NCDOT ISN'T JUST HIGHWAYS

NCDOT maintains the second largest highway system in America, but it also oversees all other modes of transportation in our state - aviation, bicycle and pedestrian, ferries, public transit, and rail. The department also oversees the state's Division of Motor Vehicles and the Governor's Highway Safety Program, and helps expand economic growth opportunities through oversight of the N.C. State Ports, N.C. Global TransPark and N.C. Turnpike Authority. At NCDOT, there is an opportunity for anyone who is interested in transportation.
