This is your permanent set of North Carolina proportional registration instructions.

This manual has been prepared as a guide to securing proportional registration in North Carolina and should provide the basic information needed when preparing applications for annual registration. The contents will not cover every situation which may arise.

This manual should be retained for reference purposes.

Because of the workload and processing system, walk-in applicants cannot be given priority. Without prior notice, it might not be possible to process an application completely within the same day; however, needed assistance in preparing forms or request for information will be given to those who come to or telephone the office.

INTERNATIONAL REGISTRATION PLAN

PURPOSE AND PRINCIPLE

Effective with licensing year 1977, North Carolina became a member of the International Registration Plan.

The International Registration Plan is a registration reciprocity compact among 48 states of the United States, District of Columbia and Provinces of Canada (Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland-Labrador Nova Scotia, Ontario, Prince Edward Island, Quebec, and Saskatchewan) providing for payment of license fees on the basis of fleet distance operated in various jurisdictions.

The unique feature of this plan is that even though license fees are paid to the various jurisdictions in which fleet vehicles are operated, only one (1) license plate and one (1) cab card is issued for each fleet vehicle when registered under the Plan. A fleet vehicle is known as an apportionable vehicle.

It is the purpose of this agreement to (1) grant full intrastate and/or interstate reciprocity to proportionally registered vehicles owned and/or operated by registrants of member jurisdictions, provided the registrant has proper intrastate and/or interstate authority from the appropriate regulatory agency or is exempt from regulation by the regulatory agency; and, (2) to provide for the continuance of inter-state reciprocity granted to those properly registered vehicles owned and/or operated by registrants of nonmember jurisdictions.

In the concept of one plate per vehicle rule, license fees will be computed according to percentage of distance in each jurisdiction for the preceding year (see definition of preceding year).

To give a simplified example of how license apportionment applies, take a 62,000 lb. tractor/trailer (North Carolina based for hire operator) which operates in North Carolina, Virginia, Tennessee and Kentucky only. The total preceding year distance for this tractor/trailer was 100,000, with an exact 25,000 miles in each jurisdiction. Under the International Registration Plan, the license fees will be computed as follows:

<table>
<thead>
<tr>
<th>JURISDICTION</th>
<th>PERCENT OF TOTAL</th>
<th>FULL YEAR FEES (BY JURISDICTION)</th>
<th>APPORTION FEES</th>
</tr>
</thead>
<tbody>
<tr>
<td>North Carolina</td>
<td>25,000</td>
<td>25.000% x $747.00</td>
<td>= $186.75</td>
</tr>
<tr>
<td>Virginia</td>
<td>25,000</td>
<td>25.000% x $963.50</td>
<td>= $240.88</td>
</tr>
<tr>
<td>Tennessee</td>
<td>25,000</td>
<td>25.000% x $1,024.00</td>
<td>= $256.00</td>
</tr>
<tr>
<td>Kentucky</td>
<td>25,000</td>
<td>25.000% x $882.00</td>
<td>= $220.50</td>
</tr>
<tr>
<td>Totals</td>
<td>100,000</td>
<td>100.000%</td>
<td></td>
</tr>
</tbody>
</table>

*(Plus trailer, and other applicable registration fees—N.C. ONLY)*
DEFINITIONS APPLICABLE TO THE PLAN AND MANUAL

**Allocated Vehicle**—a vehicle to which a jurisdiction’s registration plate or apportioned registration plate is attached upon payment of this jurisdiction’s full basic registration fee. A portion of each fleet of one way vehicles is allocated to each jurisdiction into or through which the fleet travels (each vehicle of the fleet need not enter every jurisdiction).

**Applicant Registrant**—a person, firm, or corporation in whose name the uniform application is filed and vehicles properly registered with a base jurisdiction.

**Apportionable Fee**—any periodic recurring fee required for licensing or registering vehicles, such as, but not limited to, registration fees, license or weight fees.

"**Apportioned Vehicle**" means an Apportionable Vehicle that has been registered under the Plan.— Any power unit that is used or intended for use in two or more member jurisdictions and that is used for transportation of persons for hire or designed, used, or maintained primarily for the transportation of property and:

1. a power unit having two axles and a gross vehicle weight or registered gross vehicle weight in excess of 26,000 pounds or 11,793.401 kilograms; or
2. a power unit having three or more axles, regardless of weight; or
3. used in combination, when the weight of such combination exceeds 26,000 pounds or 11,793.401 kilograms gross vehicle weight.

Trucks and truck tractors, and combinations of vehicles having a gross vehicle weight of 26,000 pounds or 11,793.401 kilograms or less and buses used in transportation of chartered parties, may be proportionally registered at the option of the registrant.

**Auxiliary Axle**—an auxiliary undercarriage assembly with a fifth wheel and tow bar used to convert a semi-trailer to a full trailer (Sometimes called “Converter Gear” or “Dolly”)

**Axle**—an assembly of a vehicle consisting of two or more wheels whose centers are in one horizontal plane by means of which a portion of the weight of a vehicle and its load, if any, is continually transmitted to the roadway. For purposes of registration under the IRP, an “axle” is any such assembly whether or not it is load-bearing only part of the time.

**Base Jurisdiction**—An applicant may elect its base jurisdiction where the applicant has an established place of business, where distance is accrued by the fleet and where operational records of such fleet are maintained or can be made available. To establish residence in a jurisdiction, an applicant must demonstrate to the satisfaction of the jurisdiction at least **three** of the following:

1. If the applicant is an individual, his or her driver's license is issued by that jurisdiction,
2. If the applicant is a corporation, that the principal owner is a resident of that jurisdiction,
3. That the applicant’s federal income tax returns have been filed from an address in that jurisdiction,
4. That the applicant has paid personal income taxes to that jurisdiction,
5. That the applicant has paid real estate or personal property taxes to that jurisdiction,
6. That the applicant receives utility bills in that jurisdiction in its name,
7. That the applicant has a vehicle titled in that jurisdiction in its name

**Base Plate**—the plate issued by the Base Jurisdiction and shall be the only registration identification plate issued for the vehicle by any member jurisdiction. Base plates shall be identified by having the word “apportioned” or “PRP” and the jurisdiction’s name on the plate. The numbering system and color shall be determined by the issuing jurisdiction.
Cab Card—a registration card issued only by the Base Jurisdiction for a vehicle of an apportioned fleet which identifies the vehicle, base plate, registered weight by jurisdictions and showing the jurisdictions where the vehicle is properly registered.

Chartered Party—a group of persons who, pursuant to a common purpose and under a single contract, and at a fixed charge for the vehicle in accordance with the carrier’s tariff, have acquired the exclusive use of a passenger-carrying motor vehicle to travel together as a group to a specified destination or for a particular itinerary, either agreed upon in advance or modified by the chartered group after having left the place of origin.

Combination of Vehicles—a power unit used in combination with trailers and/or semi-trailers.

Commissioner—the jurisdiction official in charge of registration of vehicles.

Converter Gear—an auxiliary undercarriage assembly with a fifth wheel and tow bar used to convert a semi-trailer to a full trailer. (Sometimes called “Auxiliary Axle” or “Dolly”)

Deadhead—to operate a commercial vehicle from one point to another without transporting any type of cargo.

Distance

In-Jurisdiction Distance—the total distance operated by a fleet of vehicles in a jurisdiction during the preceding year.

Total Distance—the total distance operated by a fleet of proportionally registered vehicles in all jurisdictions during the preceding year.

Established Place of Business—Established place of business means a physical structure located within the base jurisdiction that is owned or leased by the applicant or registrant whose street address shall be specified. This structure shall be open for business and shall be staffed during regular business hours by one or more persons employed by the applicant or registrant on a permanent basis for the management of the applicant’s or registrant’s trucking-related business. Operational records concerning the fleet shall be maintained at this structure. The base jurisdiction may accept information it deems pertinent to verify that an applicant or registrant has an established place of business with the base jurisdiction.

FHWA—Federal Highway Administration.

FHVUT—Federal heavy vehicle use tax paid to U.S. Treasury for motor vehicles registered at 55000 lbs. or more.

Fleet—one or more apportionable vehicles.

Fleet Distance—Distance generated by all power vehicles which were a part of the apportioned fleet during the period July 1 through June 30 preceding the year for which registration is sought.

Interjurisdiction Movement—vehicle movement between or through two or more jurisdictions.

Intrajurisdiction Movement—vehicle movement from one point within a state to another point within the same state.

IRP—the abbreviation for the reciprocal agreement, the International Registration Plan. I.V.D.R.—Individual Vehicle Distance Record is the original record generated in the course of actual vehicle operation and is used as a source document to verify the registrant’s application for accuracy.

Jurisdiction—a state, territory or possession of the United States, the District of Columbia, or a state, province, or territory of a country.
**Lease**—a written document giving exclusive possession, control of and responsibility for the operation of the vehicle to the lessee for a specific period of time. (See “Trip Lease”)

**Lessee**—a person, firm or corporation which has the legal possession and control of a vehicle owned by another under the terms of a lease agreement.

**Lessor**—Legal owner of vehicle. A person firm or corporation which under the terms of a lease, grants the legal right of possession, control of and responsibility for the operation of the vehicle to another person, firm or corporation.

**Long Term**—any period of time exceeding 29 days.

**Motor Carrier**—an individual, partnership, or corporation engaged in the transportation of goods or persons.

**Common Carrier (COM)**—any motor carrier which is hired by the general public to engage in the transportation by motor vehicle of passengers or property for compensation.

**Contract Carrier (CON)**—any motor carrier transporting persons or property for compensation for hire under contract to a particular person, firm or corporation.

**For Hire Exempt Carrier (FHE)**—an individual, partnership, or corporation engaged in the business of transporting exempt goods or persons for compensation.

**For Hire Leased (FHL)**—an individual, partnership or corporation engaged in the business of transporting regulated goods/property under the FHWA authority of another motor carrier.

