: 0%

DIVISION 7
(2) Project: 34820.1.1 (U-2524C) Guilford County
Design of Greensboro Western Loop from north of SR 2176 (Bryan Boulevard) to US 220 (Battleground Avenue)

Estimated Construction Cost: $104,700,000.00
Firm: Parsons Transportation Group, Raleigh, NC
Original Engineering Fee: $607,772.13
Previous Supplemental Fees: $821,942.99
Supplemental Fee: ($36,664.01)
Supplemental Work: Additional roadway and hydraulic design and elimination of location surveys
SPSF Utilization: 0%

DIVISION 14
(3) Project: 33097.1.1 (B-3480) Jackson County
Design of Bridge No. 39 over East Fork Tuckasegee River on NC 107

Estimated Construction Cost: $3,350,000.00
Original Engineering Fee: $71,585.90
Previous Supplemental Fees: $154,195.91  
Supplemental Fee: $5,144.11  
Supplemental Work: Traffic control plans  
SPSF Utilization: 0%

The following is a Professional Services Contract. This contract was necessary due to revisions and/or additional work required after the original contract has been closed. This work was unknown at the inception and is required of the firm to complete the design. The following is being presented to the Board for information only.

**DIVISION 8**

(4) Project: 34480.1.1 (R-2606A) Randolph County  
Design of US 311 from south of SR 1920 (Tuttle Road) to North of SR 1929 (Spencer Road)

Scope of Work: Roadway Design  
Estimated Construction Cost: $10,023,000.00  
Firm: Earth Tech of North Carolina, Inc., Raleigh, NC  
Maximum Engineering Fee: $4,437.69  
SPSF Utilization: 0%

According to Executive Order No. 2 and G.S. 143B-350(g) the Board is requested to concur with staff recommendations and delegate authority to the Secretary to award contracts to private firms for engineering services.

**Approval – Award of Contracts to Private Firms for Engineering Services – Transportation Mobility and Safety**

Pursuant to the recommendation of Kevin Lacy, State Traffic Engineer, a motion was made by Board Member Burrell, seconded by Board Member Lakey, and the vote was
unanimous to delegate authority to the Secretary to award the following contacts. Award of contracts is subject to approval by the Advisory Budget Commission pursuant to G.S. 136-28(f).

After careful evaluation of the workload and schedules of the work that can be accomplished by our Work Zone Traffic Control Unit Staff, it was determined necessary to employ private firms for work zone engineering services and plan preparation for our Department to obligate available funds. Our staff was authorized to proceed with the actions required to employ private engineering firms in accordance with the policies and procedures adopted by the Board on April 7, 2005. The following is a supplemental contract to a previous contract approved by the Board with the same engineering firm. This supplemental contract was necessary due to approved additional work that was unknown at the inception and is required of the firm to complete the designs.

**STATEWIDE**

1. **Project:** Limited Services Contract  
   **Scope of Work:** Traffic Engineering Services  
   **Firm:** KO & Associates, PC, Raleigh, NC  
   **Original Maximum Engineering Fee:** $200,000.00  
   **Supplemental Fee:** $100,000.00  
   **SPSF Utilization:** 0%

The following is a supplemental contract to a previous contract approved by the Board with the same engineering firm. This supplemental contract is necessary due to approved additional work that was unknown at the inception and is required of the firm to complete the designs. This is for information only.

2. **Project:** Limited Services Contract  
   **Scope of Work:** Traffic Engineering Services  
   **Firm:** HNTB North Carolina, PC, Raleigh, NC  
   **Original Maximum Engineering Fee:** $200,000.00  
   **Supplemental Fee:** $20,000.00  
   **SPSF Utilization:** 0%

According to Executive Order No. 2 and G.S. 143B-350(g) the Board is requested to concur with staff recommendations and delegate authority to the Secretary to approve funds for secondary road improvement projects.

**Approval – Funds for Secondary Road Improvement Projects**

Secondary Roads Program Manager Delbert Roddenberry reviewed secondary road improvement projects and recommended Board approval. A motion was made by Board Member
Burrell, seconded by Board Member Lakey, and the vote was unanimous to delegate authority to the Secretary to approve the following secondary road improvement projects.

**Approval – Public Transportation Program**

Following the recommendation of Miriam Perry, Director of Public Transportation Division, a motion was made by Board Member Dunn, seconded by Board Member Szlosberg, and the vote was unanimous to allocate funds to the following projects:

**Public Transportation Grant Program**

Division 3
Cape Fear Public Transportation Authority received approval for a Federal Transit Administration Urbanized Area Formula (Section 5307) capital grant. The grant will be used for the purchase of one replacement paratransit vehicle to meet the requirements of the Americans with Disabilities Act. The authority is requesting a 10% state match for the vehicle purchase. The recommended effective date for reimbursement of eligible project costs is July 1, 2008, to coincide with the period of performance authorized by the Federal Transit Administration.

Divisions 5 & 7

The Research Triangle Regional Public Transportation Authority (Triangle Transit) is requesting the Department’s share of the annual cost of the license and maintenance agreements for software for the web-based rideshare matching program for ShareTheRideNC.org. This program allows commuters to generate match lists for potential carpool or vanpool partners. Triangle Transit administers this program on behalf of NCDOT. There are ten licenses held by five Transportation Demand Management programs and the Department. The City of Wilmington pays the full 100% cost of their license.

Division 6

The City of Fayetteville received approval for a Federal Transit Administration Urbanized Area Formula Program (Section 5307) capital grant. The grant provides funding for the purchase of a mobile unit to be used as a transfer center for the Fayetteville Area System of Transit (FAST). The existing transfer center is a mobile unit that is outdated and the replacement mobile unit purchased through this grant will be better designed for operations and provide better security.

The City is requesting a 10% state match. The effective
date for reimbursement of eligible project costs is November 1, 2008, to coincide with the period of performance authorized by the Federal Transit Administration.

### Division 10

</table>

The **City of Charlotte** received approval for a Federal Transit Administration Section 5307 Urbanized Area Formula Program grant from funds transferred from the Federal Highway Administration’s Congestion Mitigation and Air Quality (CMAQ) program. The city will purchase three 40 ft. expansion buses to support the increase in their ridership. The city is requesting an 8% state match. The recommended effective date for reimbursements of eligible costs is April 25, 2007 to coincide with the period of performance authorized by the Federal Transit Administration.

The **City of Charlotte** received approval for an amendment to the Federal Transit Administration (FTA) Urbanized Area Formula Program (Section 5307) capital grant. The amendment called for a reduction of state funds in the amount of $578,337. This amended grant will be used to purchase vanpools, shelters and bus shop equipment. In addition, funding will be used for debt service payments and preventive maintenance costs. The city is requesting an 8% state match for the paratransit and debt service portion of the grant and a 10% state match to the major capital and bus facility items in the grant. The recommended effective date for reimbursements of eligible costs is February 28, 2008 to coincide with the period of performance authorized by the Federal Transit Administration.

Moving Ahead

Division 7

Project No. 08-04-0002-02 The City of High Point received approval for an amendment to a Federal Transit Administration Capital grant (Section 5309). The amendment to the grant provides funding for construction of the downtown transportation terminal (Mendenhall Station). The city is requesting a 10% state match to the federal funding. The recommended effective date for reimbursement of eligible project costs is July 1, 2008, to coincide with the period of performance authorized by the federal Transit Administration.

Division 10

Project No. 07-04-0010-00 The City of Charlotte received approval for a Federal Transit Administration (FTA) Capital program (Section 5309) grant. The grant will be used to partially reimburse the City for construction costs incurred for work performed on the Eastland Bus Facility Project. The city is requesting a 10% state match to the federal funding. The recommended effective date for reimbursement of eligible project cost is June 19, 2007, to coincide with the period of performance authorized by the Federal Transit Administration.

Project No. 07-03-0077  The City of Charlotte received approval for a Federal Transit Administration (FTA) Capital Grant Program (Section 5309). The grant will be used to provide additional funding for the engineering and design work for the Charlotte Multimodal Transit Center. The city is requesting a 10% state match to the federal funding. The recommended effective date is June 18, 2007 to coincide with the period of performance authorized by the Federal Transit Administration.

**Division 13**

Project No. 09-04-0028  The City of Asheville has received approval for a Federal Transit Administration Urbanized Area Program (Section 5309) capital grant to purchase five replacement hybrid buses in the Asheville Transit fleet (NC-04-0028-00). The effective date for reimbursement of eligible project costs is January 1, 2009, to coincide with the period of performance authorized by the Federal Transit Administration.
New Start Program

Agreement and Grant Contract Overview: To formalize the State’s commitment for its share of the cost of the Charlotte South Corridor (LYNX Blue Line) Rail projects, State legislation provided for a State Full Funding Grant Agreement (FFGA). The State FFGA describes the project to be funded, identifies the schedule for the project to be completed and sets the maximum State funding available for the project. The State FFGA, however, is not the mechanism under which State funds are obligated and disbursed for the State share of a project cost. For that, the State FFGA identifies a Grant Contract as the method. Amendments to the State FFGA require approval by the North Carolina Board of Transportation (NCBOT) and a legislative review.

To obligate and disburse State funds for a project a modified standard grant contract was created and titled Grant Contract. The Grant Contract provides for the obligation and disbursement of specific State funds for specific items of a project to the grantee and conditions under which the funds are disbursed to the grantee, such as receipt of a vendor or contractor’s invoice for FTA approved project costs. The Grant Contract refers to a State FFGA setting the overall conditions for State participation in a project and recognizes that the State’s share of a project cost is likely to be made available in stages that are related to the approval of the portions of the project by the federal government over time.

