Welcome

The Construction Progress Report contains information about highway construction contracts that are awarded by the Board of Transportation. You can search by contract number, division, country, TIP number, route, contractor name, administrative division, and resident engineer. You also have the ability to sort your search results by field, display either brief or detailed results, and download all progress report data into an Excel document.

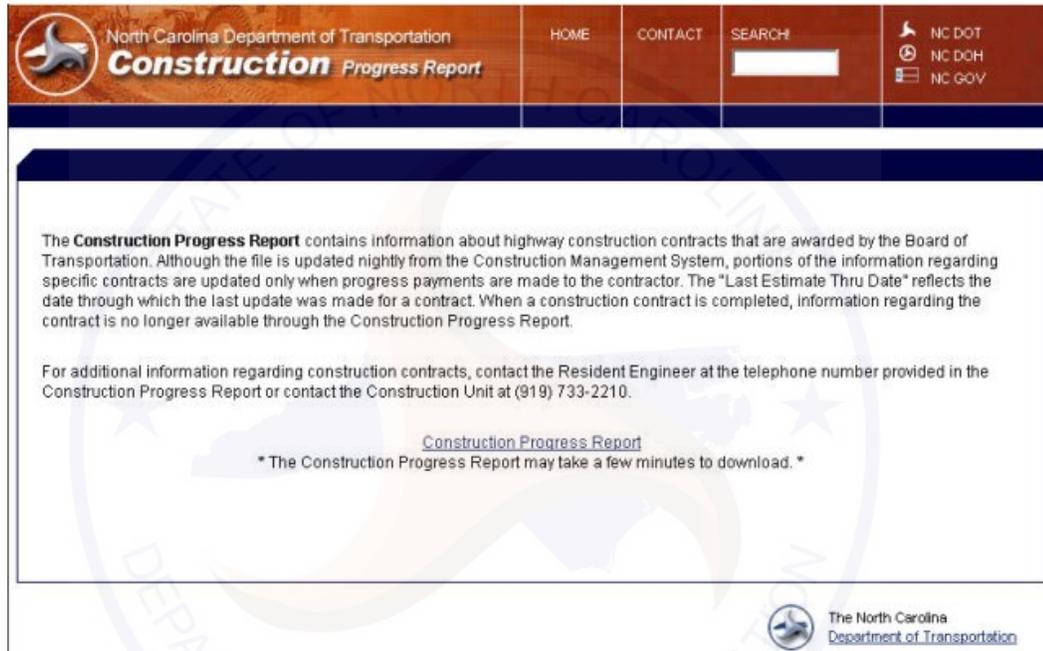

Although the file is updated nightly from the Construction Management System, portions of the information regarding specific contracts are updated only when progress payments are made to the contractor. When a construction contract is completed, information regarding the contract is no longer available through the Construction Progress Report.

For additional information regarding construction contracts, contact the Resident Engineer at the telephone number provided in the Construction Progress Report or contact the Construction Unit at (919) 733-2210.

Accessing Construction Progress Reports

1. Enter the following URL in the Address field of your web browser:
<http://apps.dot.state.nc.us/constructionunit/proglocreport/>

The Construction Progress Report window appears.

2. To search for progress reports, click the **Construction Progress Report** link.

The Progress Report Search page appears.

The screenshot shows a search and filter interface for the Construction Progress Reports Application. It features several input fields and dropdown menus for filtering results. The fields are organized into sections: 'Search By' and 'Sort By'. The 'Search By' section includes fields for Contract Number, Physical Division (dropdown), County (dropdown), TIP Number, Route (dropdown), Contractor Name, Administrative Division (dropdown), and Resident Engineer (dropdown). The 'Sort By' section includes a 'Field to Sort By' dropdown (set to 'Contract Number') and a 'List Type' dropdown (set to 'Brief Listing'). Below the filters are 'Search' and 'Reset' buttons. At the bottom, there is a link to 'Show All Progress Reports in an Excel Spreadsheet' and a red asterisked note: '* This report may take a few minutes to download over a slow connection. *'. A large, faint watermark of the North Carolina Department of Transportation seal is visible in the background.

3. Refer to [Searching Progress Reports](#) for procedures and additional information.

Searching Progress Reports

The Construction Progress Reports application allows you to search progress reports by contract number, physical division, county, TIP number, route, contractor name, administrative division, and resident engineer.

You can sort your report by field and generate a brief or detailed description of each progress report. You can also download all progress reports in an Excel document.

Click on the following procedures for more information.

- [Entering Search Criteria](#)
- [Producing Search Results](#)
- [Viewing Progress Reports in Excel](#)

Entering Search Criteria

To minimize your progress reports search, you can enter search criteria that filters your search results and displays contracts that match your requirements.

1. When you click the **Construction Progress Report** link, the Progress Report Search page appears.

Search By Contract Number:

Physical Division: All ▾

County: All ▾

TIP Number:

Route: All ▾

Contractor Name:

Administrative Division: All ▾

Resident Engineer: All ▾

Sort By Field to Sort By: Contract Number ▾

List Type Type of List to Display: Brief Listing ▾

[Show All Progress Reports in an Excel Spreadsheet](#)

* This report may take a few minutes to download over a slow connection. *

2. The Progress Report Search page allows you to enter search criteria to filter your search results, or view all progress reports in an Excel spreadsheet. To enter search criteria, continue with Step #3. To view all progress reports in Excel, refer to [Viewing Progress Reports in Excel](#).
3. To search for a specific progress report, enter the appropriate information in one or more search fields to filter your search results. The more search criteria you enter in the following search fields, the more targeted your search results will become.

Contract Number - A unique identification given to the each contract to distinguish itself from other existing contracts. To search by contract number, enter the contract number you want to view in this field.

Physical Division - The Physical Division is the geographical region or area within North Carolina that is allowed to perform contracts within that area.

To search by physical division, click the **Physical Division** drop-down and select the physical division from the list. This field automatically populates the **All** selection.

County - The county where the contract work is performed. When you select a physical division in the Physical Division field, the counties in the County list are filtered to display only those counties within the physical division you selected. To search by county, click the **County** drop-down list and select the county where the contract work is performed. This field automatically populates the **All** selection.

TIP Number - A unique identification given to each project/TIP to distinguish itself from other existing TIPs. To search by TIP number, enter the TIP Number that contains the contract you want to view.

Route - The route or the route closest to where the contract work is performed. To search by route, enter the route in the Route field. This field automatically populates the **All** selection.

Contractor Name - The contractor assigned to the contract. To search by the name of the contractor, enter the contractor's name in this field.

Administrative Division - The division that performs the administrative functions for the project. To search by administrative division, click the **Administrative Division** drop-down and select the appropriate option from the list. This field automatically populates the **All** selection.

Resident Engineer - The head engineer assigned to the contract. To search by resident engineer, click the **Resident Engineer** drop-down list and select the appropriate engineer from the list. This field automatically populates the **All** selection.

4. You can sort your search results based on five different criteria. The Construction Progress Report application automatically sorts search results by administrative divisions. To select a different sort, click the **Field to Sort By**

drop-down list and select one of the following: **Contract Number**, **Physical Division**, **Contractor Name**, **Administrative Division**, and **Resident Engineer**.

5. You can produce brief or detailed search results by clicking the **Type of List to Display** drop-down and selecting one of the following options:

Brief Listing - The Brief Listing produces the following fields: Contract Number, Physical Division, Administrative Division, Length, Resident Engineer, Location Description, Type of Work, Contractor Name, Route, County, TIP Number, Federal Aid Number, and RE Phone Number.

You can still view a detailed listing of each contract from the brief listing results by clicking on the contract number link in the search results. Refer to [Producing Search Results](#) in these procedures for more information.

Detailed Listing - The Detailed Listing produces the following fields: Contract Number, Physical Division, Administrative Division, Length, Resident Engineer, Location Description, Type of Work, Contractor Name, Contract Amount, Availability Date, Completion Date, Revised Completion Date, Last Estimate Thru, Last Estimate Paid, Route, County, TIP Number, Federal Aid Number, RE Phone Number, Cost Overrun/Underrun, Letting Date, Work Began, Estimated Completion, Scheduled Progress, and Actual Progress.

6. To clear all the fields in the Progress Report Search page, click the **Reset** button.

Producing Search Results

Refer to the following procedures after you have entered the necessary search criteria in the search fields. To enter search criteria for a progress reports search, refer to [Entering Search Criteria](#).

1. To produce search results for progress reports using your selected search criteria, click the **Search** button.

The Progress Reports Search Results page appears.

The following is an example of the Brief Listing search results:

Last Estimate Paid: 7/29/2005	Actual Progress: 91.57%

 The North Carolina Department of Transportation

4. To perform another progress report search, click the **New Search** link at the top left of the page.

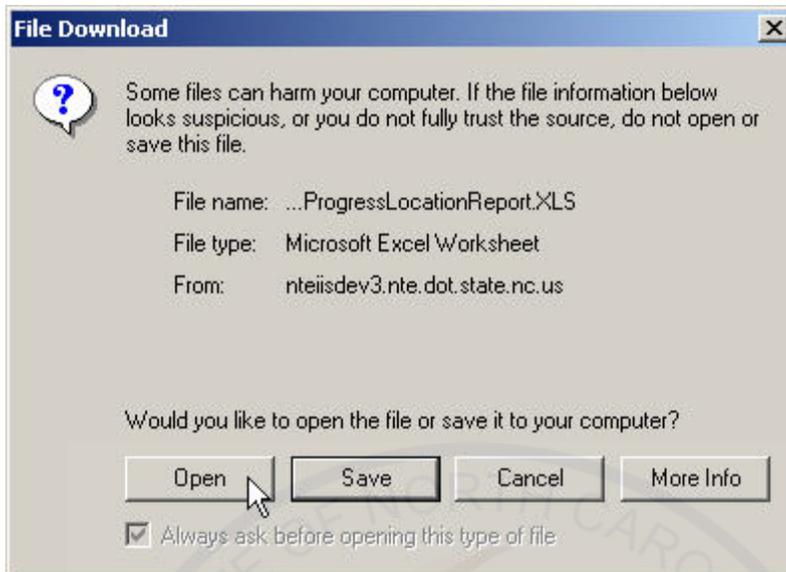

Viewing Progress Reports in Excel

You can view all existing progress reports in Excel using the Show All feature. The download process may take a few minutes depending on your connection speed.

1. From the Progress Reports Search page, click the **Show All** link at the bottom of the page.

[Show All](#) Progress Reports in an Excel Spreadsheet
* This report may take a few minutes to download over a slow connection. *

The File Download dialog box appears.

2. Choose one of the following options from this dialog box to continue:

Open - Click the **Open** button to open the Excel spreadsheet.

Save - Click the **Save** button to save the document to your system before opening the file. This option is recommended.

Cancel - Click the **Cancel** button to exit the File Download dialog box without opening the Excel spreadsheet.

More Info - Click this button to open the Microsoft Internet Explorer help files on downloading files.

The following is an example of the downloaded Excel spreadsheet:
