

NC Smartlink Request for Proposals (RFP)

The purpose of these documents is to provide additional information and reference material for prospective vendors interested in the NC Smartlink Request for Proposals (RFP). However, some of the documents on this web page are dated as far back as 2005, when the Smartlink RFP was originated. We will update these documents as necessary and will identify the updates so they can be easily recognized. At this time, the only update we anticipate is on the [Device Inventory All Devices](#) spreadsheet as we are getting more up to date information daily. As stated in the Smartlink RFP (page 27, Section F), in the event of a conflict among any of the documents referenced in this RFP or with the National Transportation Communications for ITS Protocols, the following priority order will be used to resolve the conflict:

- (1) Device Inventories
- (2) National Transportation Communications for ITS Protocols
- (3) RFP document
- (4) NC Information Technology Statewide Standards for Security and Architecture
- (5) Supplemental Terms and Conditions
- (6) General Terms and Conditions

As specified in the RFP, please refer ALL inquiries to:

Chris Andresen, NCDOT Purchasing Agent
phone: (919) 707-2627
