Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action

Dear Mr. Joyner,

As a concerned frequent visitor and part time resident of both the northern Outer Banks and Hatteras Island, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Replacement of these bridges is vital to the resident, business' and tourism of Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As a property owner and resident I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). The current bridge is a major safety hazard that threatens the lives of all residents and vacationers to Hatteras island. While I believe that the environment and environmental concerns should always be considered -- and all projects should be considerate of the affects they present to the environment, as an individual that regularly uses the bridges, I constantly worry about my safety and the safety of my family. We need to strike the right balance between human safety and environmental concerns. I believe that the current proposals balance these concerns.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As a **property owner for 15 years and, prior to that, a visitor for 33 years**, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. The money generated by the tourist dollars coming into this area is a vital revenue source for the state of North Carolina. In many ways Dare County actually supports the state. Please do not allow yourself to be influenced by groups who have no interest in the state or in the lives of the individuals who live and work in Dare County.

Thank you in advance for your action.

My contact information here at Hatteras is:

Carolyn P. Neal  
57042 Lighthouse Court  
Hatteras, NC 27943  
Phone: 252-986-2078

The name of our house is LZ Hatteras—named thus in honor of the 2 tours my husband served in Vietnam and in honor of all veterans.

Thank you very much for your help at this critical time.

Raleigh, NC 27699-1598

Dear Mr. Joyner,

As a multiple property owner and fellow Dare County resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I am an ardent subscriber, member, and supporter of the National Wildlife Federation, National Audobon Society, and Sierra Club, so I am fully cognizant and sympathetic with the intent of the Defenders of Wildlife to stop the building of the permanent bridge scheduled to replace the temporary bridge. That said, I am also cognizant of being a voice of reason, and the intent of the DOW is beyond the bounds of reason, even for DOW zealots. Displays of photos of a Loggerhead turtle hatchling that pleads to "Help Save Sea Turtles - Take Action!" is outrageously beyond the pale and totally misses the reality of what is *not at risk*.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As a full time resident, property owner, and Dare County resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

John P. Newbold

[djoyner@ncdot.gov](mailto:djoyner@ncdot.gov)

Dear Mr. Joyner,

As a former local resident of my first 21 of my 22 years of age, I highly recommend the bridge replacement. I now run a surf shop in Wilmington, NC. The store had previously been on Ocracoke, NC for over seven successful years. Until hurricane Irene when the inlet was created and no permanent plan or bridge to replace the affected area. The number one reason my brother chose to close the store was that the risks of long-term road closures were so high that it no longer seemed logical to invest money. Looking back it was one of the best business decisions we have made. There have been multiple month long closures to highway 12. It is ridiculous that Dare County being one of the richest counties in the state for tax revenue cannot afford to logically replace the bridges and roads for business. The cost of living there is so high and the risk of normal seasonal business makes it very hard for residents to thrive. When you are unsure if the roads will be passable makes tourists not want to visit and businesses unwilling to invest. I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

I am property owner in the community of Waves, NC as well as coastal Delaware and am very familiar with the impacts mother nature has on our coastal communities. Delaware and neighboring Maryland have successfully over the years nourished and replenished their beaches without any harm to wildlife (marine, birds, land) and have found other successful ways to address the issue of maintaining safe and reliable access to communities without impacting local wild life. I am writing to offer my full support of the Herbert C Bonner Bridge replacement project, and a long term permanent solution to NC12 on Hatteras Island including the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action,

NCDOT  
1598 Mail Service Center  
Raleigh, NC 27699-1598

Dear Mr. Joyner,

I am a longtime visitor and my husband and I bought a beach cottage in Rodanthe in 2004. I am writing to express our support of the Herbert C. Bonner Bridge Replacement Project and the permanent bridge to replace the temporary bridge at teh "Irene Inlet" just as described in the Environmental Assesment, namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). It is my understanding that Currently The Bonner Bridge is rated a 2 out of a possible 100! Unsafe seems to be an understatement. Our little cottage has been negatively impacted by Irene, Sandy and recently nor easters. It would stand to reason that if either of the these 2 storms had hit closer to the bridge that there would no longer even be a bridge. This bridge is vital to Hatteras Island. We have just received our tax assessment and as a result of the forclosures and short sales we are now underwater on this property. If we now lose rental income due to the bridge (Highway 12 is already presenting problems on a regular basis) then we too may be forced into walking away (as many already have) from this now underwater property. As property owners we are doing all that we can do to hang on and I urge you to please help us. I ask that NCDOT to move forward as quickly as possible to secure this very critical transportation link for Hatteras Island.

