The North Carolina Department of Transportation (NCDOT) will hold the above Public Meeting on October 23, 2012, from 5:30-7:30 p.m. at the Savannah Volunteer Fire Department located at 18 Ralph Tatham Road, Sylva, NC 28779.

Maps denoting the proposed project will be displayed. Comments and information received will be taken into consideration as work on this proposed project progresses. Citizens may drop in anytime during the meeting hours. There will not be a formal presentation.

This project proposes to replace Bridge Number 207 on East Fork Road (State Road 1313) at its crossing of East Fork Savannah Creek with a two-lane bridge. The proposed design replaces the existing bridge with a new bridge in the same general location as the existing bridge. Traffic will be maintained during construction by using a temporary detour bridge located east of the existing bridge.
