# JOIN US FOR A RIDER SKILLS DAY

## WHY BIKESAFE NC?

In North Carolina, motorcycle collisions result in a large number of fatalities and injuries.

Motorcycles represent 2.5 percent of all registered vehicles in North Carolina, but account for nearly 14 percent of all fatalities.

BikeSafe NC is an initiative of the Governor's Highway Safety Program in partnership with law enforcement agencies and the motorcycle community to be proactive in reducing crashes and fatalities in North Carolina.

## WHAT IS BIKESAFE NC?

The best modification you can make to your motorcycle is to improve your riding skills. Having a top notch bike doesn't automatically make you a top notch rider.

BikeSafe NC invites motorcyclists to participate in a Rider Skills Day instructed by highly trained motor officers. The day includes both classroom based advice and on-the-road ride-outs.

Topics covered include professional riding techniques, observation skills, hazard management and collision avoidance.

## A PROVEN SYSTEM

The BikeSafe program originated in London in 2003. In just seven years, their motorcycle fatalities decreased by 56 percent and serious injuries decreased by 46 percent.

## WHAT'S INVOLVED?

Riders are encouraged to attend a Bike Safe NC Rider Skills Day. Activities will include observed rides led by Motor Officers and presentations concerning all aspects of motorcycle safety.

It doesn't matter what type of bike you ride, you will receive useful information to improve your riding abilities. We want you around to enjoy the ride, so help us in reducing motorcycle crashes by signing up and improving your skills.