State funds in the Grant Contract are not matched to any federal grant, but are made available on a separate schedule for the project as a whole. Amendments to the Grant Contract must be approved by the NCBOT.

At its May 1, 2008 meeting, the NC Board of Transportation approved the use of $8,976,183 in state New Start Program funds to amend the SFFGA with the City of Charlotte. The amendment allows the department to increases its participation in the project up to the maximum allowable 25% from $106,672,390 to $115,687,073. This action would allow the city to reduce its local share by $8,976,183 to assist in purchasing four additional rail cars for the LYNX light rail system. The SFFGA has been amended and the grant contract amendment is now ready to be executed.

Requested Board Action: The Board is requested to approve a Grant Contract amendment with the City of Charlotte for the South Corridor Light Rail Project (LYNX Blue Line) in the amount of $8,976,183 to allow for the State reimbursement of its share of the costs to the maximum allowable 25% of the project that received Federal Transit Administration approval.

**Approval – Bicycle and Pedestrian Planning Grants**

Following the recommendation of Tom Norman, Director of the Bicycle and Pedestrian Division, a motion was made by Board Member Dunn, seconded by Board Member Szlosberg, and the vote was unanimous to approve the following:

Legislation (G.S. 136-66.2, Section 1) enacted by the NC General Assembly requires each
municipality, with the assistance of NCDOT, to develop a comprehensive transportation plan that will serve present and anticipated travel demand. In the development of this plan, consideration shall be given to all transportation modes including, but not limited to the street system, transit, rail, bicycle, pedestrian, and operating strategies. The General Assembly has approved a recurring budget item of $250,705 per year for municipal bicycle and pedestrian planning grants. Federal planning funds in the amount of $149,295 are also allocated to make the total federal and state grant amount of $400,000 annually.

The NCDOT Division of Bicycle and Pedestrian Transportation received a total of 35 planning grant applications for 2009. A total of 12 municipalities have been selected to receive FY09 planning funds for a total allocation of $315,850.

**ITEM M SUMMARY - 140 PROJECT(S) - (TOTAL FEDERAL AND STATE) $270,623,340.00**
Approval – Revisions to the 2009 - 2015 STIP

Following the recommendation of Calvin Leggett, Manager of the Program Development Branch, a motion was made by Board Member Lakey, seconded by Board Member Perkins, and the vote was unanimous in approving the following modifications to the 2009 – 2015 State Transportation Improvement Program:

HIGHWAY PROGRAM

STIP ADDITIONS

DIVISION 1
1. E-5100 Edenton, Roanoke River Lighthouse, Chowan County. Move foundation and perform both interior and exterior restorations. Project on April 1, 2009, Item N-1 (Handout).

DIVISION 3
1. U-5132 Jacksonville, NC 24 (Lejeune Boulevard), Onslow County. Construct a trumpet interchange between SR 1308 (Bell Fork Road) and US 17 Bypass. New access to Camp Lejeune Marine Corps Base. Project on April 1, 2009, Item N-1 (Handout).

DIVISION 4
1. R-5162 US 70 Business and SR 1553 (Shotwell Road), Johnston County. Intersection improvements. Project on April 1, 2009, Item N-1 (Handout).

DIVISION 5
1. R-5164 Resurfacing, Durham County. Various routes to be selected. Project on April 1, 2009, Item N-2 (Handout).
2. R-5165 Resurfacing, Franklin County. Various routes to be selected. Project on April 1, 2009, Item N-2 (Handout).
3. R-5166 Resurfacing, Granville County. Various routes to be selected. Project on April 1, 2009, Item N-2 (Handout).
4. R-5167 Resurfacing, Person County. Various routes to be selected. Project on April 1, 2009, Item N-2 (Handout).
5. R-5168 Resurfacing, Vance County. Various routes to be selected. Project on April 1, 2009, Item N-2 (Handout).

Approval - Municipal and Special Agreements

Director of Transportation Program Management Unit Rodger Rochelle outlined provisions for municipal and special agreements. Pursuant to his recommendation, a motion was made by Board Member Collier, seconded by Board Member Burrell, and the vote was unanimous to approve the following agreements:

SUMMARY: There are a total of 33 agreements for approval by the Board of Transportation.

Statewide

United States Department of Agriculture Animal and Plant Health Inspection Service (APHIS), Wildlife Services (WS) R-9999 WM 34634.1.1

This cooperative service agreement is to provide beaver damage management services to reduce or eliminate property damage and threats to human health and safety caused by beaver activities at wetland mitigation sites identified by the Department. The USDA/APHIS-WS shall conduct the damage management services and monitor the sites for new activity. The Department shall reimburse the Wildlife Services one hundred percent (100%) of the actual costs for the work incurred at each site. (Estimated annual cost is $15,000.)

Division 1

Town of Manteo Dare County TIP: R-4436

This is an Economic Stimulus project that consists of the construction of stormwater wetland along US 64/264, Grenville and Bowertown Roads in Manteo. The Municipality shall construct the project. The Department shall prepare the environmental document and participate in actual construction costs in an amount not to exceed $250,000.
This project consists of the widening of NC 24 from a three-lane section to a five-lane curb and gutter section in Cedar Point. This Supplemental Agreement provides for the Municipality to reimburse the Department for the sidewalks in five (5) equal annual principal installments. (Total reimbursement to Department shall be $67,885.53.)

This project consists of the installation of automatic warning devices on Queen Street and the Norfolk Southern Railway tracks (Crossing No. 722 704D). The Department shall prepare the plans and oversee the installation of devices. The Railroad shall install the devices. The Municipality shall be responsible for all improvements to and repair of the street approaches and the Department will reimburse 100% of the approved allowable project costs of the approach work. NCRR will reimburse the Department 10% of the actual cost of the project and 100% of costs not reimbursed by FHWA. The Municipality shall assume responsibility for 50% of the operating railroad's cost of maintenance. (Estimated cost of the project is $124,000.)

This project consists of the installation of the installation of
North Carolina Railroad Company
Craven County
Z-4402DD

automatic warning devices on South Front Street and the Norfolk Southern Railway tracks (Crossing No. 722 699J). The Department shall prepare the plans and oversee the installation of devices. The Railroad shall install the devices. The Municipality shall be responsible for all improvements to and repair of the street approaches and the Department will reimburse 100% of the approved allowable project costs of the approach work. NCRR will reimburse the Department 10% of the actual cost of the project and 100% of costs not reimbursed by FHWA. The Municipality shall assume responsibility for 50% of the operating railroad’s cost of maintenance. (Estimated cost of the project is $124,000.)

City of Kinston
Lenoir County
Y-4802C

This project consists of the installation of automatic warning devices on College Street and the Norfolk Southern Railway tracks (Crossing No. 722 797A). The Department shall prepare the plans and oversee the installation of devices. The Railroad shall install the devices. The Municipality shall be responsible for all improvements to and repair of the street approaches and the Department will reimburse 100% of the approved allowable project costs of the approach work. The Municipality shall reimburse the Department 44% of the cost of the project, 100% of costs not reimbursed by FHWA, and assume responsibility for 50% of the operating railroad’s cost of maintenance. (Estimated cost of the project is $150,000.)
Y-4802C Avenue and the Norfolk Southern Railway tracks (Crossing No. 722 806W). The Department shall prepare the plans and oversee the installation of devices. The Railroad shall install the devices. The Municipality shall be responsible for all improvements to and repair of the street approaches and the Department will reimburse 100% of the approved allowable project costs of the approach work. The Municipality shall reimburse the Department 44% of the cost of the project, 100% of costs not reimbursed by FHWA, and assume responsibility for 50% of the operating railroad’s cost of maintenance. (Estimated cost of the project is $150,000.)

City of Greenville Pitt County ER-2971 B 33913.3.5 This project consists of the construction of sidewalks, curb and gutter, and wheel chair ramps along Charles Blvd. in Greenville. The Municipality shall be responsible for all phases of the project. The Department shall participate in the actual construction costs of the project in an amount not to exceed $40,000. Costs which exceed this amount shall be borne by the Municipality.

Division 4

County of Nash Nash County 46794 This project consists of the construction of an access road to the proposed business park on new location from NC 231 to US 64 in the Town of Middlesex. This Supplemental Agreement is to amend the Department’s participation in the total cost of the project not to exceed an amount of $1,100,000 in lieu of $1,400,000.

Division 5

Holly Homes, LLC This project consists of the replacement of
Wake County
B-4300
33637.3.1

Bridge No. 29 over Clarks Creek on SR 1007 in Wake County. The Developer has requested the Department to include an additional turn lane in conjunction with the project. The Developer shall reimburse the Department for the additional work. (Estimated cost to the Developer is $41,597.86.)

City of Durham
Durham County
U-3804

This project consists of roadway improvements on Hillandale Road (SR 1321) from I-85 to SR 1407 (Carver Street). The Department shall prepare the environmental and/or planning document, project plans and specifications, construct the project, and acquire any needed right of way. The Municipality shall relocate and adjust any municipally-owned water and sewer lines. At the request of the Municipality, the Department shall include provisions in its construction contract for the construction of sidewalks along Hillandale Road. The Municipality shall reimburse the Department 50% of the actual cost of the sidewalk. (Estimated cost to the Municipality is $40,572.)

Town of Wake Forest
Wake County
B-3919

This project consist of improvements to Bridge No. 448 over Austin Creek and Bridge No. 140 over Smiths Creek which approaches on SR 2053 (Jones Dairy Road) in Wake Forest. The Department shall prepare the environmental and/or planning document, project plans and specifications, construct the project, and acquire any needed right of way. The Municipality shall relocate and adjust any municipally-owned water and sewer lines. At the request of the Municipality, the Department shall include provisions in its construction contract for the construction of sidewalks on both sides of each bridge. The Municipality shall reimburse the Department 30% of the actual cost of the sidewalk. (Estimated cost to the Municipality is $6,376.)

County of Warren
Warren County
K-2905
34246.3.1

This Agreement implements the procedures for the maintenance and/or repair costs associated with the Welcome Center Pump Stations in Warren County.
The Department and County will determine the cost share of the pump stations based on water usage figures.

City of Raleigh
Wake County
EB-4978
39981.2.1

This project consists of the construction of a multi-use path along Edwards Mill Road from Trinity Road to the pedestrian culvert at Reedy Creek Road. The Department is responsible for all phases of the project. The Municipality shall participate in an amount up to $25,000.

Town of Fuquay-Varina
Wake County
B-4302
33639.3.1

This project consists of the replacement of Bridge No. 336 over Terrible Creek and approaches on SR 1301 (Sunset Lake Road) in Fuquay-Varina. At the request of the Municipality, the Department shall include provisions in the construction contract for the contractor to install municipally-owned water lines. The Municipality shall reimburse the Department the entire cost of said utility work. (Estimated cost to the Municipality is $150,000.)

Division 6

City of Fayetteville
Cumberland County
Z-4706F

This project consists of the installation of automatic warning devices on Maiden Lane and the CSX Transportation tracks (Crossing No. 629 569K). The Department shall prepare the plans and oversee the installation of devices. The Railroad shall install the devices. The Municipality shall be responsible for all improvements to and repair of the street approaches. The Municipality shall reimburse the Department 10% of the cost of the project, 100% of costs not reimbursed by FHWA, and assume responsibility for 50% of the operating railroad’s cost of maintenance. (Estimated cost of the project is $160,000.)

Division 7

Town of Chapel Hill
Orange County
E-4601
34123.3.1

This project consists of the construction of the Morgan Creek Trail in Chapel Hill. This Supplemental Agreement provides for $300,000 in additional ARRA funds for the

The Municipality shall provide at least 20% matching funds and all costs that exceed the federal award of $1,424,700.

Division 8

CSX Transportation, Inc.
Scotland County
B-4641
33809.2.1

This project consists of the replacement of Bridge No. 75 over Big Shoe Heel Creek on US 74 Business in Scotland County. The Department needs to facilitate acquisition of right of way, construction easements and a flagging agreement, if necessary, along CSXT’s property at approximate Milepost SE273.54 to SE273.74 parallel to CSXT’s trestle over Big Shoe Heel Creek in conjunction with the Department’s bridge replacement project. The Railroad will review the Department’s plans and specifications for said project and estimate flagging needed to accommodate the proposed right of way and construction easement area. The Department will be responsible for all cost incurred by the Railroad. (Estimated cost of the work is $90,000.)

Town of Pinebluff
Moore County
B-4583
33784.3.1

This project consists of the replacement of Bridge No. 176 over Aberdeen Creek on SR 1105 (Pinebluff Lake Road). The Department shall prepare the environmental and/or planning document, project plans and specifications, construct the project, and acquire any needed right of way. The Municipality shall relocate and
adjust any municipally-owned utilities except water and sewer lines and any utilities under franchise.

City of Sanford  
Lee County  
EB-4981  
39948.3.1

This Supplemental Agreement provides Economic Stimulus funding for the Endor Iron Furnace Greenway in the City of Sanford. The Municipality shall be responsible for all phases of the project. The Department shall reimburse the Municipality 100% (ARRA) of the approved eligible cost covered under the Agreement up to the maximum federal award amount of $500,000.

City of Sanford  
Lee County  
R-2417C  
34431.3.1

The project consists of roadway improvements located on US 421/NC 87 (Sanford Bypass) from east of NC 42 to NC 87 near SR 1138 in Lee County. At the request of the Municipality, the Department shall include provisions in the construction contract for the contractor to adjust and relocate municipally-owned water and sewer lines. The Municipality shall reimburse the Department the entire cost of said utility work. (Estimated cost to the Municipality is $1,087,483.10).

Division 9

Town of Rural Hall  
Forsyth County  
U-4741 MA  
39745.3.ST1

This project consists of the installation of sidewalk located behind existing curb and gutter along NC Hwy. 66 between Paso Street and Wall Street and the installation of sidewalk and curb and gutter along Park Street between NC Hwy 66 and Church
Street in Rural Hall. The Municipality shall be responsible for all phases of the project. The Department shall reimburse the Municipality 100% of the approved eligible costs covered under this Agreement up to the maximum federal award amount of $190,000.00 under ARRA funding.

Town of Walkertown
Forsyth County
U-4741 LA
39745.3.12

This project consists of the installation of 5-foot sidewalks on Main Street from New Street to Depot Street in Walkertown. The Municipality is responsible for all phases of the project. The Department shall reimburse the Municipality to the extent of 80% of the approved eligible costs up to and not to exceed the maximum federal award amount of $100,000. The Municipality shall provide at least 20% matching funds ($25,000) and all costs that exceed the total maximum amount of $100,000.

City of Winston-Salem
Forsyth County
EB-4020 B
33974.1.2

This Supplemental Agreement is to amend the scope of the project and the funding participation from the Department. The Brushy Fork Creek Greenway project shall consist of the construction of approximately 0.6-mile long, 10-foot wide, asphalt/concrete facility on each side from Old Greensboro Road to Lowery Street, including the installation of a bridge in Winston-Salem. The Department shall participate in the total cost of the project for actual costs not to exceed an amount of $600,000 in lieu of $300,000.

Town of Rural Hall
Yadkin Valley Railroad Company
Forsyth County
Y-4809B

The project consists the permanent closure and removal of SR 1644 (Anderson Road) and Yadkin Valley Railroad Company crossing (Crossing # 721 761 N, Milepost 38.5), minor widening of Depot Street at the intersection of SR 1644 (Anderson Road) and SR 1645 (Second Street); geometric improvements at the intersection of Depot Road and SR 1645 (Second Street) and the installation of concrete
crossing surfaces and panels at SR 1645 (Second Street) (Crossing # 721 760G, MP 38.4). The Department, and/or its agent, shall be responsible for the preparation of the environmental and/or planning document, obtain any environmental permits, needed to construct the project, prepare a State approved erosion and sedimentation control plan, construction plans, contractor specifications and estimates (PS&E package), administer and/or award the construction contract and supervise project construction. The Railroad, and/or its agent, shall provide the concrete surface materials that will be installed at SR 1645 (Second Street) (Crossing # 721 760G, MP 38.4), at no expense to the Municipality. The Department shall reimburse the Railroad one hundred percent (100%) of the actual cost for the concrete surface materials used for this project. Estimated cost of the materials is $118,238.

Division 10

Stanly Community College Foundation
Stanly County
R-0967 CC
34355.3.12

This project consists of additional work which includes roadway widening at SR 1306 (College Drive) northward from SR 1274 (West Main St.), in conjunction with the Department’s TIP Project No. R-0967 CC. The Department shall modify the project plans. The SCCF shall adjust utilities and acquire right of way. The SCCF shall reimburse the Department 100% of the actual cost, including
administrative costs, of the work performed by the Department. (Estimated cost of the work to the SCCF is $78,676.09.)

City of Charlotte
Mecklenburg County
Z-5110C

This project consists of the installation of automatic warning devices on Primrose Avenue and the Norfolk Southern Railway tracks (Crossing No. 716 105U). The Department shall prepare the plans and oversee the installation of devices. The Railroad shall install the devices. The Municipality shall be responsible for all improvements to and repair of the street approaches. The Municipality shall reimburse the Department 10% of the cost of the project, 100% of costs not reimbursed by FHWA, and assume responsibility for 50% of the operating railroad’s cost of maintenance. (Estimated cost of the project is $182,500.)
City of Kannapolis  
Cabarrus County  
P-3814C  

This project consists of improvements to Rogers Lake Road, (formerly named Universal Street) and the Norfolk Southern Railway tracks, Crossing No. 724 408Y, including new flashers and gates, turn lane improvements, and reconfiguration of traffic signals to include railroad pre-emption. The Department shall be responsible for the planning, design and equipment procurement, acquisition of necessary right of way, relocation/adjustment for utilities, improvements to and repair of the municipal street approaches, and construction of the project. The Municipality shall reimburse the Department 100% of the actual cost of the work for the contract construction items pertaining to Ridge Avenue, a municipal street estimated to be $300,000. The Department shall be responsible for the annual maintenance costs of the new automatic warning devices or 50% of the operating railroad’s cost of maintenance. (Estimated cost of the project is $1,240,000.)

City of Charlotte  
Charlotte Area Transit System  
Mecklenburg County  
Charlotte Gateway Station  
P-3800  

The project consists of development of a new multi-modal station in Charlotte known as the Charlotte Gateway Station (CGS). Authority is requested to enter into a Memorandum of Agreement between the Municipality and the Department. The Municipality shall acquire property from Greyhound Lines, Inc. The Department will permit certain other previously acquired properties to be used for development of the CGS, assert continuing control for transportation purposes and for securing federal funds to undertake the project.
Division 11

Town of Boone
Watauga County
U-4020
35015.3.1

This project consists of the improvements to US 421 (King Street) from west of US 321 (Hardin Street) to east of NC 194 (Jefferson Road) in Boone. At the request of the Municipality, the Department shall include provisions in the construction contract for the contractor to adjust and relocate municipally-owned water and sewer lines. The Municipality shall reimburse the Department the entire cost of said utility work. (Estimated cost to the Municipality is $743,177.)