**For Hire Rental (FHR)**—a corporation or business engaged in the business of renting or offering vehicles for rent (with or without drivers).

**Private Carrier (PVT)**—a person, firm or corporation which uses its own trucks to transport its own freight.

**Motor Vehicle**—every vehicle which is self-propelled by power other than muscular power.

**Bus (BU)**—a motor vehicle designed for carrying more than 10 passengers and used for the transportation of persons.

**Tractor (TR)**—every motor vehicle designed and used for pulling other vehicles but not so constructed as to carry a load other than a part of the weight of the vehicle and load.

**Truck (TK)**—every motor vehicle designed, used or maintained for the transportation of property.

**Trailers (TL)**—every vehicle without motor power, designed for carrying persons or property and for being pulled by a motor vehicle.

**One-Way Vehicle**—a truck having a Declared Gross Vehicle Weight of 26,000 pounds or 11,793.401 kilograms or less and rented or offered for rental by a Rental Company, for a specified period of time.

**Operational Records**—documents supporting distance traveled in each jurisdiction and total distance traveled such as fuel reports, trip sheets and logs.

**Owner-Operator**—the legal owner of a vehicle who leases his vehicular equipment with driver to another.

**Pool Fleet**—a fleet of rental company trailers and semi-trailers having a gross weight in excess of 6,000 pounds or 2,721.554 kilograms, and used solely in pool operation, with no permanent base.

**Power Unit**—self-propelled motor vehicle.
Preceding Year—the period of twelve consecutive months immediately prior to July 1st of the year immediately preceding the commencement of the registration or license year for which apportioned registration is sought.

RTA (Regional Transit Authority)—mass transportation fee collected at $5.00 per motor vehicle for the following counties: Durham, Orange and Wake.

Reciprocity—An apportioned vehicle properly registered hereunder shall be exempt from further registration by any other member jurisdiction.

Reciprocity Agreement—an agreement, arrangement or understanding governing the reciprocal grant of rights and/or privileges to vehicles which are based in and properly registered under the applicable laws of the jurisdictions which are parties to such an agreement, arrangement or understanding.

Recreational Vehicle—used for personal pleasure or travel. Example: “campers (CT),” “house trailers, and/or motor homes (HC)”.

Registrant—a person, firm or corporation in whose name or names a vehicle is properly registered.

Registered Weight—the weight for which a vehicle or combination of vehicles have been licensed or registered.

Registration Year—the twelve month period during which the registration plates issued by the base jurisdiction are valid according to the laws of the base jurisdiction.

Rental Fleet—means vehicles the rental owner designates as a rental fleet and which are offered for rent with or without drivers.

Rental Owner—means someone who rents vehicles to others with or without drives.

Rental Transaction—means that the rental of a vehicle shall be deemed to occur in the jurisdiction where such vehicle first comes into possession of the user.

Rental Vehicle—means a vehicle of a rental fleet.

Renting and Leasing—means the giving of possession and control of a vehicle for valuable consideration for a specified period of time.

Reporting Period — means, except as provided below, the period of twelve consecutive months immediately prior to July 1 of the calendar year immediately preceding the beginning of the Registration Year for which apportioned registration is sought. If the Registration Year begins on any date in July, August, or September, the Reporting Period shall be the previous such twelve-month period. The following table is provided for illustration purposes:

<table>
<thead>
<tr>
<th>If the first month of Registration Year is:</th>
<th>The Reporting Period is:</th>
</tr>
</thead>
<tbody>
<tr>
<td>April, 2012</td>
<td>July 1, 2010 – June 30, 2011</td>
</tr>
<tr>
<td>Residence — means the status of an Applicant or a Registrant as a resident of a Member Jurisdiction.</td>
<td></td>
</tr>
<tr>
<td>--------------------------------------------------</td>
<td></td>
</tr>
<tr>
<td>Restricted Plate—means a plate that has a time, geographic area, distance, or commodity restriction or a mass transit or other special plate issued for a bus leased or owned by a municipal government, a state or provincial transportation authority, or a private party, and operated as part of an urban mass transit system, as defined by the Jurisdiction that issues the plate.</td>
<td></td>
</tr>
<tr>
<td>Semi-Trailer—every vehicle without motive power designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that some part of its weight and that of its load rests upon or is carried by the towing vehicle.</td>
<td></td>
</tr>
<tr>
<td>Service Representative—one who furnishes facilities and services including sales, warehousing, motorized equipment and drivers under contract or other arrangements to a carrier for transportation of property by a household goods carrier.</td>
<td></td>
</tr>
<tr>
<td>Staggered Registration—means a method of distributing fleet registration so that credentials expire in different months during the same registration year.</td>
<td></td>
</tr>
<tr>
<td>Semi-Trailer—every vehicle without motive power designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that some part of its weight and that of its load rests upon or is carried by the towing vehicle.</td>
<td></td>
</tr>
<tr>
<td>Service Representative—one who furnishes facilities and services including sales, warehousing, motorized equipment and drivers under contract or other arrangements to a carrier for transportation of property by a household goods carrier.</td>
<td></td>
</tr>
<tr>
<td>Total Distance—the total distance operated by a fleet of apportioned vehicles in all jurisdictions during the preceding year.</td>
<td></td>
</tr>
<tr>
<td>Trip Lease—a lease of a vehicle to a carrier (lessee) for a single interjurisdictional movement. The term may also include a similar movement intra-jurisdictional where such movement is authorized under the laws of the jurisdiction.</td>
<td></td>
</tr>
<tr>
<td>Unladen Vehicle Weight—the weight of a vehicle fully equipped for service excluding the weight of any load.</td>
<td></td>
</tr>
<tr>
<td>Unladen Weight Permit—10 day temporary registration permit issued for the empty weight of a motor vehicle.</td>
<td></td>
</tr>
</tbody>
</table>
Staggered Registration

Beginning with the 2006 Registration Year, North Carolina implemented a "Staggered Registration" for all apportioned motor carriers based in our state. In the 2004 Short Session, the North Carolina General Assembly enacted legislation to allow for the staggering of all commercial motor vehicles.

1. What is the advantage for you the motor carrier?

"Staggered Registration" provides for a 12-month staggered system which will equally divide all apportioned accounts to renew monthly. This will eliminate long lines in the Raleigh and Charlotte IRP Offices and reduce your wait time. If you process your renewal via the Internet, regardless of your renewal month, our Internet Application will be available at your convenience.

2. Is there still a grace period at renewal?

Yes, the grace period is 15 days.

3. When will you receive your renewal application in the mail?

You will receive your renewal application approximately 75 days prior to your expiration date. This will allow you ample time to process your renewal.

4. Did the options available for processing your renewal change?

No. There are three methods by which you can process your renewal. You can still go to the Raleigh or Charlotte IRP Office if you choose. If processing by mail, the checklist that is included as part of your renewal application will indicate the date by which you need to mail your application back to us in order to allow ample time for processing. This will ensure you receive your registration cab cards before the grace period expires. If processing your renewal via the Internet, you will be able to process your renewal 60 days prior to your renewal month.

5. Will you keep your same plate(s)?

Yes. Initially, you will be issued both month and year stickers for each license plate. Every renewal thereafter, you will just receive a year sticker.

6. If you process your renewal prior to your new effective date, can you display your new stickers and cab cards?

You can display your new stickers on your license plate, but you must display your old cab cards until the new cab cards become effective based on the effective date indicated on your cab card(s).

7. If you have multiple fleets, will they renew at different times?

No. All fleets within your account will have the same renewal month. Any vehicles that you add to a fleet throughout the registration year will have the same expiration date as all other vehicles in the fleet.

**IMPORTANT INFORMATION**

**NEW ACCOUNTS REQUIREMENTS**

- Applicant must be able to demonstrate residency in North Carolina or have an established place of business in North Carolina. **Must provide at least 3 from the following list but only 1 per category.**
  - If Applicant is an individual, his or her valid NC driver’s license. We do not accept the temporary driving certificate, must have hard copy of valid NC driver’s license – **Must have current address.**
  - If the applicant is a corporation and the principal owner is a resident of that jurisdiction. Officers must be listed and visible on the NC Secretary of State website in order to use proofs in the individual name and have a NC Driver’s License. Registered Agents, Incorporator or Organizer are **NOT** considered an officer.
  - Applicant’s current federal income tax return indicating a valid NC address with the IRS confirmation that the return was received. Also acceptable is the IRS transcript.
  - Applicant’s current mortgage statement
  - Documentation proving the Applicant has paid real estate or personal property taxes within the last year in North Carolina.
  - Proof applicant has paid personal income taxes to North Carolina.
  - Current utility bill (water, gas, electric) in the applicants name with NC address. Phone bills and cable bills are not acceptable.
  - Current vehicle registration in Applicant’s name other than IRP Vehicle
  - Documents issued by the state of North Carolina, county, city and/or some other federal government documents.
  - Current W-2

GENERAL INFORMATION FOR APPORTIONED REGISTRATION

Under the International Registration Plan, North Carolina registrants operating apportionable vehicles into or through one or more member jurisdiction shall file each year with the North Carolina Division of Motor Vehicles a uniform application for each apportionable fleet. All applicants for apportioned registration shall make application in such manner on forms as the Commissioner shall furnish. A complete vehicle description of power units, and other information as required, shall be listed on each application. If fleet(s) of apportioned vehicles operate in certain jurisdictions, the applicant shall list auxiliary axles in addition to the power units.

INSURANCE REQUIREMENTS

Each Motor Carrier regulated by the Federal Highway Administration (FHWA) must have a Motor Carrier Bodily Injury and Property Damage Liability Certificate of Insurance (Form BMC91) on file with the Division of Motor Vehicles, before an apportioned license can be purchased.

Each For Hire Interstate Motor Carrier must have a Uniform Motor Carrier Bodily Injury and Property Damage Liability Certificate of Insurance (Form E) on file with the Division of Motor Vehicles, before an apportioned license can be purchased.

Proper limits of insurance coverage must be in force at all times. Cancellation of liability insurance requires surrender of license plate or proof of continuous coverage. Note: Any applicant making a false certification is guilty of a misdemeanor.

IT IS THE RESPONSIBILITY OF ANY REGISTRANT TO NOTIFY THE DIVISION OF MOTOR VEHICLES OF ANY CHANGE IN THEIR LIABILITY INSURANCE COVERAGE.

The following is a schedule of limits as required for interstate operations:

<table>
<thead>
<tr>
<th>TYPE OF CARRIAGE</th>
<th>COMMODITY TRANSPORTED</th>
<th>JAN. 1, 1985</th>
</tr>
</thead>
<tbody>
<tr>
<td>(1) For-Hire (In interstate or foreign commerce).</td>
<td>Property (nonhazardous) and household goods.</td>
<td>$750,000</td>
</tr>
<tr>
<td>(2) For-Hire and Private (In interstate, foreign, or intrastate commerce).</td>
<td>Hazardous substances, as defined in 49 Code of Federal Regulations 171.8, transported in cargo tank, portable tanks, or hopper-type vehicles with capacities in excess of 3,500 water gallons; or in bulk Class A or B explosives, poison gas (Poison A), liquefied compressed gas or compressed gas; or highway route controlled quantity materials as defined in 49 Code of Federal Regulations 173.403.</td>
<td>5,000,000</td>
</tr>
<tr>
<td>(3) For-Hire and Private (In interstate or foreign commerce: in any quantity) or (In intrastate commerce: in bulk only).</td>
<td>Oil listed in 49 Code of Federal Regulations 172.101; hazardous waste, hazardous materials and hazardous substances defined in 49 Code of Federal Regulations 171.8 and listed in 49 Code of Federal Regulations 172.101, but not mentioned in (2) above or (4) below.</td>
<td>1,000,000</td>
</tr>
<tr>
<td>(4) For-Hire and Private (In interstate or foreign commerce).</td>
<td>Any quantity of Class A or B explosives; any quantity of poison gas (Poison A); or highway route controlled quantity radioactive materials as defined in 49 Code of Federal Regulations 173.403.</td>
<td>5,000,000</td>
</tr>
</tbody>
</table>

NOTE: The type of carriage listed under numbers (1), (2), and (3) apply to vehicles with a gross vehicle weight rating of 10,000 pounds or more. The type of carriage listed under number (4) applies to all vehicles with a gross vehicle weight rating of less than 10,000 pounds.
### PASSENGER CARRIERS

<table>

<tr>
<td>(1) Any vehicle with a seating capacity of 16 passengers or more</td>
<td>$5,000,000</td>
<td></td>
</tr>
<tr>
<td>(2) Any vehicle with a seating capacity of 15 passengers or less</td>
<td>1,500,000</td>
<td></td>
</tr>
</tbody>
</table>

**Internet Renewal Applications**

You may process your IRP Renewal application via the Internet by accessing the DMV website at: http://www.ncdot.org/dmv/. Once you have entered the DMV website, click on TranExpresSystems to view the services offered by DMV. Before choosing an application to renew, you may click on the "Test Drive Our Online Demos" button to view the different screens within each renewal process. The button labeled "Important IRP Information" also contains pertinent information that you need to know prior to starting your renewal process. If you wish to renew your International Registration Plan (IRP) you must complete an Access Setup within each application the first time you enter the application. Once the Access Setup has been completed, you do not have to complete this again and you will login with your email address and password from then on. The internet renewal process will be stopped if you have not updated Form MCS-150 identifying the motor carrier responsible for safety. This form requires a Biennial update, as well as anytime the motor carrier responsible for safety changes. You may complete online at www.safer.fmcsa.dot.gov.

**First Time User/Initial Access Setup**

When renewing the IRP, via the Internet for the first time, you must click on the "First Time User/ Initial Access Setup" located on the Login Screen to complete your Access Setup for this application. You will be mailed a letter with all pertinent access information listed on it that you will use in order to complete your Access Setup for each application. If you have used the Internet in the past and have already completed the Access Setup, you may go directly to the Login Screen and enter your email address and password to begin whatever renewal application you have chosen.

**International Registration Plan (IRP) Internet Renewal**

You will be able to complete an “early” renewal, which means you can renew up to 60 days prior to your expiration date. **Prior to beginning the IRP Internet Renewal process, you must fax your Form 2290, Heavy Vehicle Use Tax for any vehicles to be renewed with a gross vehicle weight of 55,000 lbs. or more to the Raleigh IRP Office at (919) 715-9129. Please be sure to note your IRP account number on the fax so that we may update the proper account.** If you want to complete and pay your IRP Renewal via the Internet, Electronic Funds Transfer (EFT) is the only payment option allowed. If you choose to pay by EFT, you will only have the option to pick-up your credentials at the Raleigh IRP office or have them mailed to you. **You will not be able to print at your location or pick-up credentials in the Charlotte IRP office if payment is made by EFT.** You also have the option to pay by check by bringing or mailing your payment to the Charlotte or Raleigh IRP offices once you have completed your IRP Internet renewal process. **If you elect to pay your fees by Electronic Funds Transfer, you must also fax a copy of a Voided Check or Savings Deposit Slip to the Raleigh IRP Office at (919) 715-9129 prior to beginning renewal process so that your Bank Account numbers can be posted to the proper IRP account. Be sure to note your IRP Account number on the fax so that we may update the proper account.**

If you had a Bank Draft on your IRP Account last year and have the same bank information, you will be given the option to process a Bank Draft again as long as your North Carolina fees equal $400.00 or more. If you did not have a Bank Draft last year, you will not be able to process your application via the Internet and setup a Bank Draft.
If you use the option to pick up your credentials you can pay your renewal by check, debit card or credit card.

Once you have entered the IRP Internet Renewal, please read the "Welcome to IRP" page for more general information regarding the IRP Internet Renewal process.

**PROPERTY TAX STOP**

General Statute 105-330, adopted by the North Carolina General Assembly in 1991, allows the renewal of a license plate to serve as a property tax listing for motor vehicles. The Statute allows the Division to refuse to renew a vehicle license plate when a stop has been placed on the vehicle registration file showing property tax has not been paid in accordance with the new provisions. Effective date of the Statute is January 1, 1993. To ensure that all property tax stops are cleared, when renewing your apportioned license plates bring a copy of your tax receipt (MAV-2) from the County Tax Assessors Office.

**TRAILER APPORTIONMENT**

If you desire to apportion trailers, you may include trailers in your IRP fleet. The cost of an apportion trailer plate is $25.00 with no additional jurisdictional fees due.
New Account/Fleet

In order to establish a new IRP account and/or fleet, the following criteria must be met:

- Established Place of Business - in order to apportion based in North Carolina you must be a resident of North Carolina or have an Established Place of Business in North Carolina (See definition of Established Place of Business in this manual on page 4). You must have 3 proofs of residency or place of business in NC.

- To establish residence in a jurisdiction, an applicant must demonstrate to the satisfaction of the jurisdiction at least three of the following:
  1. If the applicant is an individual, his or her driver’s license is issued by that jurisdiction,
  2. That the applicant’s federal income tax returns have been filed from an address in that jurisdiction,
  3. That the applicant has paid personal income taxes to that jurisdiction,
  4. That the applicant has paid real estate or personal property taxes to that jurisdiction,
  5. That the applicant receives utility bills in that jurisdiction in its name, or
  6. That the applicant has a vehicle titled in that jurisdiction in its name.

- Apportionable Vehicle - (1) a power unit having two axles and a gross vehicle weight in excess of 26,000 pounds; or (2) a power unit having three axles or more regardless of weight; or (3) when the combination exceeds 26,000 pounds gross vehicle weight.

- Must operate in two or more jurisdictions

- Type of Operation - every fleet in your IRP Account must be designated by a Fleet Type that describes your type of business. They are:
  (a) Private - PVT - hauls property belonging only to the account holder
  (b) Common Carrier - COM - any motor carrier which holds itself out to the general public to engage in the transportation of passengers or regulated property for compensation
  (c) Contract Carrier - CON - any motor carrier transporting persons or regulated property for compensation or hire under contract to a particular person, firm or corporation
  (d) For Hire Exempt – FHE - any person hauling for compensation commodities exempt from Federal regulations (exempt usually means commodities not processed)
  (e) For Hire Leased – FHL - hauls federally regulated property interstate operating under another person or company's FHWA authority (MC Number)
  (f) For Hire Rental – FHR- rents vehicles to others for transportation of property

- Commodity Class - the type of property transported by vehicles in a fleet. The commodity classes are as follows:
  (a) A – All commodities (used with fleet types PVT, COM, CON or FHL)
  (b) L – Logs (used with fleet types PVT or FHE)
  (c) E – Exempt (interstate exempt commodities used with fleet types FHE or FHR)
  (d) H - Household Goods Mover (used with fleet type COM)
  (e) P- Passenger Bus (used with fleet type COM)

- Insurance Certification - must furnish the Division your insurance company name and policy number; depending upon your Fleet Type, specific insurance forms may be required as proof of proper liability insurance coverage.
**Certification of Bobtail Insurance Coverage Only is not acceptable.**

- Jurisdictions of Travel - you must indicate all jurisdictions of travel that you wish your fleet to be apportioned that covers your scope of operation. Estimated distance will be used to base your operation for each jurisdiction. The estimated distance used is based on an average of all actual distance reported for a jurisdiction and all vehicles apportioned for that jurisdiction during a prior registration year. You may use your own anticipated estimated distance for a jurisdiction but you must furnish documentation to justify the distance reported.

After your first renewal, you will be required to report all actual distance accrued in the fleet for the reporting period.

- Apportioned Licensed Weight - you must declare the North Carolina Base Weight. Our computer system uses the Weight Group concept to record license weight. We have two types of Weight Groups, **Fixed** or **Variable**. A Fixed Weight Group means that all jurisdictions of travel will have the same weight as the North Carolina weight declared. A Variable Weight Group means that some or all jurisdictions of travel will have a weight different than the declared North Carolina weight.

All weights in a Variable Weight Group must be within 10 percent of the declared North Carolina weight. If the weight is not within the 10 percent variance, the registrant must sign a statement of declaration explaining why a specific jurisdiction must be licensed in excess or below the North Carolina declared weight.

- Equipment - every IRP Account/Fleet must have vehicles associated in order to be active. All fleets must consist of at least one power unit (except for Pool Fleet Trailers). Each piece of equipment must be identified by an Equipment Number. Equipment Numbers may consist of up to eight (8) characters. Equipment Numbers are unique numbers that you assign to your vehicle(s).

**Application Forms**

IRP-A     Apportioned Account Application  
IRP-F     Apportioned Fleet Application  
IRP-M1    Apportioned US Estimated Mileage Application (page 1 of 2)  
IRP-M1    Apportioned US Estimated Mileage Application (page 2 of 2)  
IRP-W     Apportioned Weight Group Schedule  
IRP-E     Apportioned Equipment Application

The applications must be signed and dated by an authorized representative of the account for the application to be complete.

A. MILEAGE CERTIFICATION: I CERTIFY THE MILEAGE ON THIS SCHEDULE REPRESENTS THE ACTUAL MILES FOR THE VEHICLES OPERATING IN THIS FLEET. I AM DECLARING THE AVERAGE VEHICLE DISTANCE MILEAGE FORMULA.

SIGNATURE: ___________________________  MUST BE SIGNED BY IRP ACCOUNT HOLDER OR AUTHORIZED REPRESENTATIVE OF FIRM OR BUSINESS  DATE: / /
**APPORTIONED SUPPLEMENT APPLICATION**

1. **IRP ACCOUNT NUMBER:** 00000  
   **FLEET NUMBER:** 000  
   **ACCOUNT NAME:** (Indicate the full name(s) for the above indicated account)  
   **( Husband, Wife, Relationship Name)**

2. **REGISTRATION PERIOD:**  
   **EFFECTIVE DATE:**  
   **EXPIRATION DATE:**

3. **SUPPLEMENT INFORMATION**
   (Place an X by the type(s) of Supplement(s) you are filing, and complete the necessary forms)
   **THESE SUPPLEMENT TYPES CAN BE COMBINED WITHIN A SINGLE SUPPLEMENT**
   (same vehicle cannot be involved)
   - [ ] DUPLICATE CAB CARD
   - [ ] AMEND EQUIPMENT
   - [ ] STARS ** (plate transactions IRP vehicles only)

   **TITLE/REGISTRATION FORM(S) REQUIRED**
   - [ ] IRP-S & IRP-E
   - [ ] IRP-S, IRP-W & IRP-E
   - [ ] IRP-S, IRP-W & IRP-E (surrender cab card(s))

   **THESE SUPPLEMENT TYPES CANNOT BE COMBINED WITHIN A SINGLE SUPPLEMENT**
   - [ ] ADD EQUIPMENT
   - [ ] CHANGE WEIGHT
   - [ ] TRANSFER PLATE(s) & CHANGE WEIGHT
   - [ ] TURN-IN PLATE(s)
   - [ ] ADD JURISDICTION(s)
   - [ ] CHANGE ACCOUNT NAME
   - [ ] CHANGE CARRIER TYPE
   - [ ] CHANGE COMMODITY CLASS
   - [ ] FLEET TO FLEET

   **TITLE/REGISTRATION FORM(S) REQUIRED**
   - [ ] IRP-S, IRP-W & IRP-E (surrender cab card on transfer(s))
   - [ ] IRP-S & IRP-E (must be changed for each fleet)
   - [ ] IRP-S & IRP-F
   - [ ] IRP-S, IRP-W, & IRP-E

4. **INSURANCE IS THIS A CHANGE OF INSURANCE COMPANY OR POLICY NUMBER? YES ☐ NO ☐**
   **INSURANCE CERTIFICATION:** I certify that I have Financial Responsibility as required by law for the motor vehicles operating in this fleet
   **INSURANCE CO NAME:**  
   **INSURANCE POLICY NUMBER:**  
   **SIGNATURE:**  
   **DATE:**

* **AMEND EQUIPMENT SUPPLEMENTS** involve corrections to any vehicle information captured in IRP or on Title Documents. EXAMPLES: Year, Make, Body Style, Vin, Fuel Type, Titled Owner, Branded Title Code, Tax County/Status, Equipment Number, Purchase Price, Purchase Date, Factory Price, Unladen Weight, Axles, Seats, Colorado Indicator, or Weight Group Number. You may also perform Title corrections with transfer or replace plate options from STARS Registration Menu.

** **STARS SUPPLEMENTS** involve plate transactions for vehicles associated with an IRP Fleet. EXAMPLE: Transfer, Replace, Exchange, Replace & Transfer, Exchange & Transfer, Duffle Transfer. Three types of Title transactions may be processed in the STARS Supplement along with the plate transactions. THESE ARE: Duplicate Title, Line Recording, and Duplicate Title with Line Recording.

**OFFICE USE**

**SUPPLEMENT NUMBER:**

SECTION 2. CLASSIFICATION – Check All That Apply

☐ Motor Carrier  ☐ Motor Private Carrier  ☐ Broker  ☐ Leasing Company  ☐ Freight Forwarder

SECTION 3. FEES DUE – BROKERS & LEASING COMPANIES ONLY

Note: If your company is also a motor carrier or motor private carrier, skip this section and go to section 4.

Registrants that (1) hold broker authority and are NOT motor carriers or freight forwarders, or (2) are leasing companies that do not hold ANY interstate operating authority from USDOT, submit the amount of $69 in the form of payment acceptable to your base state and go to Section 7.

SECTION 4. MOTOR CARRIERS & FREIGHT FORWARDERS – NUMBER OF VEHICLES

Check only one box: The number of vehicles below is:

Option A ☐ Taken from section 26 of your last reported MCS-150/MCSA-1 form.

Option B ☐ The total number of vehicles owned or operated for the 12-month period ending June 30, 2017.

See Instructions for additional requirements if you select Option B.

SECTION 6. FEES DUE – MOTOR CARRIER & MOTOR PRIVATE CARRIER

Using the number of vehicles in Section 4, Line 8 above, enter the Amount Due from the table in Section 5. Note: Contact your selected base state for the types of accepted payment.

SECTION 7. CERTIFICATION

I, the undersigned, under penalty for false statement, certify that the above information is true and correct and that I am authorized to execute and file this document on behalf of the applicant. (Penalty provisions subject to the laws of the registration state.)

Name Of Owner Or Authorized Representative (Printed)  Date

Signature  Title
IRP Renewal Requirements

- Actual Distance - You are required to report all actual distance accrued during the reporting period. The Reporting Period is the fiscal year prior to the renewal registration year. The Reporting Period dates will display on the top of the REN-M. You will be apportioned for all jurisdictions, no fees will be collected and these jurisdictions will display on your Apportioned License Cab Card.

- Certification of Liability Insurance - In accordance with Federal Regulations, a For-Hire or Private operation engaged in interstate or foreign commerce with a GVWR (gross vehicle weight rating) of more than 10,000 pounds and transporting non-hazardous property or passengers, the minimum liability required is $750,000.00.

- 2290 Schedule 1 - you must furnish proof of payment of the Federal Heavy Vehicle Use Tax (2290) for all qualified vehicles (vehicles licensed at 55,000 pounds or more). For information on the Federal Heavy Vehicle Use Tax, see page 95 of this manual.

- Vehicle Stops - In order to renew the vehicles in your fleet, all vehicles must be cleared of all vehicle stops such as County Tax Stop, Audit Stop, Insurance Stop, Failure to provide proof of FHVUT Paid, Correspondence Stop, etc.

- Unified Carrier Registration (UCR) - The Purpose of the Unified Carrier Registration (UCR) Act is to provide uniform national standards for registration, identification and financial responsibility for motor carriers, motor private carriers, freight forwarders, leasing companies and brokers. This applies to any motor carrier that is required to file an MCS Form 150 and obtain a U.S. DOT identification number.

- Drafts – If your North Carolina Apportioned Fee equals $400.00 or more, you may obtain a bank draft to defer partial payment. These fees will be drafted from your bank account six months from your renewal month. You must submit a voided check with your IRP Renewal Application if you desire your account to be invoiced on a draft. If you are applying for a draft for the first time or have changed banks, you must submit a letter of recommendation from your bank on the bank letterhead, describing how you conduct your banking business. Drafts must be paid even if the motor vehicles are disposed of or license plates are turned in prior to the Draft due date.
If you are going to process your IRP Renewal via the Internet, in order to utilize the bank draft, you must already have established bank draft information in our computer system.

Application Forms

UCR Unified Carrier Registration Application
REN-A Renewal Account Application
REN-F Renewal Fleet Application
REN-E Renewal Equipment List
REN-M (page 1 & 2) Renewal Mileage Schedules
REN-W Renewal Weight Application

The applications must be signed and dated by an authorized representative of the account for the application to be complete.

IRP Renewal Applications can only be processed in the Raleigh or Charlotte IRP Offices or via the Internet.

For assistance with your IRP Renewal, call the Raleigh IRP Office at (919) 615-6700 or the Charlotte IRP Office at (980) 260-2650.

For assistance processing your IRP Renewal via the Internet, call the Raleigh IRP Office only.

*Oregon: The only time trucks are allowed into Oregon without credentials is when the truck's route goes straight (no pickups or deliveries) to a Port of Entry during the Port's registration office hours.
Federal Heavy Vehicle Use Tax—According to General Statute 20-88(j), effective October 1, 1985, North Carolina must refuse to register a heavy commercial motor vehicle with a gross weight of 55,000 pounds or more until the owner presents proof of payment that the Heavy Vehicle Use Tax has been paid to the United States Treasury.

Even if the vehicle is being registered for less than 55,000 pounds in the base state, proof of payment is required if the vehicle is being registered for 55,000 pounds or more in any other state listed on the cab card.

Proof of payment is the original or a photocopy of the receipted United States Treasury Heavy Vehicle Use Tax Return Schedule 1 (Form 2290) or if not available a copy of the Form 2290 with Schedule 1 attached as filed with the United States Treasury along with a photocopy of the front and back of the cancelled check covering the payment to the United States Treasury.

Please note the following changes:
- The election to pay in installments has been repealed. The tax is due when the return is filed.
- DMV will no longer accept a receipted Schedule 1 Form 2290 in the prior owner's name.

OTHER INFORMATION PERTAINING TO APPLICATION(S)
If North Carolina is claimed as the base state, send all copies of the application for proportional registration (original and/or supplements) to:

International Registration Plan Section
N. C. Division of Motor Vehicles
1425 Rock Quarry Rd. Suite 100
Raleigh, North Carolina 27610
(919) 615-6700

or

International Registration Plan Unit
N. C. Division of Motor Vehicles
6016 Brookshire Blvd.
Charlotte, North Carolina 28216
(980) 260-2650

North Carolina will compute fees due and bill applicants for North Carolina and all other member jurisdictions. **DO NOT SEND FEE PAYMENT UNTIL A BILLING NOTICE IS RECEIVED.**

LICENSE PLATE AGENCY FUNCTIONS
Supplement applications for IRP registration can be processed by License Plate Agency personnel throughout the state.

The transactions that may be processed are:

- Add Equipment
- Replacement Plate
- Lien Recording
- Amend Equipment*
- Change Insurance*
- Duplicate Cab Card(s)
- Duplicate Title
- Duplicate Title with Lien Recording
- Turn in Plate

*Amend Equipment supplement involves corrections to any vehicle information captured in IRP or on title documents. For example, year, make, body style, vehicle information, fuel type, titled owner, branded title code, tax county/situs, equipment number, purchase price, purchase date, factory price, unladen weight, axles, seats, Colorado indicator or weight group number.

Double transfers and title corrections for IRP vehicles must be processed in Amend Equipment supplement.

*Change insurance supplement changes the liability insurance certification on a fleet. If the carrier is FHE, or FHR, a new Form E must be provided. If the carrier is COM or CON, a new Form BMC-91 or 91X must be provided for the authority holders Motor Carrier account to be corrected if based in North Carolina. A FHL carrier cannot change insurance unless they are providing their own liability, which requires a Form E.

NOTE: BRANCH OFFICES CANNOT PROCESS RENEWALS, NEW ACCOUNTS OR CREATE NEW FLEETS FOR AN EXISTING ACCOUNT.
REGISTRATION OF OWNER-OPERATOR VEHICLES
Proportional registration for owner-operators who lease their vehicles to motor carriers of passengers or property may be accomplished in one of the following procedures:

1. The owner-operator (lessor) may be the registrant and the vehicle may be registered in the name of the owner-operator. The allocation of fees shall be according to the operational records of the owner-operator. The identification plate and cab card shall be the property of the lessor; or

2. The lessee may be the registrant at the option of the lessor and the vehicle may be registered by the carrier, but in both the owner-operator’s name and that of the carrier as lessee, with the allocation of fees according to the records of the carrier.

Proportional registration for owner-operators electing to register their vehicles under 1 above shall be accomplished in accordance with the procedures outlined under General Information for Apportioned Registration.

Proportional registration for owner-operators electing to register their vehicles under 2 above shall be accomplished as follows:

(a) Form - MVR-330, application for a registration plate or the transfer of a registration plate furnished by the North Carolina Division of Motor Vehicles, must be completed for each vehicle and signed by both the lessee and the lessor as required. In the event the vehicle is titled in a jurisdiction other than North Carolina, it is necessary that a copy of the title or a copy of current or the prior year’s registration card reflecting title number, be attached to the completed form.

(b) The lessee shall be the registrant and the vehicle or vehicles shall be registered by the carrier, but in both the carrier’s name as lessee and the owner’s name as lessor.

(c) Apportionment of fees will be based on the registrant’s distance records. Actual individual vehicle distance traveled by the vehicle or vehicles shall be accrued and accounted for by the registrant the same as if he owned the vehicle or vehicles.

(d) The apportioned credentials (license plate and cab card) shall be the property of the lessee. In the event the lease is terminated the registrant will file a supplemental application consistent with the same procedures as if they owned the vehicle or vehicles.

SPECIAL TEMPORARY REGISTRATION (UNLADEN WEIGHT) PERMIT
Each member jurisdiction shall provide a means of temporary registration for owner-operators not operating as a lessor. Such registration shall be a restricted plate or permit issued for a minimum fee and for a registered gross weight not in excess of the empty weight of the vehicle.

Upon receipt of completed form MVR-39—North Carolina Division of Motor Vehicles application for a 10-day temporary registration permit, and accompanying fee of five dollars ($5.00), a 10-day temporary registration permit will be issued.

REGISTRATION FOR HOUSEHOLD GOODS CARRIERS
Household Goods Carriers using equipment leased from service representatives may elect to register the equipment in the base jurisdiction of the service representative, or that of the carrier.

If the base jurisdiction of the service representative is elected, the equipment will be registered in the service representative’s name and that of the carrier as lessee. The apportionment of fees will be according to the combined distance records of the service representative and those of the carrier. Records must be kept or made available in the service representative’s base jurisdiction.

If the election is the base jurisdiction of the carrier, and the jurisdiction is a member jurisdiction, the equipment will be registered by and in the name of the carrier and that of the service representative as lessor. The apportionment of fees shall be according to the distance records of the carrier and the service representative which must include intrastate miles operated by the applicable vehicles. The records must be kept or made available in the base jurisdiction of the carrier. Service representatives properly registered under this election will be fully registered for operations under their own authority as well as under the authority of the carrier.
Many service representatives (household movers) operate under their own regulated authority as well as acting as a service representative or an agent for one of the National Household Goods Carriers.

In North Carolina, a service representative may, provided he has his own operating authority, file an apportionment application in his own name and operate the apportioned vehicles regardless if acting as an agent for one of the National Household Goods Carriers. The service representative (applicant) may also trip lease any apportioned vehicles to a household goods carrier. Apportionment of fees would be based on the combined individual vehicle distance records of the service representative’s operation and those while trip leased to the household goods carrier (while operating intrastate and/or interstate) and the records shall be kept and made available for audit in the base jurisdiction of the service representative.

REGISTRATION OF RENTAL VEHICLES
Registration requirements and procedures vary depending upon the type rental vehicles involved. The following definitions are applicable:

**Rental Owner**—an owner principally engaged, with respect to one or more rental fleets, in renting to others or offering for rental the vehicles of such fleets, with or without drivers.

**Rental Fleet**—one or more vehicles that are rented or offered for rental with or without drivers, and which are designated by a rental owner as a rental fleet.

**Rental Vehicle**—a vehicle of a rental fleet.

**Renting and Leasing**—the giving of possession and control of a vehicle for valuable consideration for a specified period of time.

**A Rental Transaction**—for the rental of a vehicle shall be deemed to occur in the jurisdiction where such vehicle first comes into possession of the user.

**Rental Vehicle: Base Jurisdiction**—The jurisdiction from or in which the vehicle is most frequently dispatched, garaged, serviced, maintained, operated or otherwise controlled.

Rental fleets owned by any person or firm engaging in the business of renting such vehicles shall be extended full interstate and intrastate privileges, provided:

1. Such vehicles are part of a rental fleet which are identifiable as being a part of the fleet; and
2. Such person or firm has received approval from the jurisdiction to apportion or allocate the rental fleet; and
3. Such person or firm registers and licenses the vehicles in accordance with the following instructions and any other applicable registration requirements and laws.

**Fleets of tractors, single trucks, (excluding one-way trucks) trailers (not in separate pool fleets and used in normal tractor trailer operation) based in North Carolina**—Rental owners engaged in the business of renting or leasing such fleets of apportionable vehicles without drivers for use or intended for use in two or more member jurisdictions must apply for proportional registration in accordance with the same procedures required of registrants of other fleets of apportionable vehicles.

**FLEETS OF ALLOCATED RENTAL VEHICLES**—Trailers (Pool Fleets), and One-Way Trucks.

Example for figuring number of vehicles to be licensed for Trailers, (Pool Fleets), and One-Way Trucks:

   Gross revenue earned in 1998 all jurisdictions - $61,873,291.
   \$4,325,987 \div \$61,873,291 = 6.992\%
2. Total vehicles owned/operated first day of 1998= 80,396 X 6.992% = 5,621 vehicles to be licensed in NC.

**ALLOCATED RENTAL VEHICLE**—a vehicle to which a particular jurisdiction’s license plate is attached based upon payment of that jurisdiction’s full license fee.

Rental owners engaged in the business of renting or leasing fleets of such vehicles in North Carolina and any other jurisdictions (International Registration Plan member jurisdiction or Non-international Registration Plan jurisdiction) are required to file with the North Carolina Division of Motor Vehicles,
the appropriate application. Applicants desiring to license fleets of vehicles shall, prior to the end of the appropriate annual license renewal period, make application and on required forms the Commissioner shall furnish.