Many thanks in advance for your help and prompt action in this matter.

Sincerely,  
Cheryl M. Norman

Dear Mr. Joyner,

As a concerned visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

I am a concerned visitor to Ocracoke Island and am looking forward to our graduation celebration in June. WE have been traveling to Ocracoke via highway 12 for the last 17 years with our children. This year is especially special because All of our children are graduating (college, high school and elementary school) Also, my husband and I are turning 50 this year and having our 25th anniversary. We want to enjoy our vacation as always AND I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. We treasure the Outer Banks and know visitors are vital to its existence!

Thank you in advance for you action.

**Subject:** Bonner Bridge

Dear sir,

My husband and I are property owners on Hatteras Island. We have had concerns about the safety of the Bonner Bridge for years. We would like to support any effort to rebuild the Bridge as well as the project to have a permanent bridge to replace the temporary one at "Irene Inlet". It surprises me that the state of NC which receives so much income from the visitors at Hatteras Island would put the safety of all those visitors at risk by not finishing those projects. I wrote to Elizabeth Dole many years ago and never received a reply. I understand the concerns of environmentalists, but human life is of more concern to me, especially when accommodations have been offered to those groups. I hope you will support the replacement of the two bridges.

Sincerely,  
Peter and Jane Obernesser

**Subject:** Hatteras Island bridges

Dear Mr. Joyner

I am writing as a property owner on Hatteras Island but also as a US citizen who enjoyed the National Seashore on Hatteras Island for many, many years before purchasing property there. I feel it is important to keep the Island accessible to all Americans and therefore I strongly support the replacement of the Bonner Bridge as well as the replacement of the temporary bridge. As a property owner, I receive the updates regarding the plans for the replacement of these bridges. It appears that the environmental assessments have been thorough and thoughtful, and the recommended alternatives should be supported and carried forward.

Thank you.

**Subject:** Highway 12 Bridges--Hatteras Island

Dear Mr. Joyner,

I am an owner of 2 homes in Waves on Hatteras Island and also a full time resident here and I am very much in support of building a new bridge to replace the temporary bridge at the new (Irene) Inlet exactly as described in the environmental assessment---namely within the existing easement alternative as the Preferred Alternative for Phase Two (a). I urge NCDOT to move forward as quickly as possible to secure this vital transportation link to our Island. We appreciated you coming to the community center to explain the options, but lets not talk about it, we really need to do something now. The residents on this island need a safe passage off this island and until the S Curve issue is resolved and this temporary bridge is replaced, all of us full time residents are at risk.

I would sincerely appreciate your support in geeting this approved as quickly as possible. Thank you in advance for your support!

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. I am a wildlife lover, but this transportation link should be done as soon as possible for the people of Hatteras Island and their visitors.

Thank you in advance for your help.

NCDOT  
1598 Mail Service Center  
Raleigh, NC 27969-1598  
Djoyner@ncdot.gov

Dear Mr. Joyner,

As a full time resident and a freshman at Cape Hatteras Secondary School of Coastal Studies I am writing you in full support of the replacement of the Herbert C. bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at New Inlet exactly as described in the Environmental Assessment- namely within the existing easement alternative as the preferred alternative for Phase Two (a).

As a student athlete not having the road open has hurt our athletic programs forcing us to cancel games and have shortened seasons. I play year round sports for my school and work hard to keep my grades up, recently receiving an Academic Athlete Award, and the extra stress makes it harder. Because I live in Rodanthe I already lose a lot of study time to long travels. Not being able to play all our games is not the only thing that hurts the students here on the island, academic opportunities are also limited because of the road always being out.

I urge NCDOT to move forwards quickly as possible to secure this vital transportation link for Hatteras Island. Adults are not the only ones suffering, please ask your self... "How are the children affected." We are losing valuable athletic and educational opportunities each time we are without this road.

Thank you in advance for your action.