Division 13

City of Asheville
Buncombe County
Z-4713B

This project consists of the installation of automatic warning devices on Riverside Drive and the Norfolk Southern Railway tracks (Crossing No. 720 409S). The Department shall prepare the plans and oversee the installation of devices. The Railroad shall install the devices. The Municipality shall be responsible for all improvements to and repair of the street approaches. The Municipality shall reimburse the Department 10% of the cost of the project, 100% of costs not reimbursed by FHWA, and assume responsibility for 50% of the operating railroad’s cost of maintenance. (Estimated cost of the project is $200,000.)

PSNC Energy
Buncombe County
R-2813 B
34505.3.2

This project consists of improvements to NC 146 (Long Shoals Road) from west of SR 1501 (Clayton Road) to east of I-26. This Supplemental Agreement is for PSNC to reimburse the Department for gas line relocation in the amount of $629,350 in lieu of $616,600.

SUMMARY: There are a total of 17 agreements for informational purposes only.
Division 1

The Elizabethan Gardens, Inc. Dare County 42448

This project consists of upgrading pedestrian walkways at The Elizabethan Gardens. The Agency shall be responsible for all phases of the project. The Department shall participate in actual construction cost up to a maximum amount of $250,000. Costs which exceed this amount shall be born by the Agency.

Division 2

City of Greenville Pitt County 42315

This project consists of replacing and upgrading the existing stormwater system which includes curb and gutter replacement and resurfacing along Dickenson Avenue near the intersection of Chestnut Street. The Municipality shall be responsible for all phases of the project. The Department shall participate in actual construction costs in an amount not to exceed $400,000. Costs which exceed this amount shall be borne by the Municipality.

Division 3

David Greer Construction, Inc. New Hanover County 42101

This project consists of the construction of a roundabout at the intersection of Porters Neck Road and Edgewater Club Road in New Hanover County. The Department shall be responsible for all phases of the project. The Developer shall participate in the costs of the project in the amount of $3,835. (Estimated total cost of the project is $490,000.)

Approval - Preliminary Right of Way Plans

The following resolution was unanimously approved upon a motion by Board Member Dunn, which was seconded by Board Member Burrell:

Whereas, the Preliminary Right of Way Plans for the below projects, including Secondary Roads and Industrial Access Roads, provide for the construction, design, drainage and control of access as shown on the respective plans; and

Whereas, based upon the recommendations of the Manager of the Right of Way Branch, the Board finds that such rights of way as shown on these preliminary plans and drawings, including existing public dedicated right of way, are for a public use and are necessary for the construction of said projects; and

Whereas, the rights of way for the location, construction, relocation, and control of access of highways embraced in the below projects shall be as shown in detail on the preliminary right of ways plans and drawings for said projects on file in the Right of Way Branch in the Department of Transportation in Raleigh.

Now, therefore, it is hereby ordained that the Board finds such right of way acquisition to be necessary and hereby authorizes the Right of Way Branch to acquire right of way on the below projects either by negotiation or by condemnation through the Attorney General’s Office.

(Division 2)
Beaufort County; I.D. No. B-4417; Project No. 33693.2.1:
Bridge No. 59 over Jack Creek on NC 99
Pitt County; I.D. No. B-4238; Project No. 33581.2.1:
Bridge No. 219 over Hardee Creek on SR 1726 (Portertown Road)

Beaufort County; I.D. No. B-4428; Project No. 33698.2.1:
Bridge No. 140 over a Canal on SR 1626

(Division 5)

Wake County; I.D. No. R-2814 B; Project No. 34506.2.GV1:
US 401 Rolesville Bypass from SR 2225 (Louisburg Road) to NC 96 (Zebulon Road)

(Division 6)

Robeson County; I.D. No. B-3693; Project No. 33233.2.1:
Bridge No. 207 over Holly Swamp and Bridge No. 210 and Bridge No. 211 over Raft Swamp on SR 1527

(Division 11)

Avery County; I.D. No. BK-5117; Project No. 42575.2.1:
Bridge No. 16 over Horse Creek on SR 1166

(Division 12)

Gaston County; I.D. No. B-4117; Project No. 33472.2.1:
Bridge No. 173 over Sailor’s Branch Creek on SR 1820

Gaston County; I.D. No. B-4517; Project No. 33741.2.1:
Bridge No. 49 over Crowder’s Creek on SR 1103

(Division 13)

Buncombe County; I.D. No. BK-5122; Project No. 42573.2.1:
Bridge No. 79 over Broad River on NC 9

Burke County; I.D. No. BK-5124; Project No. 42575.2.1:
Bridge No. 307 over a creek on SR 1924

(Division 14)

Haywood County; I.D. No. B-4692; Project No. 33838.2.2:
Bridge No. 283 on SR 1334 over Wesley’s Creek between SR 1336 and SR 1380

Haywood County; I.D. No. Z-4614 A; Project No. 43014.3.1:
Waynesville – Intersection of Shackford Street and The Norfolk Southern Railway Tracks- crossing No. 7290 318L
Approval - Final Right of Way Plans

Upon a motion by Board Member Dunn, seconded by Board Member Burrell, the following resolution was unanimously approved:

Whereas, right of way acquisition in accordance with the preliminary right of way plans on file in the Right of Way Branch has been determined to be necessary for public use and was authorized by the Board; and

Whereas, certain changes in the right of way have necessitated alteration of the preliminary right of way plans; and

Whereas, final plans have been prepared and provide for the construction, design, drainage and control of access for these projects. The Board finds that such rights of way and control of access as shown on the final plans are for a public use and are necessary for construction. The sections of roads which were shown on the preliminary plans as sections of roads to be abandoned are hereby abandoned and removed from the State Highway System for Maintenance upon the completion and acceptance of the project.

Now, therefore, it is hereby ordained that the rights of way for the location, design and construction of highways embraced in the following projects shall be as shown in detail on the final plans for said projects as follows:

(Division 2)

Project No. 34414.2.3; Craven/Jones County; I.D. No. R-2301 A:  
Paving, grading, drainage, curb and gutter, structures, widening and signals on US 17 (New Bern Bypass) from US 17 south of New Bern to US 70 with the right of way indicated upon the final plans for said project, the same being identified as Addendum 1 of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

(Division 3)

Project No. 41922.2.1; Onslow County; I.D. No. R-5023 A:  
Grading, drainage, paving and widening on NC 53 (Burgaw Highway) from SR 1135 (Morningside Road) to SR 1116 (Onslow Pines Road) with the right of way indicated upon the final plans for said project, the same being identified as Addendum 2 of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

(Division 5)
Project No. 33639.2.1; Wake County; I.D. No. B-4302:
Grading, drainage, paving and structure on Bridge No. 336 over Terrible Creek on SR 1301 (Sunset Lake) with the right of way indicated upon the final plans for said project, the same being identified as Addendum 3 of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

(Division 6)

Project No. 33201.2.1; Harnett County; I.D. No. B-3655:
Grading, drainage, paving and structure on Bridge No. 59 over Jumping Run Creek on SR 1117 with the right of way indicated upon the final plans for said project, the same being indentified as Addendum 4 of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

Project No. 35196.2.3; Cumberland County; I.D. No. X-0002 B:
Signals, structures and grading on Fayetteville Outer Loop from west of NC 24 (Bragg Boulevard) to east of NC 210/NC 87 (Murchison Road) with the right of way indicated upon the final plans for said project, the same being indentified as Addendum 5 of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

(Division 8)

Project No. 33554.2.1; Moore County; I.D. No. B-4207:
Grading, drainage, structure and paving on Bridge No. 43 over McLendons Creek on NC 22-24 with the right of way indicated upon the final plans for said project, the same being indentified as Addendum 6 of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

(Division 11)

Project No. 33812.2.1; Surry County; I.D. No. B-4646:
Grading, drainage, paving and structure on Bridge No. 132 over Toms Creek on SR 2024 with the right of way indicated upon the final plans for said project, the same being indentified as Addendum 7 of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

(Division 14)

Project No. 33434.2.1; Cherokee County; I.D. No. B-4071:
Grading, drainage, structure and paving on Bridge No. 32 over Junaluska Creek on SR 1393 with the right of way indicated upon the final plans for said project, the same being indentified as Addendum 8 of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

Project No. 47015.2.1; Henderson County; I.D. No. B-5180:
Grading, drainage, paving and structure on Bridge No. 205 over Mud Creek on SR 1764 with the right of way indicated upon the final plans for said project, the same being indentified as Addendum 9 of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

Project No. 34334.3.1; Henderson County; I.D. No. R-0505:
Structures, grading, drainage, paving, retaining wall, mill and resurface and rehabilitation on NC 225-US 25/I-26 Connector from US 25 at Zirconia to I-26 with the right of way indicated upon the final plans for said project, the same being indentified as Addendum 10 of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

Approval - Revisions of Final Right of Way Plans

Upon a motion by Board Member Dunn, seconded by Board Member Burrell, the following resolution was unanimously approved:

Whereas, right of way acquisition in accordance with the final right of way plans for the following projects has been determined to be necessary and authorized by the Board. Plans are on file at the Office of the Secretary to the Board of Transportation as an addendum to the minutes of the meetings hereinafter indicated; and

Whereas, certain changes in right of way, construction and drainage easements, and control of access have been necessitated by alterations in the construction plans of these projects. Amended plan sheets for these projects have been prepared which provide for changes of certain right of way areas, construction and drainage easements and control of access; and

Whereas, the Board finds that the revised areas of right of way, construction and drainage easements and control of access, as shown on the amended plan sheets hereinafter set out, are for a public purpose and are necessary for the construction of projects.
Now, therefore, it is hereby ordained that the right of way, construction and drainage easements and control of access are hereby revised as shown on the plan sheets incorporated herein as an addendum, said projects, date of original final approval, and revised right of way, easements and access being as follows:

(Division 3)
Project No. 6.803967; I.D. No. R-0036; Brunswick County:
Final Right of Way plans approved as Addendum 19 to the minutes of the December 10, 1976 Board of Transportation Meeting. Revised additional right of way, easements or control of access shown on Addendum 11 to the minutes of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

(Division 5)
Project No. 33350.2.1; I.D. No. B-3916; Wake County:
Final Right of Way plans approved as Addendum 9 to the minutes of the June 7, 2007 Board of Transportation Meeting. Revised additional right of way, easements or control of access shown on Addendum 12 to the minutes of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

(Division 10)
Project No. 34462.2.2; I.D. No. R-2555 A; Mecklenburg County:
Final Right of Way plans approved as Addendum 2 to the minutes of the November 1, 2007 Board of Transportation Meeting. Revised additional right of way, easements or control of access shown on Addendum 13 to the minutes of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

(Division 13)
Project No. 34959.2.2; I.D. No. U-3601; Buncombe County:
Final Right of Way plans approved as Addendum 5 to the minutes of the July 9, 2008 Board of Transportation Meeting. Revised additional right of way, easements or control of access shown on Addendum 14 to the minutes of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

(Division 14)
Project No. 33002.2.2; I.D. No. B-3343; Haywood County:
Final Right of Way plans approved as Addendum 22 to the minutes of the March 5, 2009 Board of Transportation Meeting. Revised additional right of way, easements or control of access shown on Addendum 15 to the minutes of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.

Project No. 33498.2.1; I.D. No. B-4149; Henderson County:
Final Right of Way plans approved as Addendum 9 to the minutes of the February 5, 2009 Board of Transportation Meeting. Revised additional right of way, easements or control of access shown on Addendum 16 to the minutes of the May 7, 2009 Board of Transportation Meeting and incorporated herein by reference.
Approval of Conveyance of Highway Right of Way Residues

“It is hereby resolved, based upon the recommendation of the Manager of the Right of Way Branch, and on a motion by Board Member Dunn, which was seconded by Board Member Burrell, that the following highway right of way conveyances are approved:

(Division 2)
Project 8.2200102, (34501.2.2), R-2719B, parcels 019, 020B, 021 and 023, Crescent Rd. from SR 1572 Rouse Rd. to NC 58 in Kinston, Lenoir County
Conveyance of an approximate total of a 98.92-acre residue to the NC Global Transpark Authority for no consideration. These properties will be utilized by the GTP for transportation related purposes and are within the legislative jurisdictional area (GS-63A) of the Transpark.

(Division 7)
Project 8.2473101, (34911.2.3), U-3303A, parcels 009 and 010, South Mebane St. from Huffman Mill Rd. to Alamance Rd., Alamance County
Conveyance of an approximate total of a 0.56-acre residue to the AB Hezar, LLC, a NC Limited Liability Company for the appraised value of $301,500.00 as part-settlement of their right of way claim.

(Division 14)
Project 8.1951103, (34389.2.3), R-2214B, parcel 281, US 25 from SR 1345 Butler's Bridge Rd. (a/k/a Jeffress Rd. and North Mills Rd.), to SR 1546 Blake Rd., Henderson County
Conveyance of an approximate total of 0.22-acre residue to H. Steve McManus for the high bid amount of $15,029.00.

Approval of Conveyance of Surplus Highway Right of Way

“It is hereby resolved, based upon the recommendation of the Manager of the Right of Way Branch, and on a motion by Board Member Dunn, which was seconded by Board Member Burrell, that the following highway right of way conveyances are approved:

(Division 10)
Project 8.1647905, (36109.310), NC 51 Matthews Bypass from East of Bubbling Wells Rd. to East of SR 3474 Sam Newell Rd., Mecklenburg County
Conveyance of approximately 0.877-acre surplus right of way to the Town of Matthews, the only interested adjacent owner, for no consideration.
Approval of Conveyance of Permanent Easement

“It is hereby resolved, based upon the recommendation of the Manager of the Right of Way Branch, and on a motion by Board Member Dunn, which was seconded by Board Member Burrell, that the following highway right of way conveyances are approved:

(Division 6)
Project 8.T440510, (34817.2.4), U-2519DA parcel 911, Fayetteville Outer Loop, Cumberland County
The Department acquired residue property from O’Connell Enterprises, Inc., and Joseph E. O’Connell and wife, Floella M. O’Connell during construction of the Fayetteville Outer Loop in Cumberland County. This construction has cause Carolina Power & Light Company, a North Carolina public service corporation d/b/a Progress Energy Carolinas, Inc. to relocate their lines, and therefore, they have requested a 2.3-acre permanent easement over the subject residue for no consideration. The Department has determined the conveyance of the Permanent Easement would cause no damage to the residue.

Approval - Acquisition of Structures Partially Outside the Right of Way

Upon a motion by Board Member Dunn, seconded by Board Member Burrell, the following resolution was approved:

Whereas, the preliminary right of way plans for the following highway projects necessitate the acquisition of a part of certain buildings or structures located within the right of way of projects; and

Whereas, based upon the recommendation of the Manager of the Right of Way Branch and affidavits of independent real estate appraisers, the Board finds that the partial taking of the buildings or structures will substantially destroy the economic value or utility of the buildings or structures; and

Whereas, the Board finds that such acquisition of the structures or parts thereof outside the right of way are for a public use and are necessary for the construction of the projects.

Now, therefore, it is hereby ordained that the Right of Way Branch has been directed to acquire the below described buildings or structures in their entirety for the construction of the
listed projects. The Attorney General, if necessary, is requested to institute proceedings to acquire the buildings or structures in their entirety, together with the right to enter upon the surrounding lands for the purpose of removing the buildings or structures.

(Division 7)

I. D. No. U-3110B, Alamance County, WBS Element 34901.2.4:
Parcel 022, Ernest Conner, a One Story Brick Dwelling located Right of Survey Station 38+00, Survey Line –L-.

Parcel 023, Leonard Dudka, a One Story Brick Dwelling located Right of Survey Station 40+50, Survey Line –L-.

(Division 8)

I. D. No. R-2417C, Lee County, WBS Element 34431.2.6:
Parcel 042, Willard Batchelor, a Two Story Brick Dwelling located Right of Survey Station 1 + 90.00, Survey Line 19 FL.

Parcel 030, Homestead INC, a One Abandoned Mobile Home located Left of Survey Station 27+10.00, Survey Line Front.

Approval – Consideration of Transportation Official Corridor Map

Following the recommendation of Calvin Leggett, Manager of the Program Development Branch, a motion was made by Board Member White, seconded by Board Member Szlosberg, and the vote was unanimous to approve the following:

R-2250, Greenville Southwest Bypass from NC 11 South of Ayden to US 264 in Pitt County

In accordance with statutory requirements and NCDOT regulations, public hearings were held to receive comments on the consideration of a Transportation Corridor Official Map for the above referenced project. The complete transcripts of the hearings are on file with the Public Hearing Officer, and the required recording map, along with legal notice certifying map authenticity, was filed with the Pitt County Register of Deeds on April 16, 2009.
Additional Business

Approval – Resolution for Donna Fargo Highway

Upon a recommendation of the Road Naming Committee, a motion was made by Board Member Lakey and seconded by Board Member Dennis and the vote was unanimous to approve the following:

WHEREAS, Donna Fargo, a native of Surry County, has enjoyed a long and successful career as a country music singer; and

WHEREAS, Donna Fargo graduated from Mount Airy High School and High Point College; and

WHEREAS, Donna Fargo’s career began to climb in 1972 when she wrote and recorded her first country hit “Happiest Girl in the Whole USA”; and

WHEREAS, Donna Fargo, over the years, has brought national attention to Surry County and will be honored during June 2009 in Mount Airy with a day named in her honor; and

WHEREAS, Donna Fargo has received many awards throughout her career including Billboard Magazine’s “Best New Female Artist” in 1972 and 1973. Also in 1972, she was awarded four Grammies by the Academy of Country Music winning “Top Female Vocalist”, “Album of the Year”, “Single of the Year” and “Song of the Year”. In 1974 and 1978, she was recognized as “Best Single Artist”; and

WHEREAS, the Surry County Board of Commissioners and the city of Mount Airy requested the North Carolina Department of Transportation honor Donna Fargo for her career contributions.

NOW, THEREFORE, BE IT RESOLVED:

That the North Carolina Board of Transportation dedicates a section of N.C. 103 from Mount Airy city limits north for 5.8 miles in Surry County, as the Donna Fargo Highway.

That appropriate signs be erected at a suitable time.

Adopted, this the seventh day of May 2009 by the North Carolina Board of Transportation.

