

## **Board of Directors Meeting**

North Carolina Turnpike Authority

March 28, 2018

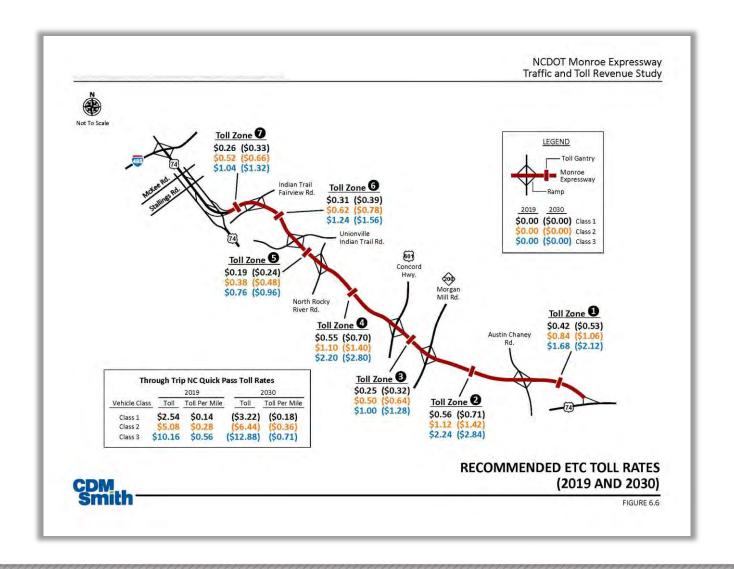

# Proposed Monroe Expressway Toll Rate Schedule

David Roy
Director of Finance

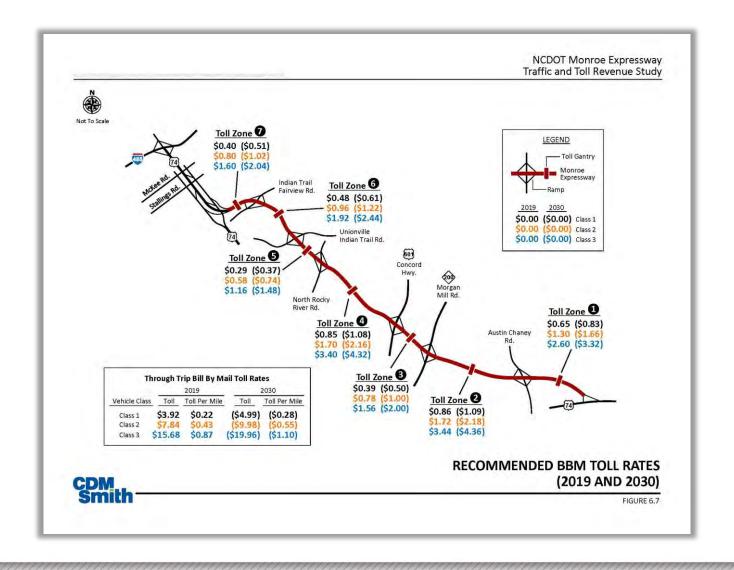

# Proposed Monroe Expressway Toll Rate Schedule

- Class 1 (2 axle vehicles) paying via NC Quick Pass
  - \$0.14 per mile
  - \$2.54 to travel the length of the Monroe Expressway
- ETC toll rates are 35% lower than BBM rates
  - Class 2 (3 axle vehicles) are two times Class 1 toll rates
  - Class 3 (4+ axle vehicles) are four times Class 1 toll rates
- Toll rates increase annually on January 1
  - 2019 to 2025, annual increase averages 2.3%
  - 2025 to 2040, annual increase averages 2.1%

### **ETC Toll Rates**

### **BBM Toll Rates**

2018 Advance Refunding of Remaining 2009B Triangle Expressway System BABs Appropriation Revenue Bonds

David Roy
Director of Finance

# NCTA Refunding Opportunity Overview

Triangle Expressway System State Annual Appropriation Revenue Bonds (BABs), Series 2009B