Mr. Drew Joyner,

I am a 7th grader at Cape Hatteras Secondary School of Coastal Studies. I have waited all my life to play football and only got to play 3 games my first season because the road was out. And I will probably not get to go on a field trip this year. We haven't yet either and probably won't because the year is almost over. I offer my full support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at New Inlet exactly as described in the Environmental Assessment -namely within the existing NC 12 easement alternative as the preferred alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Dear Mr. Joyner:

As a full time resident and property owner in Dare County, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I trust NCDOT will move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Greatly appreciated,

Stuart Pack

**From:** Bill Palmer <bpalmer.asheboro@embarqmail.com>  
**Sent:** Thursday, March 28, 2013 12:58 PM  
**To:** Joyner, Drew  
**Subject:** Hatteras Island / Bonner Bridge

Dear Mr. Joyner:

My family has been property owners in Buxton since the early 70's. In fact as a child I remember watching the Bonner bridge being built taking the ferry over to Hatteras Island and I am now only 59 years old.

Although I am not a resident as I live inland, myself, family and friends enjoy the pleasures of going to Hatteras Island and obviously could not do so very easily without the Bonner Bridge. Aside from that...the bridge has allowed an otherwise desolate island to become a part of the upper island in sharing tourism and tax dollars. Hatteras Island tax dollars are just as important helping with the local and state economy as much so as the northern areas of Dare county. That simply can not be overlooked.

As a life long resident of North Carolina I am writing on behalf of myself and my other 26 family members that enjoy Hatteras Island in offering my full support of the Herbert C. Bonner Bridge replacement project. In addition, a more permanent bridge to replace the temporary bridge at the so called "Irene Inlet" (as described in the Environmental Assessment) namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I encourage the NCDOT and any of it's advisors to move forward to secure this essential transportation link to and from Hatteras Island without ridiculous persuasions from special interest groups. This is the peoples land and as common sense must prevail, most in general have respect for the wildlife that lives among us.

Thanking you in advance,

Bill Palmer

Dear Mr. Joyner,

As a property owner of a rental cottage in Avon on the Outer Banks of North Carolina I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. These infrastructure projects are absolutely critical to the Outer Beaches tourism and which brings in substantial monies for the state of North Carolina.

During the recent closure of Highway 12 due to Hurricane Irene, it was extremely difficult to access the Outer Banks communities. This was due to the infrequent ferries, long ferry rides and inability to gauge travel time due to traffic. It is lucky that the closure happened off-season! None-the-less business and owners were dramatically and adversely affected.

The Outer Banks is a great treasure of North Carolina as well as nationally and internationally and its access is vital.

Thank you in advance for you action.

Mr. Drew Joyner  
Human Environment  
Section Head  
NCDOT  
1598 Mail Service Center  
Raleigh, NC 27699-1598

Dear Mr. Joyner,

As a concerned visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment - namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). I have visited and vacationed on Hatteras Island for more than 40 years and want access to this island preserved for my children and grandchildren (with whom I have shared the beauty of Hatteras Island since they were born). I had been considering the purchase of a summer home in Frisco, but have not moved forward over concerns that access will be denied by environmental activists (many of whom have never even set foot on this island).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As property owners in Frisco, NC, and long-time annual visitors before that (Paul since 1975, Bette since 1988), we are writing to give our full and vigorous support to the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet," exactly as described in the Environmental Assessment, within the existing NC 12 easement alternative, as the Preferred Alternative for Phase Two (a).

We understand that one of the groups opposing this project has undertaken a last-minute e-mail barrage claiming a negative impact on sea turtles. As responsible environmentalists ourselves, we understand that the turtles are important, but there are many ways to protect them and still replace the bridge. We have been informed that local organizations are currently talking with the Park Service about safely moving turtle nests from areas where they may be in harm's way to safer areas along the beaches. This is a common and successful practice in many other states.

We strongly urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your decisive action in favor of this project and in favor of the people of the southern villages of Cape Hatteras.

Sincerely,

Paul Payton and Bette Schultz-Payton

**Subject:** Bonner Bridge Replacement Project Phase IIa

March 27, 2013

Mr. Joyner,

I am submitting at this time, my support for the proposed bridge over Pea Island Inlet. (Bonner Bridge Replacement Project Phase IIa). It cannot be emphasized enough, the importance of maintaining this vital lifeline for the residents and visitors of Hatteras Island.

In the aftermath of Hurricane Irene, and this inlet forming, as well as this past year after Hurricane Sandy, we sustained huge impacts to our economy. As a small business owner, I had no choice but to get a SBA loan, which enabled my employees to continue receiving a paycheck. I now have an extra monthly payment to make for years to come. This loss of business is never recovered.

While this is very important to us, please also consider the impact to our students, who cannot attend athletic activities off-island and our elderly (and not so elderly) who cannot reach life saving medical appointments and treatments. The list of impacts is endless.