J. Douglas Belyon
Chairman

Geneva A. Canty, Jr.
Secretary of Transportation

Approval – Policy and Procedures for Major Professional or Specialized Services Contract
Upon a recommendation from the Audit and Contract Committee a motion was made by Board Member Burrell, which was seconded by Board Member Collier to approve the following:

POLICIES AND PROCEDURES FOR MAJOR PROFESSIONAL OR SPECIALIZED SERVICES CONTRACTS

NORTH CAROLINA
DEPARTMENT OF TRANSPORTATION

TABLE OF CONTENTS

Item Number | Item | Page No.
---|---|---

APPROVED ___________________________ DATE __________
Director of Technical Services

APPROVED ___________________________ DATE __________
Division Administrator - FHWA

APPROVED ___________________________ DATE __________
N.C. Board of Transportation

437
The North Carolina Department of Transportation attempts to maintain a staff capable of performing the majority of the normal workload for most of the functions required for the planning, design, construction, inspection and repair of our transportation systems. However, it is recognized that there are peak workloads, manpower shortages, and certain specific needs which can best be met by the use of qualified professionals outside the Department.
These policies and procedures are established as a guide for the preparation, execution and administration of contracts for professional or specialized services that exceed $30,000. These policies and procedures are also established to ensure that a qualified firm is obtained through an equitable selection process and that the prescribed work is properly accomplished in a timely manner and at a reasonable cost.

Due to the diversity of contract types, some portions of these policies and procedures may not be fully applicable to all situations. The Professional Services Management Unit shall be responsible for determining when deviations from these procedures are justified. The Professional Services Management Unit shall also be responsible for documenting, in writing, any deviation from these policies and procedures and obtaining FHWA approval if needed.

These policies and procedures were developed in response to, and in accordance with, the following legal requirements.

(a) General Statute Section 136-28.1(f),
(b) General Statute Sections 143-64.31, 143-64.32 and 143-64.33,
(c) 23 Code of Federal Regulations Part 172 entitled "Administration of Engineering and Design Related Service Contracts",
(d) General Statute Chapter 55-B, and
(e) General Statute Chapter 89-C.
(f) T19A102E.0700.

These policies and procedures were specifically developed to provide detailed guidance for the implementation of Article T19A102E.0700, professional or specialized services, as found in the North Carolina Administrative Code.

All Department personnel involved with contracts for professional or specialized services shall comply with General Statute 133-32; the North Carolina Department of Transportation Personnel Manual, Section VI, entitled "Employee Relations"; and the Policy on Ethical Conduct as adopted by the Board of Transportation on December 3, 1993, modified on September 8, 2000 and any subsequent policy approved by the Department.

2. DEFINITIONS

The following definitions are for the purpose of clarifying and describing words and terms used herein.

**Professional Services Management Unit Contract Administrator** - The individual(s) responsible for administering a contract for professional or specialized services.

**Contract Amendment** - A formal amendment which modifies the terms of the original contract, or any subsequent supplemental agreement(s).
**Contract Initiator** - The individual(s) responsible for requesting approval from the Division Engineer/Branch Manager to solicit proposals for professional or specialized services. The Contract Initiator will be a Unit Head or equivalent level of management.

**Cost Per Unit of Work** - A method of compensation based on an agreed cost per unit of work which may include labor, overhead, fixed fee and other non-salary direct costs. The fee is calculated per project assignment and is fixed.

**Cost Plus Fixed Fee** - A method of compensation based on the actual allowable and documented cost for labor, overhead, and other non-salary direct cost incurred by the firm performing the work plus a pre-established fixed fee.

**Cost Proposal** - A detailed submittal specifying the number of workdays required and the compensation requested for the performance of the specific scope of services as defined by the Department.

**Firm** - A private agency, corporation, organization, business or individual offering qualified professional or specialized services.

**Fixed Fee** - A dollar amount established for operating margin. The establishment of a fixed fee shall be project specific and shall take into account the size, complexity, duration and degree of risk involved in the work. If a fee higher than the standard fee is to be utilized, it must be justified by the firm and approved in writing by the Professional Services Management Unit prior to the cost proposal submittal.

**Letter of Interest (L.O.I.)** - An expression of interest by a firm for performing specific services as advertised by the Department.

**Limited Services Agreements** - An “as-needed basis” contract established for a maximum dollar amount for professional or specialized services to be performed during a specified contract period, generally not to exceed three years. As needed during the contract period, a scope of services, a schedule and total compensation are negotiated with the firm for the performance of an individual assignment of professional or specialized service, as defined by the Agreement. The scope of services, schedule and compensation for each individual assignment are documented in a Notice to Proceed. The Department may elect to utilize the maximum amount of the agreement during the contract period, or may elect not to negotiate with the firm for any services during the contract period.

**Lump Sum** - A fixed price including labor, overhead, non-salary direct costs and fixed fee for the performance of specific services.

**Non-Salary Direct Costs** - Charges, except for labor, which are customarily job or project related including, but not limited to, travel, document reproduction, telephone, etc. Computer usage costs are not allowed to be billed directly.

**North Carolina Firm** - A firm which maintains an office in North Carolina which is staffed with an adequate number of employees judged by the Department to be capable of performing the majority of the professional or specialized service required.

**Overhead** - A firm's indirect costs, stated as a percentage of direct labor, including general administrative expenses plus employee fringe benefits. Fringe benefits may include employer's
portion of F.I.C.A., comprehensive health insurance, group life insurance, unemployment contributions to the state, vacation, sick leave, holidays, workers' compensation and other such benefits.

**Professional or Specialized Services** - Services such as, but not limited to, project management, construction engineering and inspection, feasibility studies, planning and environmental (human and natural) studies, preliminary engineering, design engineering, design, redesign, engineering, surveying, mapping, geotechnical investigations, architectural related services, visualization, simulation studies, technical assistance and transportation services studies.

**Professional Services Management Unit** - The Unit responsible for the advertisement, selection, contract preparation, and execution of professional services contracts between the Department and Professional or Specialized Services Firms.

**Project Manager** – The individual responsible for oversight of the project work after the contract is executed.

**Scope of Services** - All services, actions, and physical work required by the Department to achieve the purpose and objectives defined in the contract. Such services may include the furnishing of all required labor, equipment, supplies and materials except as specifically stated.

**Small Professional Services Firm (SPSF)** – A firm that meets size standards defined by the Small Business Administration regulations, 13 CFR Part 121 under the North American Industrial Classification System.

**Specific Rate(s) of Compensation** - A method of compensation based on an agreed cost per hour of work including labor, overhead and fixed fee. Non-salary direct costs are charged and reimbursed separately.

**Subgrantee** - A local government, public authority, profit or non-profit legal entity which receives Federal-Aid funds through the North Carolina Department of Transportation.

**Supportive Services for DBE program** - Those services provided in connection with approved on-the-job training (OJT) and disadvantaged business enterprise (DBE) programs for highway construction workers and highway contractors. These services are designed to increase the overall effectiveness of OJT and DBE programs through the performance of functions determined to be necessary in connection with such programs. Supportive services contracts are to follow these policies and procedures. Proposals shall be solicited from such qualified sources as will assure the competitive nature of the procurement with a conscientious effort to utilize the services of qualified minority or women's enterprises.

**Termination Clause** - A contract clause which allows the Department to terminate, at its discretion, the performance of work, in whole or in part, and to make final payment in accordance with the terms of the contract.

3. **APPLICATION**

These policies and procedures shall apply to all contracts for professional or specialized services which exceed $30,000 and are obtained by the Department of Transportation pursuant
to G.S. 136-28.1(f). Subgrantees shall also follow these policies and procedures when utilizing professional or specialized services.

When subgrantees administer Federal-aid funds (as with Bridge Replacement projects), the subgrantees shall obtain NCDOT approval, in writing, prior to contracting with a firm.

4. DIRECTORY OF TRANSPORTATION FIRMS

The Contractual Services Unit will be responsible for maintaining a List of Prequalified Private Consulting Firms who have been approved to perform professional or specialized services for the Department. Private Consulting Firms must be prequalified to perform work or services for the Department.

A firm may be considered for the List of Prequalified Private Consulting Firms by furnishing the Contractual Services Unit of the Technical Services Division with information describing the firm’s area(s) of expertise, experience, present activities, and financial qualifications. This may be accomplished by furnishing a copy of the Private Engineering Firm Qualifications Package and Questionnaire (PEFQUAL 1), proof of registration with the Secretary of State’s Office, the North Carolina Board of Registration for Professional Engineers and Land Surveyors, if applicable, and any other additional information as requested. Applications can also be completed online at www.ncdot.org/business/ocs. After the above information is reviewed, and it is determined that the firm has the required expertise, resources and staff to effectively perform the services for the Department, the firm will be added to the List of Prequalified Consulting Firms.

A firm which is not on the List of Prequalified Consulting Firms may submit the required information prior to their Letter of Interest for any advertised project.

In order for a firm to remain on the register, they will be required to renew their application and provide any other information as requested by the Department prior to the firm’s renewal date of each year.

Firms that do not provide this updated information annually, as requested, will be removed from the List of Prequalified Private Consulting Firms.

5. REQUEST FOR APPROVAL TO SOLICIT LETTERS OF INTEREST

The Contract Initiator is responsible for determining when professional or specialized services are needed. If the Director or Branch Manager agrees that justification exists, they will approve the use of a professional or specialized services firm. Upon determining that a need exists, the Contract Initiator shall request approval from the Professional Services Management Unit to solicit Letters of Interest. The request shall be in writing and shall include the type of services and specific justification for the services to be performed by a professional or specialized firm such as (1) lack of manpower, (2) lack of expertise, or (3) other reasons. A copy of the request shall be maintained by the Contract Initiator’s Director, Branch Manager or their designee.

