- HISTORIC PROPERTY
- WETLAND LIMITS BOUNDARY
- JURISDICTIONAL STREAM LINES
- PROPOSED STRUCTURES

NAD 83

NOTE:
All new location sections will be designed with Limited Control of Access.

Limited Control of Access is defined as connections to a facility provided only via ramps at interchanges (major crossings) or via public roads (minor crossings or service roads). No private driveway connections will be allowed.

NOTE:
Partial Control of Access is defined as one access point per parcel. For properties with large road frontages (greater than 1000 feet), more than one access point may be considered. For properties that have access, such as via a side road, access to NC 32 may be eliminated.

DESIGN DATA

Functional Class.	=	Collector
Design Speed	=	60 mph
Max. Superelev.	=	0.06
