Raleigh, NC 27699-1598
djoyner@ncdot.gov

Dear Mr. Joyner,

As a full time residents and self employed small business owners, we are writing to offer our full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). Our economy quality of life has suffered long enough due to concerns over the safe and reliable access to and from Hatteras Island. Highway 12 is our lifeline to medical appointments, hospital care, our child that is at school in Durham, and services that are not available on Hatteras Island.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

djoyner@ncdot.gov

Dear Mr. Joyner,

I am a property owner and tax payer on Hatteras Island.

I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

This project has been discussed for years while the State (NCDOT) has thrown good money to fix what should be redesigned and replaced. This project reflects what

Government is responsible for, rather than the indecision and inept action we experience most instead of results. Please do your job and stop wasting DOT money and build the required new infrastructure to support commerce and recreation on Hatteras Island.

Steve

Dear Mr. Joyner,

As a property owner and part time resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Subject: real defender of wildlife would like to see new Bonner Bridge

Hi, I'm a citizen on the OBX and also a very concerned defender of wildlife. In reality, a new bridge would have a positive effect on the environment. First of all, it doesn't do anything to the oceanfront to disturb sea turtles, that notion is just nonsense. Secondly, pilings in the water act as artificial reef habitat, and a new bridge would thus increase biomass in this environment. For the sake of the environment please proceed with the longest bridge option. Thanks –nicholas martin

Dear Mr. Joyner, I am a multiple homeowner, investor on the Outer Banks, and more importantly am a devoted fan of this great part of North Carolina. I travel all over the world to great places, and I always think about the uniqueness and beauty of North Carolina's Outer Banks. It is a special place in its history and its place for recreation and leisure for tourists coming to NC. One unique feature of this part of our coast is it's draw to international and out-of-state travelers bringing "new" money to a part of NC that has long been neglected in terms of economic development.

I wholly support getting the Bonner Bridge replaced as soon as possible. I worry that the delays are going to result in continued economic problems heaped on southern villages and Ocracoke, or worse, a TRAGEDY due to the condition and age of the existing bridge. In addition, we just have to come up with a reasonable solution to the NC 12 issues at the S curves. The problems the past 2 years are hurting rentals on the island this year. The uncertainty is what leaves vacationers hesitant, not the threat of a hurricane which they are willing to risk. Those areas on 12 pose human risk of life at this time in bad conditions. We were encouraged by Governor McCrory's on site visit recently to the area.

Please represent the needs of the Outer Banks and the economy there....the dollars generated in tourism justify the investment by the state, and the locals deserve a helping hand with keeping their economy going. They are an independent, self-reliant group of individuals, but they need the infrastructure to live and work on Hatteras Island. I also need the infrastructure to allow my investment in NC real estate to be part of my long range financial plan. I hope you can get something moving forward. Killing the island slowly is not a fair solution to the issues.

Thank you for your work on behalf of NC.....

PS. I am now 71 and have been coming to the Outer Banks since c. 1950... At son Andrew's suggestion we have become ocean front owners in Avon about a decade ago. My dad, I, and my 3 sons are Eagle scouts and consider ourselves quite responsible regarding nature...Never in a thousand years would I have anticipated being on the opposite side of "environmentalists"...What is needed here is use of common sense...a balancing ...a reasonableness...Please do what you KNOW is right.

djoyner@ncdot.gov

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I would argue that an expeditious and permanent solution is better for both the environment and taxpayers, than the current temporary fixes. Currently, NCDOT crews are burning tax dollars and fossil fuels to run equipment to clear roads and rebuild dunes on a sometimes daily basis, thus the current situation is bad for both taxpayers and the environment. Common sense really needs to win out over special interests, whose lives are not impacted by the frequent closures of NC 12 under the current situation.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you for your assistance with this matter, and please feel free to call my cell (410-277-9549) if you would like to discuss this further.

Subject: Hwy 12 Improvements

I have been informed your office has been bombarded by emails as a result of a broadcast by Jason Rylander of Defenders of Wildlife. I subscribe to DOW's emails and Mr. Rylander's email used misinformation to mobilize DOW to disrupt NC DOT's plans for stabilizing Highway 12 and providing reliable access to Hatteras Island.

I'm hoping NC DOT will not be deterred by this distraction and proceed with plans to stabilize

I have include my reply to Mr. Rylander's email.

Regards,

Bernie McCants
2325 Windy Woods Dr
Raleigh, NC

I will take exception to this notice as a 65 year resident of NC and frequent visitor to Hatteras Island.

High-speed, reasonable capacity, shallow-water ferries to handle the traffic to Hatteras island do not exist and if they did, permanent disruption of SAVs in the sound is a major concern.

There is no money nor is there justification for the cost of the long bridge to bypass Pea Island.

Loggerhead turtle and piping plovers are not endangered but listed as threatened. I believe we are beginning to see the fruits of required TEDs in shrimp trawls with increased loggerhead nesting along the entire East Coast with cyclic nesting trending upward. Highway 12 has no impact on loggerhead nesting.

Also, moving the bridge and allowing Pea Island to migrate westward would destroy the impoundments, one of the features that attracts bird watchers.

1598 Mail Service Center
Raleigh, NC 27699-1598
djoyner@ncdot.gov

Dear Mr. Joyner,

As a full time resident of Avon, North Carolina, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

While I live south of Bonner Bridge on Hatteras Island, I work full time, 12 months a year for Resort Realty, based from Nags Head to Corolla. I rely on Hwy 12 on a daily basis to earn my living and support my family. I have been forced to commute to work to earn a decent living because the economic climate on Hatteras Island has been stagnate for the last two years due to Hurricanes Irene and Sandy, and the never-ending problems on Hwy. 12 through Pea Island and Rodanthe. Without permanent, sustainable solutions to the problems from Bonner Bridge to Mirlo Beach, my life and family will be in jeopardy. If the State of NC and the US Federal Government cannot proceed with long-term solutions to these problem areas, I will likely be forced to relocate my family. The situation for many families who call Hatteras Island home is very similar. Please do not allow the environmental lobby to continue pushing for the depopulation of Hatteras Island. While the NPS might also have an interest in a depopulated Hatteras Island, I do not believe that the 'Portsmouth Island Solution' is beneficial to anyone in State Government, Dare County Government, or the residents of Dare County.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Drew-

Thanks for getting back with me about the hearings. Again, thanks for all you and your team are doing to help us with long term solutions to the challenging NC Hwy 12 issues.

I wanted to weigh in and offer my full support of the Bonner Bridge replacement project, including the permanent bridge to replace the temporary bridge at 'Irene Inlet' as described in the recent environmental assessment. I would like to join the many voices and advocates of this vital transportation link for Hatteras Island.

Again, thanks. Please know we truly appreciate your help.

thanks-

Drew-

For those of us outside the area, can we watch the hearings on the internet? Will there be recordings so we can watch later?

Thanks for ALL you are doing to help us rectify these issues with long term solutions.

thanks-

Subject: Hatteras Island - Temporary Bridge
Attachments: Mr. Drew Joyner, NCDOT.pdf

Dear Mr. Joyner,

As a full time resident, property owner and business owner in Dare County I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, as well as the permanent bridge installation to replace the temporary bridge at "Irene Inlet", as described in the Environmental Assessment; within the existing NC 12 easement as the Preferred Alternative for Phase Two (a).

Dare County is one of only a handful of Counties in the State that actually contributes more money to the State in taxes than it uses.

If this public access to Hatteras Island is not secured the State stands to lose substantial tax dollars.

Furthermore, the residents, property owners and business owners of Hatteras Island have the right to reasonable and safe access to their property using NC Hwy 12.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

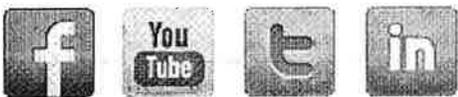

Thank you in advance for you action on this matter.

Dear Mr Joyner,

My family has been vacationing and living on the Outer Banks for over 40 years now. My uncle, grandmother, and now myself own, or owned property on OBX, and we consider our houses more than just a second home, the OBX has become our second home. Both my uncle and my grandmother lived in the Nags Head area for many years, and owned and operated businesses there.

When it came time for me to buy a house, I chose Hatteras Island, in large part because of it's isolation and natural beauty, which I felt wasn't the case anymore near Nags Head. I knew that the National Seashore would protect our island from rampant development, and through the 2000s during the building boom, that proved to be true.

I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment - namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link to Hatteras Island.

Thank you.

Subject: Please support the residents of Hatteras Island on Phase 11a

Hello Mr. Joyner,

I am a resident of Salvo, NC and an employee of one of the major employers of the Tri-Villages area of Hatteras Island. Thank you for the time you have dedicated to hearing the points of view on the remedy to keep access to our island open while balancing the needs and desires of many quarters.

It has come to my attention that the environmental group, The Defenders of Wildlife, has activated their database of members to try and stop the building of the permanent bridge that is scheduled to replace the temporary bridge on NC HWY 12 in Pea Island at "Irene Inlet".

The e-mail alert urges DOW members to write NCDOT opposing the project, namely Phase IIa of the Herbert C. Bonner Bridge Replacement Project. Their call to action "button" which displays photos of a Loggerhead turtle hatchling pleads to "Help Save Sea Turtles – Take Action!" which effortlessly allows the user to send a letter to NCDOT in opposition to this vital project. The Defenders of Wildlife is a primary plaintiff in the lawsuit against replacement of the Bonner Bridge, which is rated 2-100 (100 being the best rating) by engineers.

It's really easy to see a picture of a turtle, push a button and petition NCDOT without ever having been to Hatteras Island or understanding the complexity of the situation. It's very easy to dismiss the needs of a small population on some remote island with a click on your computer, iPad or phone. What is more difficult is to reconcile the fact that people need to make a living here and actually do care about the creatures that reside in our environment.

I thank you in advance for your thoughtful approach to the road dilemma (now emergency) of Hatteras Island.

Sincerely,

Natalie McIntosh

I am writing to express my full support of the Bonner Bridge replacement project on NC 12, Hatteras Island. I believe that the NCDOT has done their due diligence in Environmental Assessments and planning. The Preferred Alternative for Phase Two (a) of building within the existing NC 12 easement satisfies all interested parties and offers the best solution for keeping a vital transportation route open on Hatteras Island.

Thank you for your help and hard work in keeping NC 12 open thus far. As a full time resident of Avon, small business owner, and most importantly a husband and father, that particular road is exceptionally important to my ability to safely raise my family and successfully run my business. I urge you to continue your efforts to maintain a safe travel corridor to and from Hatteras Island.

Thank You,

Andrew McKinney

Dear Mr. Joyner,

As a Hatteras Island resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment – namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Subject: Hebert C. Bonner Bridge

Dear Mr. Joyner,

As a frequent traveler of this bridge, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island as these bridges have an impact on tourism and my vacation retreats to Hatteras and Ocracoke Islands. My son and I as well as my wife have enjoyed fishing on the islands for years and hope to be able to continue our past visits to the islands. Without these two bridges we would be unable to take those trips.

Thank you in advance for you action.

In as much as we appreciate the importance of a natural habitat for our wildlife, there should be a suitable solution for both the existing development needs and the existing wildlife. Setting aside funding for the assurance of maintaining our wildlife in addition to the forward progress of the permanent bridge should be the goal. For either side to demand a solution without meeting the needs of the other is unfair to all. Development exists and should be maintained with the future in mind, just as permanent habitats for present and future wildlife should be created. How about using some of the money that will be wasted on defending a decision to satisfy both needs. Let's keep the money on the island and out of the lawyers' pockets.

Subject: "Irene Inlet" Temporary Bridge Replacement

Mr. Drew Joyner
Human Environment
Section Head
NCDOT
1598 Mail Service Center
Raleigh, NC 27699-1598
djoyner@ncdot.gov

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment - namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). The welfare of humans should supercede that of turtles, birds, etc. Please consider that there are several man-made structures as part of the Pea Island wildlife refuge. If man can help preserve nature, we should be able to preserve and secure our own environment. Both these bridges provide a critical link for the future welfare of Hatteras Island.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

To: Joyner, Drew
Subject: PERMANENT AND NEW BRIDGES

To whom it may concern: As a resident of Hatteras Island, it is imperative that the main egress artery (C. Bonner Bridge and the temporary Pea Island Bridge) be replaced with permanent SAFE structures. Additionally, a permanent solution should be made regarding the remainder of Hwy 12 (Mirlo Beach & Buxton areas) to ensure that the lifeline to the "True Outer Banks" remain open and safe for both residents as well as the health of the tourism/charter fishing industries.

Respectfully

Dear Mr. Joyner,

It astounds me that it has taken 20 years to replace the Bonner Bridge. Do we need the bridge to literally fall before something is done. Hasn't 20 years of study concluded that the bridge needs to be replaced?

As a 35 year visitor to the OBX and especially Cape Hatteras national Seashore Recreational Area, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

Please move as quickly as possible to secure this vital transportation link for the people and visitors (2.5MM) of Hatteras Island.

Sincerely,

Michael A. Metzgar

Subject: Bonner Bridge replacement threatened

Dear Mr. Joyner:

Those of us who have lived here on Hatteras Island for our entire lives are terrified that the attempt by the Defenders of Wildlife to block construction of the new bridge over Oregon Inlet we so desperately need will be successful. Our lives will be at risk with no way to get to the Outer Banks Hospital when we have our heart attacks and strokes. Replacing ambulances with helicopters looks financially impossible and although the Stumpy Point/Rodanthe Ferry is OK for a couple of weeks, it won't work long term. Jason Rylander has not understood that we need immediate action and cannot afford to wait years for a western long bridge. Turtles have absolutely nothing to do with this! I beg you to ignore him.

To: Joyner, Drew
Subject: Bonner Bridge Support

Mr. Joyner;

I am a property owner in Avon on Hattaras Island. I am writing this e-mail to ask you (NCDOT) to build the Bonner Bridge replacement bridge as planned. Also, do what is necessary to re-build, move, or otherwise make NC highway 64 a more reliable mode of access to Hatteras Island.

The bridge project has been studied for years and something MUST be done. Contrary to some groups statements, the new bridge and road replacement will NOT cause any problems for birds or turtles.

Thank you for your efforts to keep Hwy. 64 open during difficult times.

Sincerely,

Marcus C. Midgett

Subject: Bonner Bridge replacement project(s)

I am a Hatteras Island native and second generation business owner who makes my permanent home in Hatteras Village. The purpose of this communication is to express my unqualified support for the Herbert C. Bonner Bridge replacement project and the proposed permanent bridge to replace the temporary bridge at what is now known as '*Irene Inlet*'. I believe the aforementioned projects are generally reflected as the Preferred Alternative for Phase Two(A.)

Thank you for the opportunity to weigh in on this subject. I, respectfully, request the state to make every effort to improve the accessibility issues on Hatteras Island just as soon as practically possible for the residents of the island; first and foremost, and the multitudes of visitors who are responsible for so many tax dollars that are sent to Raleigh from the Outer Banks.

Dear Mr. Joyner,

As a property owner and true lover of the Outer Banks of NC I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

We built our summer beach home in 1987 , and to be honest , I think I remember the state telling me back then that the HC Bonner Bridge needed to be replaced ASAPsome 26 years later we are STILL waiting , not sure what you would like for us to do, but I think you know what we would like for you to do . While I understand the position taken by many of the environmental groups and most especially The Defenders of Wildlife. Its not about TURTLES of BIRDS , we have miles of unspoiled beaches for them to breed MILES And MILES , just south of HI is Portsmouth IslandMILES and MILES of clean beautiful beaches, we are not taking every last spot of nesting for these beautiful creatures we only wish to sharethis horse is out of the barn and its tooooooo LATE to close the barn doors. DO THE RIGHT THING Own up to the fact that mistakes have been made and the future is manageable
This project is well within the existing NC 12 Easement alternative and should be FAST TRACKED to save your tax dollars in additions to the birds and turtles

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you for taking the time to read and look forward to your corrective action in favor of this project, way to much water has flowed under this BRIDGE !
And not in the right directions.

Most Sincerely

Mr. Drew Joyner:

As a native North Carolinian, I have spent over half a century enjoying the natural resources offered by our great State. From the mountains to the coast our "Variety Vacationland" has been an asset not only to our native citizens but also to our friends and tourists which enjoy our State and reward us with their tourist dollars.

Recently, I have noticed a trend which involves a severe neglect of the Eastern most part of our State, specifically the Hatteras Island portion of the Outer Banks. Whether it's the closing of our ferries due to the lack of dredging within Hatteras Inlet or the closing of beaches due to unrealistic demands of "bird watchers"; I want you to know that even though I am a native of Mecklenburg County, it is terribly disturbing to watch the detrimental economic impact inflicted on fellow North Carolinians particularly those who reside south of the Oregon Inlet in Dare County.

Now, I have been made aware that once again the residents who live south of the Oregon Inlet are being "punished" due to the inactions of our State Government. Specifically there has been little progress made to replace the Bonner Bridge over the Oregon Inlet nor has the temporary bridge placed over the cut caused by Hurricane Irene been replaced.

Please consider this letter as support of the Bonner Bridge replacement project as well as a permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I consider myself an outdoorsman and a sportsman and I hope to one day share the Hatteras Island area with my children and grandchildren. I will be able to do neither if these bridges are not replaced.

If these bridges were on the beltway in Raleigh, I seriously doubt the citizens of Wake County would tolerate this type of economic oppression. The citizens of Hatteras Island as just as much citizens of our great State as any other area within our borders. Please do everything in your power to grant them the same level of support from NCDOT and build these valuable transportation links.

Hatteras Island has been patient beyond reason – Build these Bridges NOW!!!

Sincerely,

Benjamin E. Miller, Sr.

Dear Mr. Joyner,

I have been visiting the Nags head, Hatteras area for many years now. I was saddened to hear that the Bonner Bridge project could be possibly put on hold or stopped completely. Not only do the residents of this area of Dare county need and deserve the right to get to and from there properties and towns but those that visit the area deserve it as well. This has gone on long enough and this link needs a permanent solution. The taxpayers have already spent millions on this project and it should move ahead. It would be a disgrace for the state to stop this project and the replacement for temporary bridge at "Irene Inlet" at this point and time.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action

Subject: Herbert C Bonner Bridge

Dear Mr. Joyner,

As a property owner and frequent visitor to OBX, I fully support the H.C.Bonner Bridge replacement project as has been planned. This project has been delayed entirely to long and is becoming dangerous. I would also urge a permanent repair to the temporary bridge south on Rt 12.

Thank you for your consideration.

Dear Mr. Joyner,

As property owners, we are writing to offer our full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

We urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Dear Mr. Joyner,

As a visitor to the island of Hatteras for several years I am writing to offer my full support of the , Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

As an Eagle Scout, I completely understand the need for responsible conservation of natural resources, however I do not understand how stopping a bridge or trying to keep people from enjoying said resources is helping anyone or anything. I have had the pleasure of enjoying the Hatteras area for about 10 years now, and my wifes family has been visiting the area for over 20 years. When talking to any of the locals in Hatteras, they have nothing but respect for and a strong desire to keep the area they call home alive and well for generations to come, this is thier livelyhood. Unfortunately enviromental groups continually make efforts to stop, or at best make very difficult, travel to the area. I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

If a plea from a humble visitor is not enough, I would also implore you to take a look at the taxable income that is typically produced by the Outer Banks region. I'm sure this income to the state of NC would be missed if the ability for people to take vacations to the Outer Banks was made increasingly difficult. Just my \$0.02
Thank you in advance for you action.

We have invested our retirement money in a beachhouse in Frisco and if renters are not able to get to our house our retirement is in jeopardy. I am sure there are many with the same problem. Over the years our house has generated a lot of income to the

state of North Carolina with the taxes on a rental property. These taxes are to make sure that the outerbanks will remain an area that would attract visitors. If they can't get there everyone loses.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

djoyner@ncdot.gov

Dear Mr. Joyner,

As a part-time residents and property owners, we are writing to offer our full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

We urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

It is imperative that the residents of Hatteras Island have a safe road to access the island. I am fully convinced, at this point, that the Defenders of Wildlife will not be satisfied until there are no humans living on the island. Forgotten is the federal government's promise of full and complete access when private property was taken to create Cape Hatteras National Recreational Seashore. Their land was taken to provide a place for families to come to the seashore and enjoy the resources here. Now, the environmental groups only want wildlife on the island, no people.

How many studies are required before these bridges can be re-built? When can our elected officials say "enough is enough" to special interest groups and listen to the citizens that elect them as representatives. These bridges will never be rebuilt if special interest groups are allowed to file endless lawsuits to stop the building. Surely someone has the authority to say that the study period is over on a bridge with a rating of "2" out of "100" on safety--enough lawsuits have been filed to block the replacement of a bridge that is well past its expected lifetime. Do we have to wait until lives are lost before we can any relief. We need progress on the replacement of both the Bonner Bridge and the Pea Island Bridge. We need to stop being held hostage by special interests groups.

Thank you in advance for listening to the concerns of Hatteras Island.

djoyner@ncdot.gov

Dear Mr. Joyner,

As a fellow Dare County resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Dear Mr. Joyner,

As a property owners in Avon, N.C. , we are writing to offer our full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

We urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

Our family has owned land on Hatteras Island since the 60's. As a part time resident I fully support of the Herbert C. Bonner Bridge replacement project, and the urgent need for a permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment. (existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a))

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. It is so important to life on the island.

Quick action is much appreciated.

Subject: Bridge

My name is Mary Temple Mullis I own property on Hatteras Island and have since 1995. I own a storage facility as well as rental properties and am in the process of completing a 16 unit Travel Trailer Park. Access on and off the island is crucial for my well being. Having to continuously rebuild and clean up after storm is costing us as text there's a lot of money. We may as well open the window and throw it out. We need to put that money into a new bridge that will be strong and will last for years to come. we need to be going forward with building a new bridge at the Irene inlet. If we do not have a secure road to and from the island we will lose our tourist dollars and they are so very important to us as a community. Keep me in mind when you are making your final decision. Thank you.

Dear Mr. Joyner,

As a full time resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). I depend on this road every day of my life and I cannot believe that we have to jump through so many hoops just to be able to live. I have seen how this place has changed, how businesses have been affected or failed completely, and lives ruined. I know people who have been FORCED to leave this island because they are getting to old and their health is failing, and if it weren't for this road and these enviromentalist groups, would have stayed. Every year it washes out and not because there aren't better solutions but because we're being kicked around by people who don't live here and don't know anything about the island and it's way of life. A lot of people that live here have been here for generations and it's sad to watch their lives, their homes, and their families get uprooted because someone else wants this place to be a waste land. Please, I urge you to help us, the people. I love animals, don't get me wrong, but when did they become more important than humanity?

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Subject: Bridge replacement a must

Dear Mr. Joyner,

As a (choose one of full time resident, property owner, fellow Dare County resident, concerned visitor etc), I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

The new bridge will only help the wildlife situation in the long run while giving the bird population a better stretch of beach to breed.

Would also give a huge area for the sea turtles in the Pea Island area in which to lay their eggs.

On a different note, the vehicle passes needed to drive the beaches need to be rescinded. That shoreline was bought many years back with the agreement to those land owners that the beaches would always be available to both vehicular traffic as well as fishing. You are treating the residents like the U.S. Govt. has treated the Native American Indians over the years.

Please life the passes and just continue to rope off areas during the sea turtle nesting times. The Plovers that have caused most of this problem will build their nests in safer areas. Give Mother Nature a little credit on breeding practices.

Thank you in advance for you action.