6. SELECTION COMMITTEE

The Selection Committee will consist of the chairperson and at least two other members with experience in the type of services to be contracted. The Chairperson will be the Professional Services Management Unit Manager or their designee. While the chairperson is immutable, the
other members evaluating the proposal will be chosen from a pool of designated members and shall not serve on consecutive Selection Committees unless no other designated members with expertise in types of services to be contracted are available. When Federal funds will be used as compensation for solicited services, a representative of the Federal Highway Administration will be invited to sit with the committee. A representative of the External Audit Branch of the Office of Inspector General and the OCR/Business Development Specialist will also be invited to sit with the Selection Committee. Based on input from the Selection Committee the Chairperson will be responsible for the final decision on the approval of a professional or specialized services firm.

7. SOLICITATION OF LETTERS OF INTEREST

Letters of Interest (L.O.I.) will be solicited to determine the firms which are interested in and capable of performing professional or specialized services within the desired time period. Solicitation shall be by published advertisement in the North Carolina Purchase Directory. This is maintained by the Department of Administration (http://www.ncdot.org/doh/preconstruct/highway/roadway/eng_coord/pd/current.html). Solicitation for interest may also be by direct mail to selected firms from the List of Prequalified Private Consulting Firms found in the Directory of Transportation Firms. When the Chairman elects to send the request for L.O.I. the request will be mailed the day before the scheduled advertisement.

The Professional Services Management Unit, or their representative, shall be responsible for preparing the request for L.O.I. The request shall contain information describing the location of the project(s) (if applicable); the types and scopes of services that reflect a clear, accurate, and detailed description of the technical requirements for the services to be rendered; and shall specify the method(s) of payment. The evaluation criteria to be used in the selection process shall be specifically stated along with the respective weights of each evaluation factor.

The L.O.I. shall be submitted to the Professional Services Management Unit by the date designated in the advertisement, usually two weeks following the date of the advertisement. Any deviation as to the number of pages of copies, place, date or time of delivery of these L.O.I. will result in automatic disqualification of the firm for the advertised work.

A copy of the advertisement and the L.O.I. submitted by the firm, which is ultimately selected, as well as first and second alternate, shall be maintained by the Professional Services Management Unit.

8. SELECTION OF FIRM

Evaluation of the qualified firms expressing interest will be based on the evaluation factors and their respective weights as specifically stated in the solicitation, and any other data pertinent to the contract under consideration such as past performance, applicable work experience, present workload, project team, staffing capabilities, use, etc.

All qualified firms will be given consideration. After reviewing qualifications, if firms are equal on the evaluation review, then those qualified firms with proposed SPSF (Small Professional Services Firms) participation will be given priority consideration.

Small Professional Services Firms (SPSF) shall be given consideration in the procurement of planning, engineering, design, and construction related service contracts. The Department will
have aspirational goals for DBEs on federally funded projects and aspirational goals for Minority Business Enterprise (MBE) and Women’s Business Enterprise (WBE) for state funded projects. These aspirational goals vary from year to year. The firm, subconsultant, and subfirm shall not discriminate on the basis of race, religion, color, creed, national origin, age, disability/handicap or sex in the performance of a contract.

The Selection Committee shall evaluate each firm responding to the request for L.O.I. The Selection Committee may select three (3) firms deemed most qualified from those indicating interest (except where fewer than three (3) are available).

These firms shall be listed in descending order of preference based on the Selection Committee’s review and analysis of the L.O.I. The Committee may elect to interview all or some of these firms prior to establishing the order of preference. A copy of the evaluation of the firms shall be maintained by the Professional Services Management Unit.

When several projects are under consideration at the same time, a firm shall be selected for each project and two (2) alternates may be selected for the entire group at the discretion of the Selection Committee.

When selecting firms for Limited Services Agreements, alternates need not be selected.

The results of the Selection Committee meeting shall be maintained by the Professional Services Management Unit.

The Professional Services Management Unit Contract Administrator shall notify the firm chosen by the Selection Committee and request a meeting to review the scope of services.

9. NEGOTIATION OF CONTRACT

(A) GENERAL

A meeting with the selected firm shall be scheduled to discuss the scope of the proposed services. The discussions will vary depending upon the firm’s familiarity with the Department’s methods, policies, standards, etc. For firms unfamiliar with the Department’s requirements, the meeting should include review and discussion of the following:

(a) Copies of examples of similar work;
(b) Standards, specifications, manuals, etc. to be used;
(c) Policies used by the Department for the type of work involved;
(d) A contract in draft form;
(e) Methods of payment;
(f) Procedures for invoicing;
(g) Standard forms to be used;
(h) Fiscal requirements; and
(i) Items and/or services to be provided by the Department.

A representative of the firm shall keep minutes of the scoping meeting and will submit a copy to the Professional Services Management Unit Contract Administrator. The minutes shall be reviewed for completeness, accuracy, and confirmation of mutual understanding of the scope of services. The minutes shall be approved by signature of the Professional Services Management Unit Contract Administrator and an approved copy will be returned to the firm.

Once the details of the scope of services are resolved, the Professional Services Management Unit Contract Administrator, or their representative, shall prepare an estimate of the cost of performing the work.

The in-house estimate will be used in evaluating the acceptability of the selected firm's cost proposal for performing the services. The in-house estimate must be completed prior to opening the cost proposal from the selected firm.

The format used for preparing the in-house estimate will vary from project to project, and work area to work area, depending on the type and scope of services required. Typically, the format will include an estimate of the workdays required, by classification, the direct labor cost, the overhead cost, the fixed fee (i.e. operating margin) and the necessary direct expenses.

The firm will prepare a cost proposal for performing the required services. The firm's cost proposal shall be supported by a breakdown of the workdays required to perform each of the services contained in the contract and the salary range for each of the classifications of personnel to be utilized. The firm's cost proposal must include supporting documentation for payroll additives, direct costs, indirect costs, fixed fee, and overhead.

Upon receipt of the firm's cost proposal, the Professional Services Management Unit Contract Administrator or their designee shall review the submitted material, compare the in-house estimate with the cost proposal, and determine both the reasonableness of the proposal and the areas of substantial difference which may require further discussion and negotiation.

A prenegotiation audit shall be prepared by the External Audit Branch of the Office of Inspector General to provide the necessary data to assure the firm has an acceptable accounting system, adequate and proper justification for the various rates charged to perform the work, and is aware of the Department's cost eligibility and documentation requirements. A prenegotiation audit and the resultant audit report are required for all contracts, including Limited Service Agreements, expected to exceed $250,000 ($30,000 if the procurement is by a subgrantee). For contracts less than $250,000, a prenegotiation audit may be required where there is either insufficient knowledge of the firm's accounting system, previous unfavorable experience regarding the reliability of the firm's accounting system, procurement of new equipment or supplies for which cost experience is lacking, or as required by the Professional Services Management Unit Contract Administrator. Subgrantees that do not have resources or expertise for performing a prenegotiation audit may contact the Department's Consultant, Railroad, Turnpike, and Utility Audit Unit of the External Audit Branch for assistance.

The use of an independent audit, an audit performed by another State/Federal agency, or an audit performed by another local governmental agency is acceptable.
Prenegotiation audits may be waived when sufficient data is available to permit reasonable comparisons with the cost proposal.

A firm’s cost proposal will not be considered acceptable until the prenegotiation audit has been performed, if required, by the External Audit Branch of the Office of Inspector General. When the prenegotiation audit has been completed, negotiations with the consultant may begin. The negotiations shall satisfactorily conclude all points of difference and shall address and resolve any comments submitted by the External Audit Branch.

The Professional Services Management Unit Contract Administrator shall use all resources available to conduct effective negotiations including, but not limited to the refined scope of services, the evaluation factors and their relative importance, the in-house cost estimate, and the prenegotiation audit and audit report.

Negotiations shall be conducted separately for mandays and for any of the dollar amounts for elements of cost, fixed fee, and overhead except for contracts involving cost per unit of work and specific rates of compensation.

When a joint venture of firms desires to enter into a contract with the Department, the joint venture will designate a representative to act as the sole authority for the purpose of negotiation.

If the firm’s original cost proposal is greater than 50% above the in-house estimate and it is determined the firm understands the scope of work, the Professional Services Unit may choose to terminate the negotiations process with the selected firm. The selected firm will be provided written notice of the department’s intent to cease the negotiations process. The Technical Services Director’s approval will be obtained before negotiations are terminated. The Professional Services Management Unit Contract Administrator will then begin procedures for scoping and negotiations with the firm chosen as first alternate.

The Professional Services Management Unit Contract Administrator shall maintain records of negotiation to document negotiation activities and to set forth the resources considered. This record shall include the minutes of the scoping meeting, a record of the original in-house estimate and any revisions to the in-house estimate, the final in-house estimate, a record of the firm’s original cost proposal and each subsequent submittal, the final cost proposal, the request for a prenegotiation audit, the audit report, and the response to the prenegotiation audit.

(B) LIMITED SERVICES AGREEMENTS

Limited Services Agreement contracts will generally be negotiated as described in paragraph 9 (A). The negotiations will primarily deal with allowable costs for the personnel to be utilized with supporting documentation for payroll additives, direct costs, indirect costs, fixed fee and overhead.

A maximum dollar amount, which may be expended by the firm during the contract period, will be determined by the Department for each selected firm.

Negotiations under Limited Service Agreements shall also be conducted for each individual assignment at the time the Unit Head determines that the use of the professional or specialized services of the contracting firm is needed.
The Professional Services Management Unit Contract Administrator will notify the firm and schedule a meeting to discuss the scope of proposed services for the individual assignment. A representative of the firm shall keep minutes of the meeting which shall be submitted to the Professional Services Management Unit Contract Administrator for approval by signature. A copy of the approved minutes will be returned to the firm.

