

List of Tables

Tables are included in the chapters. This list is provided as a reference only.

Table S-1	Summary Comparison of Alternatives
Table 1-1	Existing (1998) and Forecast Average Daily Traffic (ADT) and Forecast Design Hour Volume
Table 1-2	Level of Service Criteria
Table 1-3	Design Hour Roadway Level of Service
Table 1-4	Design Hour Intersection Level of Service
Table 1-5	Accident Rates
Table 2-1	1997 Comparison of Potential Bypass Alternatives (Part 1)
Table 2-2	1997 Comparison of Potential Bypass Alternatives (Part 2)
Table 2-3	Percent of Local Automobile Trips and Automobile Trips with a Blowing Rock Origin or Destination that Must Use Transit to Achieve Various Levels of Service
Table 2-4	Percent of All Automobile Trips that Must Use Transit to Achieve Various Levels of Service
Table 2-5	Key Design Criteria for the Build Alternatives
Table 2-6	Retaining Wall Design Criteria
Table 2-7	Location and Purpose of Intersection Improvements with the Widening Alternative
Table 2-8	Retaining Walls Included in the Widening Alternative
Table 2-9	Cut and Fill Requirements for the Widening Alternative
Table 2-10	Average Daily Traffic Forecasts
Table 2-11	Design Hour Level of Service
Table 2-12	Design Hour Intersection Level of Service
Table 2-13	Intersections and Other Road Crossings with Bypass Alternatives 1A and 1B
Table 2-14	Retaining Walls Included in Bypass Alternatives 1A and 1B
Table 2-15	Bridges Included in Bypass Alternatives 1A and 1B
Table 2-16	Cut and Fill Requirements for Bypass Alternatives 1A and 1B
Table 2-17	Retaining Walls Included in Bypass Alternatives 4A and 4B
Table 2-18	Bridges Included in Bypass Alternatives 4A and 4B
Table 2-19	Cut and Fill Requirements for Alternatives 4A and 4B
Table 3-1	Permanent Population in Town of Blowing Rock and Caldwell and Watauga Counties
Table 3-2	Population Forecasts for Caldwell and Watauga Counties

Table 3-3	Population Above Age 65
Table 3-4	Non-White Population
Table 3-5	Population Below Poverty Line
Table 3-6	Median Household Income
Table 3-7	Employment by Sector
Table 3-8	Housing Units in Town of Blowing Rock and Caldwell and Watauga Counties
Table 3-9	Single-Family Building Permits Issued (Percent Change from Previous Year)
Table 3-10	Housing Values in Town of Blowing Rock and Caldwell and Watauga Counties
Table 3-11	Housing Vacancy Rates in Town of Blowing Rock and Caldwell and Watauga Counties
Table 3-12	Minority and Low-Income Populations, 1990
Table 3-13	Measured Ambient Noise Levels
Table 3-14	Existing Condition Noise Levels at Receptors Adjacent to US 321
Table 3-15	Past, Present, and Programmed NCDOT Projects Affecting the Blue Ridge Parkway
Table 3-16	Percent of Major Land Cover Types in Regional Sub-Basins
Table 3-17	Changes In Land Cover in Regional Sub-Basins 1982 to 1992
Table 3-18	Forested Land And Managed Timberland
Table 3-19	Characteristics of Streams and Stream Crossings
Table 3-20	Federally Protected Species Listed by the US Fish and Wildlife Service
Table 3-21	Species Listed as "Federal Species of Concern"
Table 4-1	Estimated Maximum Displacees
Table 4-2	Relocation Summary
Table 4-3	Maryland Business and Customer Survey Results
Table 4-4	Percent Change in Sales by Alternative and Business Type
Table 4-5	Change in Sales for US 321 Businesses by Alternative
Table 4-6	Build Alternative Capital Costs
Table 4-7	Employment and Earnings Impacts of Construction
Table 4-8	Average Weekday Changes in System Travel Parameters
Table 4-9	Annual Transportation System Cost Savings, Selected Build Years
Table 4-10	Transportation System Benefits and Costs
Table 4-11	Summary of Economic Benefits and Costs
Table 4-12	Predicted Worst-Case 1-Hour and 8-Hour CO Levels
Table 4-13	Noise Abatement Criteria for Highway Projects

Table 4-14	Predicted Existing and Future Noise Levels for the No-Build Alternative at Receivers Adjacent to US-321
Table 4-15	Predicted Existing and Future Noise Levels for the Widening Alternative at Receivers Adjacent to US-321
Table 4-16	Predicted Existing and Future Noise Levels for Bypass Alternative 1A
Table 4-17	Predicted Existing and Future Noise Levels for Bypass Alternative 1B
Table 4-18	Predicted Existing and Future Noise Levels for Bypass Alternative 4A
Table 4-19	Predicted Existing and Future Noise Levels for Bypass Alternative 4B
Table 4-20	Number of Noise Sensitive Receptors Affected by Alternative
Table 4-21	Determination of Effect for Project Area Historic Resources
Table 4-22	Areas of Each Plant Community by Alternative
Table 4-23	Jurisdictional areas that Occur Within the Construction Limits of the Widening Alternative
Table 4-24	Jurisdictional Areas that Occur Within the Construction Limits of Bypass Alternative 1A
Table 4-25	Jurisdictional Areas that Occur Within the Construction Limits of Bypass Alternative 1B
Table 4-26	Jurisdictional Areas that Occur Within the Construction Limits of Bypass Alternative 4A
Table 4-27	Jurisdictional Areas that Occur Within the Construction Limits of Bypass Alternative 4B
Table 4-28	Jurisdictional Streams and Wetlands Within Each Alternative
Table 4-29	Alternatives that Contain Streams Affected by Parallel Fill
Table 5-1	Characteristics of District and Contributing Properties
Table 5-2	District and Contributing Properties Used
Table 5-3	Visual Change in District and at Contributing Properties
