Call to Order

Chairman Curran called the meeting of the Board of Transportation to order at 8:36 a.m. Thursday, January 5, 2017 in Raleigh, North Carolina with the following members present: Fearing, Overholt, Blount, Fountain, Collins, Tulloss, Sheehan, Crawford, Hutchens, McQueary, Molamphy, Dodson, Palermo, Wetmore, Brown, and Debnam.

Board Members Alexander and Perkins were absent.

Invocation

The invocation was offered by Board Member Palermo.

Ethics Statement

Chairman Curran read the Ethics Statement advising any Board Member that may have a conflict of interest or appearance of conflict to abstain from participation in that particular item and to file the proper paper work with the Secretary to the Board.

Approval – Minutes of the December 1, 2016 Board Meeting

The minutes of the December 1, 2016 Board of Transportation meeting were unanimously approved upon a motion by Board Member Blount, seconded by Board Member Fountain.

Chairman Curran Remarks

Chairman Curran welcomed all the guests and asked turned the meeting over to the Secretary.

Acting Secretary Holder’s Remarks

Acting Secretary Holder welcomed everyone and wished them a happy and safe New Year.

He said he was humbled and honored to be asked to serve in this capacity, and he appreciated everyone’s support during this time of transition.

He said the department continues to work hard with Matthew Response efforts that are still ongoing with about 138 roads still being affected. The department is also prepping for the winter weather headed our way with brining and monitoring conditions and will adjust as needed.

The Department released the latest draft State Transportation Improvement Program, which is the 10-year plan. This is the second draft STIP developed under the Strategic Transportation Investments law. The draft contains 1,421 projects, including 298 non-highway projects. Also included are 376 interstate maintenance and bridge projects and 61 safety projects. The Department will hold a public comment period this spring to seek input on the document, and the final version will be presented to the board in June. Acting Secretary thanked the staff involved with this effort, and everyone who will be involved with making the projects included a reality.

The department’s 2016 Annual Performance Report is now available online. This report provides an overview of achievements and performance from 2015-16 fiscal year and is a real testament to the hard work and talent of the NCDOT team.

Acting Secretary said the department is heading into 2017 on a positive note and moving forward with restructuring efforts and important improvements for North Carolina. He assured everyone that he personally remains committed and involved in expediting project delivery to reduce the cash balance as instructed by the General Assembly, and the Department will continue to work closely with them and our new administration to follow through on this very critical matter.

The department achieved several major milestones in December when the Federal Highway Administration issued its Record of Decision for two key projects.
First, the FHWA issued final approval of the permanent bridge on N.C. 12 in Rodanthe, a 2.4-mile “jug handle” bridge from the southern end of the Pea Island National Wildlife Refuge over the Pamlico Sound into Rodanthe.

The department also received FHWA’s Record of Decision for the Havelock Bypass, a 10.3-mile U.S. 70 Havelock Bypass from north of Havelock city limits to approximately 10 miles north of the Craven/Carteret county line.

On December 9 the department held a ribbon cutting in Fayetteville for the widening of Murchison Road, a project that was critical to the closure of Bragg Boulevard and our support of Fort Bragg. The project was funded jointly through NCDOT and the Department of Defense (Defense Access Road Program).

There was a groundbreaking on December 12 in Hertford County for a North Carolina & Virginia Railroad project that will help the railroad ship heavier loads more quickly and serve its customers like Nucor Steel, which is an important industry in the area. The improvements are funded through the state's Freight Rail and Rail Crossing Safety Improvement Program, state Mobility Money and a federal TIGER grant as well as matching state funds.

The department joined the State Highway Patrol on December 15 for a ribbon cutting for the new weigh station on I-85 in Bessemer City. Most notably, this state-of-the-art facility includes North Carolina’s first indoor Inspection Building, which allows inspections to be performed in all weather conditions. It also features Weigh-In-Motion technology that can weigh tractor trailers without requiring them to stop, and it provides both a longer deceleration lane and less incline for acceleration, making exiting/entering I-85 safer and easier.

Acting Secretary said all of these projects are not only great transportation projects, but they represent significant partnerships the department has in place to further strengthen our state. These are all prime examples of what the department will continue working to achieve throughout North Carolina.

He thanked everyone again for their hard work and this board’s support.

CFO Update

Chairman Curran thanked everyone for all their hard work and reported on the cash balance as required by the Legislature on behalf of David Tyeryar.

Division 3 Update

Board Member Fountain and Division Engineer Karen Collette gave an update on Division 3.

Approval of Projects

A motion was made by Board Member Overholt, seconded by Board Member Palermo, to approve all the projects, excluding items C, D, E, H and L, as they are delegated authority items and require no Board action.

Delegated Authority Items

Approval – Award of Highway Construction Contracts in the December 20, 2016 Letting

Projects were awarded by the Secretary to the low bidder on all projects.

PRELIMINARY RIGHT OF WAY PLANS 16 PROJECT(S) $0.00

Final Right of Way Plans
Right of way acquisition in accordance with the preliminary right of way plans on file in the Right of Way Unit has been determined to be necessary for public use and was authorized by the Board. Certain changes in the right of way have necessitated alteration of the preliminary right of way plans. Final plans have been prepared and provide for the construction, design, drainage and control of access for these projects. The Board finds that such rights of way and control of access as shown on the final plans are for a public use and are necessary for construction. The sections of roads which were shown on the preliminary plans as sections of roads to be abandoned are hereby abandoned and removed from the State Highway System for Maintenance upon the completion and acceptance of the project.

The rights of way for the location, design and construction of highways embraced in the following projects shall be as shown in detail on the final plans for said projects as follows:

Revisions of the Final Right of Way Plans

Right of way acquisition in accordance with the final right of way plans for the following projects has been determined to be necessary and authorized by the Board. Plans are on file at the Office of the Secretary to the Board of Transportation as an addendum to the minutes of the meetings hereinafter indicated.

Certain changes in right of way, construction and drainage easements, and control of access have been necessitated by alterations in the construction plans of these projects. Amended plan sheets for these projects have been prepared which provide for changes of certain right of way areas, construction and drainage easements and control of access.

The Board finds that the revised areas of right of way, construction and drainage easements and control of access, as shown on the amended plan sheets hereinafter set out, are for a public purpose and are necessary for the construction of projects.

The right of way, construction and drainage easements and control of access are hereby revised as shown on the plan sheets incorporated herein as an addendum, said projects, date of original final approval, and revised right of way, easements and access being as follows:
