

2012-2013 Available Internship

North Carolina State University Wolfline

Location: 2721 Sullivan Drive, Raleigh, N.C. 27695

Academic Majors Desired: Urban and Regional Planning; Transportation and Transit Planning/Engineering; Public Administration and Policy

Internship Description: The intern will provide technical analysis and support for staff and engage in various facets of campus transit and multimodal transportation system management including bus and rail transit, Transportation Demand Management (TDM), bicycle/pedestrian, and vehicle traffic. The intern will perform planning and operation assignments specific to ongoing monitoring and evaluation of the Wolfline system's performance. The intern will design and implement a sample based annual origin-destination survey capturing the transportation mode preferences of students and employees traveling regularly to and around campus.