**TRAILERS (POOL FLEETS)**—File Form IRPTA-19—North Carolina Registration Application-Trailers (Pool Fleets) allocation.

The minimum number of trailers and/or semi-trailers over 6,000 pounds gross vehicle weight and used solely in pool fleets, to be licensed in North Carolina during the appropriate annual license renewal period of each registration or license year shall be determined as follows:

1. Divide the gross revenue earned in the preceding accounting year for the use of vehicles arising from rental transactions occurring in North Carolina by the total gross revenue earned in the preceding accounting year for the use of the vehicles arising from rental transactions occurring in all jurisdictions where the vehicles are rented.
2. Multiply the resulting North Carolina percent times the total number of vehicles owned or operated as of the first day of the registration or license year. The resulting figure shall be the minimum number of vehicles that must be licensed in North Carolina.

When equipment is added to the fleet after the original application is filed for any registration or license year, the same percent used at the beginning of the registration or license year shall be used to determine the number of additional vehicles subject to registration and license in North Carolina.

**ONE-WAY TRUCKS**—File Application Form IRPTA-21—North Carolina Registration Application—One-Way Truck Allocation.

North Carolina requires one-way trucks of less than 26,000 pounds gross vehicle weight operated as part of an identifiable one-way and local fleet, to be licensed by class of vehicle depending on gross vehicle weights. All vehicles in each class shall be licensed in North Carolina for the same gross vehicle weights. A separate application is required to allocate and license each class.

The minimum number of such trucks in each class to be full fee licensed in North Carolina during the appropriate annual license renewal period of each registration or license year shall be determined as follows:

1. For each class of vehicles divide the North Carolina distance by the total distance traveled (all jurisdictions) during the preceding year.
2. Multiply the resulting North Carolina percent times the total number of vehicles in the particular class owned or operated on the first day of the registration or license year. The resulting figure shall be the minimum number of such vehicles that must be full fee licensed in North Carolina.

When equipment is added to the fleet after the original application is filed for any registration or license year, the same percentage used at the beginning of the registration or license year shall be used to determine the number of additional vehicles subject to registration and license in North Carolina.

**NOTE:** Anyone needing additional information regarding the application forms and licensing procedures for fleets of allocated rental vehicles should contact the North Carolina Division of Motor Vehicles—International Registration Plan Section—Telephone (919) 861-3720.
REGISTRATION OF BUSES BY COMMON CARRIERS

The apportionment of bus registration fees shall be based on the relationship of base jurisdiction distance versus total distance operated and shall be accomplished in the following manner:

1. The registrant shall file an application for apportionment with the base jurisdiction listing buses assigned in pools.

2. At the option of the registrant, total distance may be the sum of all actual in-jurisdiction distance or a sum equal to the scheduled route distance per jurisdiction from the farthest point of origination to the farthest point of destination of the scheduled pool.

3. After determining the total distance by either of the aforementioned methods, in-jurisdiction distance percent factors shall be derived by dividing the total distance into the in-jurisdiction distance.

4. Distance generated outside the designated pool are deemed to be reciprocity distance and the base jurisdiction may add such distance to the base jurisdiction’s distance total.

TRIP LEASING

The lessee except as provided for service representatives (refer to Registration for Household Goods Carriers) is responsible for the registration of the vehicle or vehicles. Registrant may trip lease equipment to another apportioned or non-apportioned carrier. (The registrant/applicant shall be responsible for reporting all distance traveled by power units listed on the apportioned application.)

Any trip leased apportionable vehicle operated into or through a member jurisdiction must be apportioned with that jurisdiction or a trip permit will be required.

Motor Fuel Tax Division Requirements

In addition to apportioned license fees due North Carolina, you must obtain IFTA Decals or Fuel Stickers from the North Carolina Department of Revenue, Motor Fuel Tax Division, 1429 Rock Quarry Rd., Suite 105, Raleigh, N.C. 27610. You should apply for Motor Fuel Cab Cards and Fuel Stickers on Form GAS 1274. The applications may be obtained from the Motor Fuels Tax Division or weigh stations.

The International Fuel Tax Agreement (IFTA) is now available on the Internet. Services available via the Internet allow you to (1) file quarterly IFTA returns and (2) order decals. These services are available at: www.dor.state.nc.us. When you access the web site, go to Electronic Services and go down to Electronic Filing and then Business Taxes. Click on Motor Fuels IFTA.
PAYMENT OF FEES
North Carolina registrants may be permitted, in accordance with certain provisions of the North Carolina Motor Vehicle Laws, to execute a draft for one half of their North Carolina (ONLY) license fees. This applies:

Should the gross amount of North Carolina’s apportioned license to any one owner (registrant) amount to more than four hundred dollars ($400.00 (G.S. 20-94)

Half of this payment will be due 6 months from your renewal month. A draft on a bank or trust company, is required in an amount equal to one half of the North Carolina license fee plus a carrying charge of three percent. Forms will be provided by the Division. **Drafts must be paid even if motor vehicles or license plates are disposed of prior to the Draft due date.** A ten percent penalty attaches by law to drafts returned unpaid by the bank.

If a draft is desired, the request along with a copy of a voided check reflecting the bank’s and registrant’s account numbers should be attached to the original application.

If a draft has never been executed or if there has been a change of banks, a letter of recommendation from the bank on which draft is to be drawn must accompany the application. Also furnish a copy of a voided check reflecting the bank’s and registrant’s account numbers.

Registrants approved to purchase apportioned license may be permitted to execute a draft through the last working day of the fifth month after their renewal month. All drafts will be due 6 months from the renewal month.

Registrants shall be required to execute separate drafts for North Carolina apportioned fees and non-apportioned fees.

A billing notice will be mailed to the registrant’s mailing address as shown on the application. This notice will set forth the amount of **all registration fees** due North Carolina and the amount of **apportioned registration fees** due each other member jurisdiction. **PAYMENTS SHOULD REFLECT THE APPORTIONED ACCOUNT NUMBER AND MAILED TO THE SAME OFFICE WITH WHICH THE APPLICATION WAS FILED.**

**Under no circumstances will checks be accepted with the statement “Void after” a certain length of time.**

The North Carolina Division of Motor Vehicles will forward payments to the other member jurisdictions and issue an apportioned license plate and cab card to each vehicle in the fleet.

**NOTE:** The base jurisdiction will cooperate with other member jurisdictions in connection with applications and payment of fees to the extent that all base plates, cab cards and reciprocal exemptions are subject to cancellation and revocation in the event of erroneous issuance; or if any registration, apportioned and/or other fees remain unpaid.
REFUNDS—NORTH CAROLINA APPLICANTS

Refunds of North Carolina apportioned license fees due North Carolina registrants will be made under the following circumstances:

1. **Surrender of license plate(s) (North Carolina General Statute 20-64 (f))**
   “The owner or transferor of a registered vehicle who surrenders the registration plate to the Division may secure a refund for the unexpired portion of such plate prorated on a monthly basis, beginning the first day of the month following surrender of the plate to the Division, provided the annual fee of such surrendered plate is sixty dollars ($60.00) or more. This refund may not exceed one-half of the annual North Carolina license fee. **NO REFUND SHALL BE MADE UNLESS THE OWNER OR TRANSFEROR FURNISHES PROOF OF FINANCIAL RESPONSIBILITY ON THE REGISTERED VEHICLE EFFECTIVE UNTIL THE DATE OF THE SURRENDER OF THE PLATE.**”

2. If billing error was made by the Division.

3. If there is a duplication of vehicles apportioned and fees paid twice.

4. If applicant purchases full fee plate(s) when apportioned registration is required, partial credit may be applied toward North Carolina apportioned fees.

5. If an audit of an apportioned carrier indicates an overpayment.

**NOTES:**

1. No refund, resulting from an audit, will be made in any amount less than ten dollars ($10.00)

2. No refund will be made for apportioned plates turned in prior to payment of any outstanding draft.

3. Refunds on unused apportioned license will be based on N. C. percentage only.

4. Refunds will be pro-rated monthly.

5. **North Carolina will not accept applications for refunds of apportioned registration fees for other jurisdictions.** Applications for refund from other jurisdictions must be handled directly between applicant and the other jurisdictions in accordance with their statutes. It is possible that some of the other jurisdictions may not issue refunds or the minimal amount that they may refund varies from jurisdiction to jurisdiction. **It is your responsibility as the applicant to contact each jurisdiction regarding refunds.**

</table>
Audits, Assessments and Penalties

It is mandatory for registrants licensed under the International Registration Plan to maintain an adequate distance accounting system. At a minimum, such a system must include: 1) distance data for each individual vehicle; 2) monthly distance summaries by jurisdiction and total for each vehicle; 3) monthly compilation of distance for the apportioned fleet by state and total for the period July 1 through June 30; and 4) a summary of the quarterly recaps used in preparing the application for apportionment.

The base jurisdiction shall audit their registrants displaying the base jurisdiction’s base plate. Audits shall be conducted on a registration year and fleet basis. An audit shall verify the authenticity of the registrant’s reported distance derived from operational records and registrations. The base jurisdiction must perform audits equivalent to at least an average of 3% of the number of IRP fleets renewed annually as required to be reported on the Annual Report pursuant to the Audit Procedures Manual, Section 800, Audit Completion and Audit Reporting Procedures. The interval between jurisdictional peer reviews constitutes the period for establishing the 3% average.

The examination of one fleet for one registration year constitutes one audit. A registrant may be audited more than once during the interval between peer reviews. Effective July 1, 2004 IRP audits will be conducted by the Department of Revenue, Motor Fuels Tax Division.

An audit may also be conducted by other jurisdictions.

All registrants are required to preserve the records on which the registrant’s application is based for a period of three years after the close of the registration year. The registrant shall be required to make the records available to the base jurisdiction for audit as to the accuracy of computation, payment and assessments for deficiencies or allowances for credits, during the normal business hours of the day.

If a registrant fails to maintain records, or after 30 days from receiving written notice, fails to make records available to the member jurisdiction, the member jurisdiction may impose an assessment. The assessment must be based on the member jurisdictions’ estimate of true liability established from:

1. Information the registrant furnished;
2. Information the member jurisdiction gathered;
3. Information relative to other similar registrants based in the jurisdiction; or
4. Any other information available to the member jurisdiction.

If it is determined during an audit that:

1. A registrant failed or refused to make acceptable records available for audit as provided by law; or
2. A registrant misrepresented, falsified or concealed his records.
All plates and cab cards will be deemed to have been issued erroneously and are subject to cancellation. The base jurisdiction may assess the registrant for an additional percentage up to one hundred percent (100%) of NC registration fees at the rate prescribed for that registration year, adding the five percent (5%) penalty referred to above. Any apportioned vehicle that fails to operate in more than one jurisdiction will be subject to an assessment equal to 100% of the registration fees at the rate prescribed for that year in the jurisdiction where the vehicle solely had actual operations, if use or intended use in two or more jurisdictions cannot be substantiated. The base jurisdiction may cancel all registration and reciprocal privileges.

Upon the completion of an audit of a registrant, a notice of any assessments will be sent to the registrant along with a copy of the audit findings by registered or certified mail at the address of the registrant as it appears in the records of the NC Division of Motor Vehicles in Raleigh. The notice, when sent in accordance with the requirements indicated above, will be sufficient regardless of whether or not it was ever received.

The audit findings shall include a determination of any fees owed by the registrant, net of any fees owed to the registrant. NC IRP Department of Transportation, Motor Vehicles Section shall collect all net underpayment amounts from the registrant and/or refund all net overpayment amounts to the registrant as a result of the audit, pursuant to NC laws and procedures.

The failure of any registrant to pay any additional registration fees or tax within thirty (30) days after the billing date will constitute cause for revocation of registration privileges, license plates, cab cards and reciprocal privileges. **All fees due as a result of an audit must be paid before an appeal to an audit will be addressed.**

Registrants shall have thirty (30) days from the assessment notice date of an audit or reexamination to file a written appeal of the audit or reexamination. Appeals shall be resolved under the administrative and appellate procedures of the base jurisdiction. Once these procedures have been exhausted, it may be submitted to the IRP Inc., Dispute Resolution Committee.

A copy of each audit shall be provided to all member jurisdictions in which the registrant was apportioned or in which it accrued distance. A jurisdiction shall have forty-five (45) days from the date it is notified of the audit findings to notify NC IRP and the registrant in writing of any error in the findings and of its intent to conduct a reexamination of the records of the registrant. The expenses of a reexamination shall be borne by the jurisdiction(s) performing the reexamination.

If apportioned fleet distance records selected for audit are not located in NC and it becomes necessary for auditors to travel outside NC to the place where the records are kept, the registrant will reimburse NC for per diem and travel expenses incurred by the auditors in connection with conducting the audit.

**Acceptable Distance Records**

Distance operated is to be recorded on a source document (individual vehicle distance record) with the following information:

1. date of trip (beginning and ending)
2. trip origin and destination
3. routes (highway numbers) traveled
4. odometer or hub odometer readings recorded at the beginning and ending of each trip, and when a state line is crossed;
5. total trip distance traveled
6. distance traveled by jurisdiction
7. unit number or vehicle identification number of power unit
8. fleet number  
9. registrant’s name  
10. trailer number  
11. driver’s signature or name

The information recorded on the Individual Vehicle Distance Record (IVDR) must be accurate and readable. The distance figures to be entered on IVDR's can be obtained from various sources such as odometer and/or hub odometer readings, state maps, standard distance guides or a household goods distance guide, as long as the method used is accurate and consistent. Registrants should accumulate IVDR's and prepare monthly recaps from which they can prepare their quarterly and yearly recaps. It must be stressed that distance figures supported by IVDR's can be used in numerous areas where a registrant is required to file some type of distance report, such as for fuel usage, third structure taxes, etc.

**Examples of acceptable source documents (Individual Vehicle Distance Records):**

1. driver’s trip sheets or reports  
2. driver’s logs  
3. receiving contracts  
4. other records of vehicle movement from which distance per vehicle per jurisdiction can be determined

**Important:** Computer printouts are not acceptable as the only source of distance; they must be backed up by Individual Vehicle Distance Records.

All necessary information need not be contained in a single source document; however, the Individual Vehicle Distance Report must be maintained so that the continuous movement of each apportioned vehicle can be audited. Source documents (IVDR's) used to produce distance summaries should be filed in chronological order by vehicle unit number. Registrants must maintain a record (in sufficient detail) from which time lapses in vehicle movement can be explained. **It is recommended that odometer and/or hub odometer readings be recorded monthly for each and every apportioned vehicle-including inactive as well as active vehicles.** This will indicate that all distance is properly accounted for and recorded.

In recording the actual distance of an apportioned vehicle, the registrant must record all movement (interstate and intrastate) including loaded, empty, deadhead and/or bobtail distance. Distance operated under trip permits and under trip lease must be included.

It should be stressed that the method of distance accountability should be consistent and that predetermined distance schedules must be supported by route (highway numbers) used to establish distance. If trip distance recorded as traveled in the various jurisdictions is disputed, official state maps, shall be the final authority unless proven otherwise by an approved method of calibration.

An IVDR, which if properly prepared, will satisfy the requirements of the IRP relevant to source documents. The beginning odometer/hub odometer reading on this or any other IVDR should be the same as the ending reading for the preceding trip. When an apportioned vehicle is inactive, the odometer/ hub odometer reading should be recorded at the end of each month with an explanation of the inactivity (accident report for wreck or in for repairs).

Registrants operating more than one apportioned fleet must prepare and maintain separate monthly summaries and yearly recaps for each fleet.
GENERAL INFORMATION

The IFTAIRP-25 form shown here is a classic example of an acceptable source document (Individual Vehicle Distance Record) that satisfies IRP compliance requirements. An Individual Vehicle Distance Record must account for all distance traveled. If you use a substitute vehicle, prepare a separate Individual Vehicle Distance Record to account for the distance traveled by the substitute vehicle.

INSTRUCTIONS:

1. Legal name of the IFTA/IRP registrant
2. IFTA account number
3. Fuel decal number
4. IRP account number
5. Fleet number
6. Truck number or unit number of power unit

TRIP INFORMATION:

7. Date trip began at origin
8. Date trip ended at destination
9. Origin -where trip started
10. Destination -where trip ended
11. Trailer identification number or assigned company number (in states where applicable)
12. Trip permit number -permit number
13. Driver’s Name/Signature -names of all drivers during trip

DISTANCE INFORMATION:

14. Trip Date -date of each trip
15. Jurisdiction Name -abbreviation of the jurisdiction in which your vehicle is traveling
16. Routes Traveled/Highway Numbers -record the major routes, highways or interstates traveled in each state
17. Odometer or “Hub” Readings -record at the beginning of each day or trip
18. Odometer or “Hub” Readings -record at the end of each trip
19. Odometer or “Hub” Readings -record when leaving each jurisdiction (at state line crossings)
20. Total distance per state -record the distance traveled in each state by trip date
21. Dispatch/Trip Cities -record the city of each delivery
22. Invoice Number -record the fuel invoice number
23. Vendor Name -record the name of the fuel invoice vendor
24. Fuels/Gallons -record fuel received per jurisdiction
25. Toll Distance -record the distance traveled on toll roads
26. Empty- record the distance traveled without a load; deadhead
27. Total Trip Distance -record total trip distance
An apportioned fleet operator may trip lease apportioned equipment to another apportioned fleet operator or to a non-apportioned fleet operator; however, the registrant/lessor shall maintain adequate distance records in support of lease operations. The registrant/lessor shall be responsible for reporting on the apportioned application the distance traveled by his apportioned equipment while trip leased to others. An apportioned fleet operator should not report distance traveled by equipment trip leased from others.

Fleet distance shall mean the distance generated by motor vehicle power units which were part of the apportioned fleet during the period July 1 through June 30 preceding the year for which registration is sought. The distance to be reported for any motor vehicle power unit which was added to or deleted from the apportioned fleet during the distance reporting period shall be only those distance generated by the vehicle while it was part of the apportioned fleet during the distance reporting period. Distance shall include loaded and empty (deadhead and/or bobtail) distance traveled intrastate and interstate.

NOTE: The distance of a vehicle added by the original IRP-E Apportioned Equipment application would start accruing to the declared fleet as of the actual date of proportional registration. For vehicles being reapportioned in the same fleet, distance accrual would be continuous.

The distance of a vehicle added by supplemental application for original apportionment after the original IRP-E Apportioned Equipment application is filed would start accruing to the declared fleet as of the actual date of the proportional registration.

In instances where a vehicle or vehicles are added by supplemental application, during NC's renewal period, for reapportionment in the same fleet after the original IRP-E Apportioned Equipment application is filed, distance accrual would be continuous.

The distance of a vehicle deleted by supplemental application would not be further accrued to the respective fleet from which deleted as of the actual date of acceptable evidence of removal.

The distance of a vehicle deleted from a fleet at the end of the registration year and full fee registered during NC's renewal period for the next registration year, would not be further accrued to the respective fleet as of the actual date full fee registration license are purchased. For vehicles deleted from a fleet at the end of the registration year and not full fee registered during NC's renewal period, distance would accrue to the respective fleet through the last day of NC's renewal period.

All registrants are liable for the proper maintenance of their operational distance and equipment/registration records so as to avoid the possibility of cancellation of registration privileges or further assessments.

Equipment/registration records shall include, but are not limited to, a vehicle or equipment listing of all NC apportioned equipment owned or operated, copies of IRP-M2 distance schedule, original IRP-E Apportioned Equipment application, all supplements filed, receipts received for any apportioned license turned in, (Form FS-20) and registrant copy-2 of apportioned registration cab card issued for each apportioned power unit.

In cases where registrant leases equipment from others and elects to license the leased equipment in his name as lessee, the registrant shall maintain, in addition to all information required for his own equipment, the lease dates (beginning and ending) for each leased vehicle.

**Trailers (Pool Fleets) - Maintain Form IRPTA-19 NC Registration Application - Trailers (Pool Fleets) Allocation**

Registrants engaged in the business of renting or leasing trailers and/or semi-trailers over 6,000 pounds gross weight and used solely in pool fleets in more than one jurisdiction shall prepare and maintain monthly and yearly records which will reflect gross revenue earned in each jurisdiction.
where such trailers and/or semi-trailers are rented. The monthly summaries supported by rental
settlement contracts. The yearly earnings shall be support by company financial statements and/or
copies of income tax returns (in-jurisdiction and/or federal).

Registrants engaged in the business of renting or leasing this type rental vehicle shall prepare and
maintain monthly inventories of vehicles owned or operated. These inventories shall be taken on, or as
near as possible, the first day of each month. These monthly inventories shall be supported by the actual
inventory reports.

A listing of license numbers purchased and/or renewed each month in NC must be prepared and
maintained. Using that monthly listing and the monthly inventories, the worksheet on the reverse side
of Application Form TA-19 must be maintained. Upon request, during or after the close of any
registration or license year, a copy of the worksheet form TA-19 must be furnished to the NC Division of
Motor Vehicles, International Registration Plan Section

**One-Way Trucks – Maintain Form IRPTA-21-NC Registration Application-One-Way Truck Allocation**

Registrants of one-way trucks licensed for a gross vehicle weight of less than 26,000 pounds identified
as one-way and local vehicles usually operate such vehicles by class depending on the gross vehicle
weights. All vehicles in each class shall be licensed for the same weight.

Registrants engaged in the business of renting or leasing this type rental vehicle in more than one juris-
diction must prepare and maintain monthly summaries and yearly recap of individual vehicle distance
operated during the preceding year by each class of vehicles in each jurisdiction and total of all juris-
dictions. The monthly distance summaries must be supported by source documents such as, but not
limited to, receiving or rental contracts from which distance by jurisdiction has been determined and
may be verified. The preceding year means the period of twelve consecutive months immediately prior
to July 1st proceeding the year for which registration is sought. There is no reciprocity distance taken
here by NC.

Registrants must prepare and maintain monthly inventories of vehicles owned or operated in each class.
These inventories must be taken on the first day of each month. These inventories must be sup-
ported by the actual inventory reports for each class.

A listing for each license number purchased each month from NC must be prepared and maintained.
Using that monthly listing and the monthly inventories, the worksheet on the reverse side of Application
Form IRPTA-21 must be maintained. Upon request, during or after the close of any registration or license
year, a copy of the worksheet form IRPTA-21 must be furnished to the NC Division of Motor Vehicles,
International Registration Plan Section.

QUESTIONS MOTOR CARRIERS MAY HAVE ABOUT THE INTERNATIONAL REGISTRATION PLAN

1. Q. How will participation in the International Registration Plan help my trucking operation?
   A. Reciprocity agreements historically have restricted your operations in other states to interstate commerce leaving you with the burden of purchasing a full fee plate in each state in which your vehicle(s) must conduct intrastate operations. Under the Plan your apportioned vehicles may conduct both interstate and intrastate operations. The Plan does not however, prevent the need to register with other state agencies (such as the Fuel Tax Division) or to have appropriate intrastate authority from each state’s regulatory commission to conduct intrastate for-hire operations.

2. Q. Will participation cost my company more money?
   A. If your interstate operations have been conducted in the past under pure reciprocity agreements, the answer will depend on the relationship of your base state’s fees to those of other International Registration Plan states in which you conduct operations. If your base state has a low fee structure and the other states have a relatively higher fee structure, International Registration Plan participation will result in higher registration costs. North Carolina does have a low fee; thus, for those vehicles base plated in North Carolina the International Registration Plan could cost you a little more money.

3. Q. Will International Registration Plan participation reduce the documents that must be carried in each vehicle?
   A. As compared to those vehicles formerly operating under reciprocity agreements the answers no, but The International Registration Plan will not increase the number of documents either.

4. Q. When a state joins The International Registration Plan, does the Plan supersede the former agreement(s)?
   A. The International Registration Plan supersedes all former agreements on any of the matters covered by this agreement, but those former agreements are not disturbed by The International Registration Plan as they relate to vehicles not subject to apportioned registration or as they relate to border agreements. The International Registration Plan further does not affect in any way agreements between International Registration Plan member jurisdictions and non-member jurisdictions.

5. Q. Does an apportioned license plate authorize my operations in all International Registration Plan jurisdictions?
   A. Both interstate and intrastate operations are authorized in those states identified on your International Registration Plan cab cards. Operations in other member jurisdictions may be conducted only under trip permits and in Arizona, Iowa, Nebraska and North Dakota operations under trip permits are limited to interstate operations through exceptions to the Plan taken by those states. You must qualify your vehicles under the various fuel use reporting laws, regulatory laws, etc.

6. Q. What is the minimum number of vehicles that may be apportioned in a fleet?
   A. The Plan defines fleet as one or more apportionable vehicles, allowing for single-vehicle fleet apportionment.

7. Q. Must all my vehicles be apportioned as a single fleet?
   A. No. You may register your vehicles either as a single fleet or in several fleets to meet the nature of your operation(s) except that vehicles must be based for registration purposes (1) where you have an established place of business, (2) where distance is accrued and (3) where records are kept or can be made available for audit. Registrants having declared more than one fleet may drop any one of the declared fleets at the end of any registration year and include the vehicles of the deleted fleet in the other existing declared fleets for apportionment. Registrants having declared, for example, fleets 1, 2 and 3 may not drop fleet 3 and declare fleet 4 for apportionment in any of the jurisdictions with which fleet 3 was apportioned. However, rental and or leasing companies would not be subject to the above rule when declaring individual fleets for each lessee.
8. Q. How do I treat apportionable vehicles in my fleet that are not apportioned?
A. These vehicles should be full fee plated in their base state and will, if taken on an interstate trip into or through another member jurisdiction, be subject to the trip permit provisions of the Plan.

9. Q. How are special-purpose registered vehicles such as farm vehicles treated under International Registration Plan?
A. Under the provisions of the Plan, restricted plate vehicles such as those restricted in the commodities they can transport or in the area they may serve are not apportionable vehicles and are treated under other agreements between jurisdictions.

10. Q. Are registration fees for trailers and semitrailers as well as power units under the International Registration Plan apportioned?
A. There no longer exists any jurisdictional (state) requirements for Apportioned Trailer License Plates. The only requirement is that a trailer must have a valid license plate. If you currently have a Permanent Apportioned Trailer License Plate, you may renew that plate as a part of your IRP fleet for a cost of $25.00 with no additional jurisdictional fees due. If you are establishing a new account/fleet, you may elect to purchase Permanent Apportioned Trailer License Plates and maintain your trailers as part of your IRP fleet.

11. Q. Must I register my equipment in all member states at the same gross vehicle weight?
A. No. Your gross weight as shown on both your application and cab card may vary from state to state. Enforcement personnel, however, may issue a citation to your vehicle if found operating in any member state at a weight exceeding that for which it is registered in that state. N.C. may require supporting documentation for any vehicle if the highest and lowest weights requested for jurisdictions registering by gross vehicle weight vary by ten (10) percent or more and may reject or deny registration for those vehicles if the variance does not reflect actual operating practice.

12. Q. Are there any special problems in the plan that might be encountered in securing overweight and/or over dimensional special permits?
A. No, except that most states require a unit to be registered for the maximum allowable weight before issuing a special permit. Overweight and/or over dimensional permits for North Carolina may be secured by calling (919) 814-3700.

13. Q. On the occasion of my first apportioned registration under the Plan, what distance figures should I use if I have little or no data?
A. When establishing an apportioned account for the first time, estimated distance is used. This estimated distance is based on actual distance of travel and actual vehicles licensed for travel in a particular jurisdiction (state). If you are only going to operate from one specific location within a state to another specific location within the same state, with no variations in travel, you may use your own distance estimates but you must document all information from Point A to Point B.

14. Q. If I anticipate operating in a state during the next registration year that I do not enter in the current year, how can I get these states into my application and on my cab card?
A. Under Full Reciprocity Plan all states and provinces will be on your cab card.

15. Q. How do I add or delete vehicles or transfer license in my fleet during a registration year?
A. These changes are accomplished by submitting supplemental applications.

16. Q. Is there a procedure for my changing the registered gross weights for my vehicles during the registration year?
A. Yes. You must file a complete supplemental application and pay additional fees where the gross weight is to be increased.

17. Q. Must I complete all the columnar information requested on the application forms?
A. Yes. In completing all the information you will reduce the possibility of having your application returned under the provisions of a policy adopted by the International Registration Plan administrators in 1977 recognizing that the registration laws in different states are based upon different factors.
18. **Q. How do I add or delete vehicles or transfer license in my fleet during a registration year?**
   A. These changes are accomplished by submitting supplemental applications.

19. **Q. Is there a procedure for my changing the registered gross weights for my vehicles during the registration year?**
   A. Yes. You must file a complete supplemental application and pay additional fees where the gross weight is to be increased.

20. **Q. Must I complete all the columnar information requested on the application forms?**
    A. Yes. In completing all the information you will reduce the possibility of having your application returned under the provisions of a policy adopted by the International Registration Plan administrators in 1977 recognizing that the registration laws in different states are based upon different factors.

21. **Q. Can I renew my apportioned vehicles via the Internet?**
    A. Yes, for instructions, see page 71 of this manual (Internet Renewal Applications) to view the requirements and instructions for renewing online.

22. **Q. What are the requirements for a certified on-board recording device?**
    A. An on-board recording device may be used in lieu of or in addition to handwritten trip reports and must meet the minimum device data collection and capability to produce reports requirements of the International Registration Plan. An IRP auditor can help evaluate a recording device to ensure its effectiveness and accuracy.