The Professional Services Management Unit Contract Administrator, or their representative shall prepare an in-house estimate of the cost of performing the services as described in Paragraph 9 (A). The estimate will be used in evaluating the acceptability of the firm's cost proposal. The in-house estimate must be completed prior to receiving the cost proposal from the firm.

The firm will prepare a cost proposal as described in Paragraph 9 (A) for performing the required services. Upon receipt of the firm's cost proposal, the Professional Services Management Unit Contract Administrator, or their designee, shall review the submitted material, compare the in-house estimate with the cost proposal, and determine both the reasonableness of the proposal and the areas of substantial difference which may require further discussion or negotiation. The negotiations shall satisfactorily conclude all points of difference. The Professional Services Management Unit Contract Administrator will review the audit report and respond in writing to the auditor. Any revisions resulting from the prenegotiation audit will be incorporated into the final cost and the firm will be given a written notice to proceed.

If the negotiations cannot be successfully concluded, negotiations will be terminated, the firm so notified in writing, and another firm under a Limited Services Agreement will be contacted.

The Professional Services Management Unit Contract Administrator will maintain records of the negotiations as described in paragraph 9 (A). These records shall be kept on file for three years after completion of the contract. For design contracts, the records shall be kept for the previously mentioned period or until the project is completed, whichever occurs last.

10. EXECUTION OF CONTRACT

Upon completion of final negotiations, the firm shall execute a minimum of two (2) contract originals.

Prior to execution by the Department, the contracts should be submitted to the Attorney General’s office for review and certification as to form and execution.

The Technical Services Director will project and include the Department’s usage of major professional or specialized services contracts in the Department’s Annual Work Program. Approval by the Board of Transportation of the Annual Work Program constitutes approval of the Department’s use of major professional or specialized services contracts under oversight of the Professional Services Management Unit. The Technical Services Director will award and approve overruns for individual professional or specialized services contracts in accordance with the parameters set in the Approved Work Program.

Upon approval by the Technical Services Director, the Professional Services Management Unit will execute the contract. The Contract Administrator will transmit one original contract to the firm with a written notice to proceed and shall retain one original contract in the project file. A copy of the contract will be provided to the Federal Highway Administration when Federal funds are involved.
11. SUBCONTRACTING

A Contracting Firm may subcontract portions of the work proposed in a contract only upon approval of the Professional Services Management Unit Contract Administrator.

The responsibility for procuring a subconsultant and assuring the acceptable performance of the work lies with the contracting firm. It shall be the responsibility of the Department to schedule any meeting or make requests for substantive contact with a subconsultant through the contracting firm. The contracting firm should be a part of any such meeting or contact. The contracting firm will be informed of any instruction, directive, or review of the subconsultant(s) work made by the Department. Also, the contracting firm will be responsible for submitting the proper supporting data to the Professional Services Management Unit Contract Administrator for all work that is proposed to be subcontracted.

12. TYPES OF CONTRACTS

The following is a description of most often used contracts:

**Lump Sum** - This type of contract is suitable when the amount and character of required services can be reasonably defined and clearly understood by both the Department and the contracting firm. This can be a single lump sum fee negotiated initially or a lump sum contract consisting of task orders as the scope evolves by task assignments.

**Cost Plus Fixed Fee** - This type of contract is suitable where the general magnitude of services is known but the scope of services or period of performance cannot be defined clearly and the Department needs more flexibility in expediting the work without excessive amendments to the contract.

**Cost Per Unit of Work** - This type of contract is suitable where the magnitude of services is uncertain but the character of services is known and the cost per unit can be determined accurately.

**Limited Services** - This type of contract is suitable where a specialized service is needed on a substantial number of projects over a specified period of time. The character of the specialized service can be reasonably defined and understood by the Department and the contracting firm, but the number of individual projects make the selection of firms and the negotiation and execution of contracts for the service on each individual project time prohibitive.

**Specific Rate(s) of Compensation** - This type of contract is suitable where the magnitude of services is uncertain but the character of services is known and a cost per hour can be determined.

13. ADMINISTRATION OF CONTRACT

The administration of the contract shall be the responsibility of the Division or Unit where the work is being performed. These duties include the review of invoices and recommendation for audit and/or payment to the External Audit Branch of the Office of Inspector General.

The Project Manager shall be responsible for assuring that the private firm performs such additional work as may be necessary to correct errors, omissions or negligence in the work.
required under the contract without undue delays and without additional cost to the Department in accordance with the contract.

14. CONTRACT AMENDMENTS

Each contract shall contain procedures for contract modifications and will define what changes are permitted by mutual agreement of the parties involved and the changes that can only be made by means of a contract amendment.

Contract amendments are required for any modification in the terms of the original contract that change the cost of the contract; significantly change the character, scope, complexity, or duration of the services; or significantly change the conditions under which the services are required to be performed.

The contract amendment shall clearly outline the changes made and determine a method of compensation. Overruns in the cost of work shall not warrant an increase in the fixed fee portion of a cost plus fixed fee contract. Significant changes to the scope of services may require adjustment of the fixed fee portion of a cost plus fixed fee contract or in the fixed fee portion of a lump sum contract.

The Professional Services Management Unit Contract Administrator may, without a contract amendment, authorize changes involving details of clarifications, changes in time schedules, and other changes of a minor nature which do not cause a significant change in the scope of services or a change in the amount of compensation.

No work is to be performed by the contracted firm on additional or disputed items of work until the contract amendment is executed and/or the dispute is resolved.

Contract amendments shall be processed using the same procedures as described under Items 9 and 10; however, those contract amendments which are cumulatively less than 10 percent of the original contract fee may be approved by the Technical Services Director. In addition, FHWA will not be required to formally approve contract amendments; however, they shall be provided a copy of the executed agreement when National Highway System funds are involved. Any controversial contractual or administrative issues should be coordinated with FHWA prior to settlement.

15. MONITORING AND EVALUATION OF WORK

The Project Manager's responsibilities shall include ensuring that the work being pursued is complete, accurate, and consistent with the terms of the contract; scheduling and attending progress meetings with the firm where necessary; being involved in decisions leading to contract modifications; being familiar with the qualifications and responsibilities of the firm's staff; visiting the project and/or firm's offices on a frequency that is commensurate with the magnitude, complexity and type of work; and assuring that costs billed are consistent with the acceptability and progress of the firm's work.

The Project Manager shall prepare written interim and/or final performance evaluation reports for all contracts except those awarded contracts of $30,000 or less. This report should include, but not be limited to, an evaluation of such items as the quality of work, timely completion of the work, and conformance with established policy.
Copies of the interim and/or final performance evaluations shall be sent to the firm for its review and/or comments immediately following the appropriate milestone or completion of the contract. The Professional Services Management Unit shall receive copies of all interim and/or final evaluations. Any written comments by the firm shall be attached to the final evaluation report submitted to the Project Manager.

16. INVOICE PROCEDURES

The firm will be required to provide a written progress report with its invoice for each calendar month or other contract period as designated in the contract during which work is in progress. The progress report shall describe the work performed during the period covered by the invoice. The prime firm will also report subconsultant payments with each invoice using form DBE-IS.

The Department has the right to retain a percentage of the contract fee for all partial payments earned until all work in the contract is completed. However, at the discretion of the Division Engineer/Branch Manager or their designee, the retainage may be eliminated, reduced or released on any work that has been completed and accepted by the State prior to final audit.

17. FINAL PAYMENT

When it is determined that the work is complete, the final invoice shall be reviewed by the Division Engineer/Branch Manager or his designee and forwarded to the Financial Management Division with a recommendation for payment. When a contract is terminated by the Department, the final payment shall be for that portion of work satisfactorily performed in accordance with the contract.

18. TERMINATION OF CONTRACTS

Termination of a contract may become necessary for various reasons. Some of these reasons could include unavailability of federal and/or state funding, major delays in completing the necessary environmental documentation, removal or adjustment of the project from the Transportation Improvement Program, change in the firm’s project team, and poor or unacceptable performance of the firm.

All contracts shall include a provision for the termination of the contract by the Department with proper written notice to the contracted firm.

19. SPECIAL CIRCUMSTANCES

(A) EMERGENCY CONDITIONS

When an emergency occurs, these procedures, or portions thereof, may be waived by the Secretary of Transportation or his designee pursuant to G.S. 136-28.1(e). A professional/specialized firm may be selected, negotiations conducted, and a contract executed at the direction of the Director of Technical Services as required to address the emergency conditions.

When Federal-aid highway funds are used in the contract, the Director of Technical Services or designee shall submit justification for emergency selection and receive approval from FHWA before proceeding.
(B) SOLE SOURCE

These procedures, or portions thereof, may be waived by the Professional Services Management Unit for the sole source selection of a firm under either of the following two conditions.

1. Sole source selection may be used for work on subsequent phases of a project when the firm has satisfactorily performed work on an earlier phase.

2. Sole source selection may be used when no more than two firms known to the Department have the required expertise.

Sole source selection may only be used when it is in the public interest and economically advantageous to the Department. Selection of a sole source firm will be contingent upon satisfactory negotiation for the service.

When Federal-aid highway funds are involved, the Professional Services Management Unit Contract Administrator shall submit justification for sole source selection and receive approval from FHWA prior to proceeding.

Adjournment

There being no further business to come before the Board, the meeting was adjourned.
