

I-40 Lane Shift

Although one or more lanes are closed, drivers still have the same number of travel lanes, because traffic is moved to the right onto the highway shoulder, which has been converted to a temporary lane.

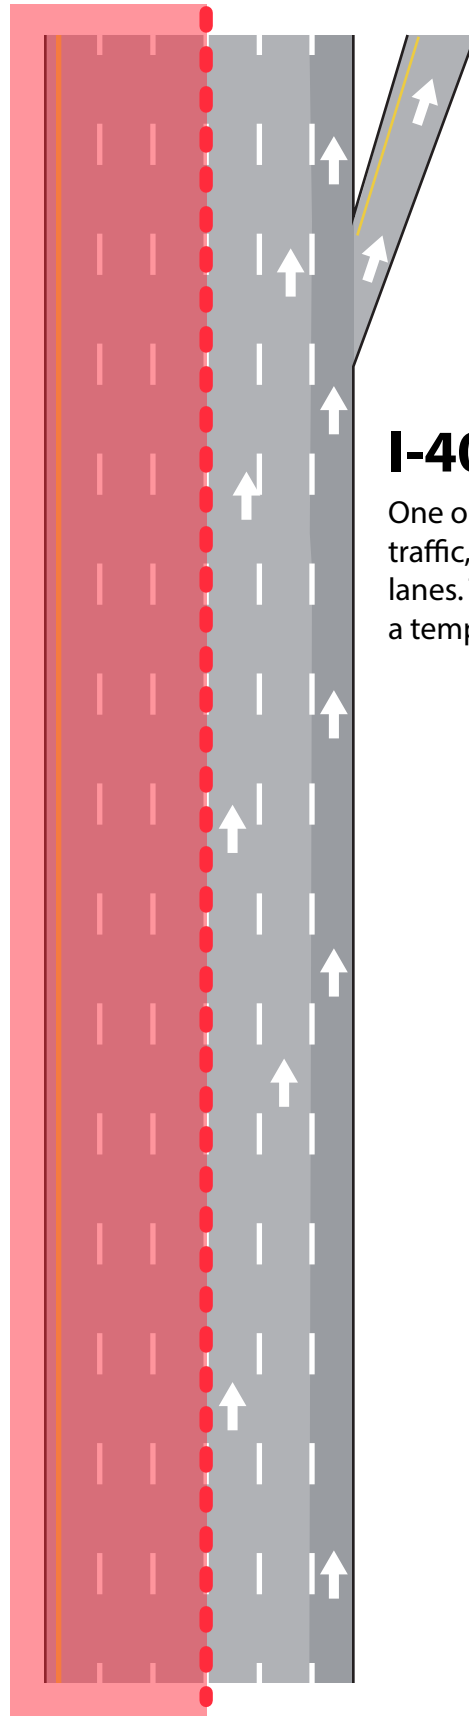

Illustration not drawn to scale.

For a better state.

I-40 Lane Reduction

One or more inside lanes are closed to traffic, leaving drivers fewer travel lanes. The highway shoulder is used as a temporary lane.

Illustration not drawn to scale.