March 28, 2018

# Triangle Expressway State Annual Appropriation Revenue Bonds, Series 2009B

- The Series 2009B Bond were issued as Federally Taxable, Issuer Subsidy Build America Bonds
  - NCTA was to receive a subsidy of 35% of the interest due on the bonds semi-annually
  - Due to sequestration, NCTA has not received the full subsidy since FY 2013
  - Sequestration rates have ranged from 6.6% to 8.7% and is currently 6.6%
- In August of 2017, NCTA entered into a Forward Delivery Bond Purchase Agreement for a refunding of \$161,515,000 Series 2009B Bonds (maturing 1/1/2022 through 1/1/2032)
  - A forward refunding eliminates concerns of the BABs subsidy being eliminated prior to the call date on the refunded bonds
  - The refunding achieved net present value savings of \$18.85 million or 11.67% of refunded par and annual cash flow savings average \$1.7 million

### **Refunding Overview**

- Though the Tax Cuts and Jobs Act eliminated tax-exempt advance refundings in the traditional sense, an advance refunding of taxable BABs is permissible as long as two federally subsidized issues aren't outstanding at the same time.
  - The BAB subsidy on the refunded bonds will be eliminated as soon as they are refunded effectively making the bonds taxable and therefore eligible for an advance refunding.
- The Series 2009B Bonds are currently outstanding in a par amount of \$180,375,000
  - \$150,850,000 is eligible for a refunding on January 1, 2019 at par
  - Refunding does not include the non-callable Serial Bond portion of debt
- Refunding Alternatives include:
  - Option 1: Advance Refunding with an assumed closing of 5/10/2018
  - Option 2A/B: Current Refunding Closing on 10/3/2018 or 1/1/2019

### **Refunding Alternatives**

- The execution of an advance refunding would subject the Authority to negative arbitrage and loss of BAB subsidy payments between closing and the call date.
- A current refunding can be executed up to 90 days prior to the call date. Analysis
  assumes current market rates prevail at the time of closing though the transaction is
  subject to market movement

Assumes market rates as of March 13, 2018 plus applicable credit spreads and a

5.0% Coupon scale.

7% Coupon scale.	Option 1	Option 2-A	Option 2-B	
	Advance Refunding at	Current Refunding in	Current Refunding on the	
	Current Market Rates	October 2018	Call Date	
Dated / Delivery Date	5/10/2018	10/3/2018	1/1/2019	
Est. Pricing Date	4/26/2018	9/19/2018	12/18/2018	
Par Amount	137,320,000	135,270,000	133,280,000	
Par Amount of Refunded Bonds	150,850,000	150,850,000	150,850,000	
All-In TIC	3.90%	3.92%	3.93%	
Arbitrage Yield	3.20%	3.20%	3.20%	
Net PV Savings	6,810,327	9,457,162	11,995,502	
% Savings of Refunded Bonds	4.51%	6.27%	7.95%	
Negative Arbitrage	1,233,702	577,443	0	

<sup>\*</sup>Refunding analysis assumes a 6.60% Sequestration rate (32.69% subsidy) on the refunded bonds.

### **Breakeven Analysis** – Interest Rate Sensitivity

- A Current Refunding on or near 1/1/2019 based on today's interest rates and the assumptions herein, is \$12 million or 7.95% of refunded par but ...
- NCTA would carry interest rate risk until the current refunding bonds could be priced.
- Advance Refunding Breakeven
  - PFM estimates rates could increase <u>38 bps\*</u> and NCTA would achieve the same savings to
    execute a current refunding <u>on the call date</u> as it would to execute an advance today.
  - PFM estimates rates could increase <u>19 bps\*</u> and NCTA would achieve the same savings to
    execute a current refunding <u>in October 2018</u> as it would to execute an advance today.

\*Assuming a 4.0% coupon scales, the breakeven to the call date is 41 bps and the breakeven to October 2018 is 20 bps.

### How lower coupons impact savings

- When comparing 4.0% coupons to 5.0% coupons, the par amount of bonds issued increases because premium is reduced
- The All-in TIC (which is based on assuming bonds are held until maturity) decreases
  - If you think you'll hold the bonds to maturity, you want to achieve the lowest TIC
- The Arbitrage Yield (which is based on assuming bonds are called on the call date) increases
  - If you think you'll call the bonds prior to maturity, you want to achieve the lowest arb. yield
- A competitive bid is based on the <u>lowest TIC</u> so it is likely the winning bid will include sub 5% coupons. This will increase savings (a calculation based on holding bonds through their maturity) and decrease the option value of the bonds ie. the likelihood the bonds will be refunded for additional savings in the future. Note all refunding bonds will be issued beyond the call date.

# North Carolina Turnpike Authority Complete 540 (Phase I)

March 28, 2018

#### **Complete 540 Project Data Assumptions**

- Tentative Schedule
  - Plan of Finance Start 7/1/2018
  - Open to Traffic Section 1 opens January 2022, Section 2 opens March 2022 and Section 3 opens September 2022
  - Construction Cost \$1,248,926,293
- Traffic & Revenue
  - Triangle Expressway Draft T&R Report prepared by CDM Smith Scenario 3
  - Complete 540 (R-2721A, R-2721B, R-2828) Draft T&R Report prepared by CDM Smith
    - Report assumes 2025 Open date; 2.5% annual adjustment back to 2023 Open; 1/4 of adjusted FY 2023 revenues assumed in FY 2022 for opening of first two sections
  - Existing TriEx toll revenues end after FY 2049
- O&M / R&R Provided by HNTB August 2017

#### **Potential Sources of Funds**

- Parity System Toll Revenue Bonds combined with existing Triangle Expressway
- Parity Subordinate System Toll Revenue TIFIA Loan
  - Pursue a refunding of the existing TIFIA Loan in tandem with the new loan
  - System expansion adds substantial incremental T&R once open
  - Extend the final maturity with system expansion
- Up to \$243 million NCDOT GARVEE Bonds (per STIP)
- Up to \$81 million NCDOT GARVEE State Match 33% of GARVEE Bonds
- Up to \$81 million NCDOT National Highway Performance Program (per STIP)

#### **Complete 540 Financing Assumptions**

- Toll Revenue Bonds
  - Interest Rate: BBB Revenue MMD (3/13/2018) + 75 bps
  - Common Debt Service Reserve Fund (DSRF) sized to 5-year Maximum Annual Debt Service (MADS)
  - Gross pledge on parity with Series 2009 and Series 2017 Toll Revenue Bonds

#### TIFIA

- Interest Rate: 3.86% (TIFIA Rate as of 3/13/2018) + 75 bps
- Common DSRF with existing loan
  - Initial DSRF deposit to bring aggregate total to \$10 million.
  - Ongoing deposits equal to 10% of total excess revenues above new base case until balance equals 10% of outstanding balance
- General Reserve
  - Minimum Balance Target: \$50 million

#### Triangle Expressway System Toll Financing – Cash Flows

## Resolution Requesting an NCDOT Support Guarantee for Certain STIP Projects

David Roy

**Director of Finance** 

# Support Guarantee Resolution

- NCDOT will pay for specified projects of the Authority:
  - Unanticipated construction costs
  - Amounts required to fund O&M expenses or R&R costs, or deficiencies in reserves therefore, if project revenues after debt service payments are not sufficient for the purpose
- Amounts transferred to be repaid with simple interest calculated at the rate determined by North Carolina General Statute 136-176(b)

# Inducement Resolution for Complete 540 Financing

David Roy
Director of Finance

## Complete 540 Financing Resolution

- The Department of Transportation will be reimbursed for costs incurred with respect to the Complete 540 project from proceeds of the bonds issued by the Turnpike Authority for the financing of Complete 540
- The reimbursement may be in an aggregate amount up to \$100,000,000
- Such funds, once reimbursed, will again be available to pay the NCDOT share of the project in the ordinary course

# Policy for Adopting Express Lane Tolling Methodologies

Spencer Franklin, P.E. HNTB

## **Financial Advisor Selection**

David Roy
Director of Finance