After Hurricane Sandy, we saw the frustration of not being able to get off-island take it's toll, like never before. We desperately need some permanent solutions to our road issues and building this bridge will start us in that direction.

Thank you for any assistance you can give to maintain the livelihoods of our residents and provide a way for our visitors to continue to reach this special area that we all love.

Sincerely,  
Susie E. Perry

Dear Mr. Joyner,

As a life-long OBX vacationer and potential home-owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). We have driven across the Bonner Bridge for years and years and it is in dilapidated condition. We roll our windows down each time on the bridge, in case it falls through, we can use it as an escape route. TERRIBLE!

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

**Subject:** Replacement of Bonner Bridge

Dear Mr. Joyner,

My husband and I own a cottage on Hatteras Island. We have been coming to the Outer Banks since 1976 and have been enjoying the unique and relaxing atmosphere. The Outer Banks has meant so much to my family. Our son had his first beach experience at 9 months, we had vacationed there for many years before buying our cottage, and we have held many birthday celebrations and family events on Hatteras Island. Our son even proposed to his fiance there.

My husband and I are writing to express our support for the Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environment Assessment, namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

The bridge is vital to Hatteras Island and the economy of North Carolina. We are requesting NCDOT to proceed as quickly as possible to secure this crucial transportation link to Hatteras Island.

Thank you for your support.

**Subject:** replacement of a critical Hatteras Island bridge

Dear Mr. Joyner,

I am a dual home resident of Virginia Beach and Hatteras Island. I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet". I don't care what plan you choose, I absolutely care how fast the solution is built and usable. I am on the verge of selling my Hatteras Island home as I have lost faith that you will be able to keep the current road open long enough to avoid the unbearable ferry rides. Currently I am able to drive from one house to the other in 2hours (with construction 2hours and 30minutes). I will not own a home on Hatteras Island if my commute is increased beyond those times.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Mr. Drew Joyner  
Human Environment Section Head  
NCDOT  
1598 Mail Service Center Raleigh, NC 27699-1598 [djoyner@ncdot.gov](mailto:djoyner@ncdot.gov)

Dear Mr. Joyner,

As a property owner and part time resident of Hatteras Island, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. Thank you in advance for you action.

Sincerely,

Heather Pierce  
26229 Wimble Shores Drive  
Salvo, NC 27959

**Subject:** Bonner bridge/Irene inlet bridge replacement

Mr. Joyner, As regular visitor to Hatteras island, I fully support the replacement of these bridges as I understand are already in place and have been approved. As things are now it is almost impossible to plan a trip to the island as there is no way to know in advance if the roads will allow you to get there--if something is not done soon people like myself will just find more accessible places to visit. **Comment:**

John- Thank you for your comments about the NC 12 projects. NCDOT plans to start construction on the replacement for the Bonner Bridge as soon as all permits are received and the lawsuit currently in federal court is resolved. NCDOT also plans to award construction contracts for the two hot spot areas within the next year. Please let me know if you have any questions! Thanks, Beth Smyre

**Sent By:** John Ponton

**Date/Time:** 3/28/2013 5:42:12 PM

**Comment:**

The extremely comprehensive studies completed for the Bonner Bridge replacement evaluated a well developed set of alternatives and concluded the best solution was the new bridge being designed as well as hot spot solutions as they developed. Please proceed with the preferred solution so that our only link to the mainland can be preserved.

Dear Mr. Joyner,

As a concerned visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Sincerely,

Lauren Poor

*Dear Mr. Joyner,*

*As a full time resident of Hatteras Village, I am writing to offer my FULL support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment--- namely withing the existing NC 12 easement as the Preferred Alternative for Phase Two (a).*

*I was born in Hatteras Village in 1933. It was a village of fishermen who fished to provide food for their families. Furthermore, fish were taken off the island by boat to be sold to support the people on the island. Now the island has grown with tourists and visiting fishermen. The bridges are vital now for the transportation of fish to be exported for livelihood. The bridges are also most vital for medical purposes and for delivery of food and supplies to the people who live on the Island. Tourism is also a large business on this Island and without the bridges the livelihood of the residents is hurt.*

*Furthermore, the very idea that the Bonner Bridge has the lowest rating of bridges in safety in the country should be a shame for the State.*

*Do the DOW really feel that birds and sea turtles are more important than the livelihood and safety of people living on this island?*

*I urge NCDOT to move forward as quickly as possible to secure the vital transportation link for Hatteras Island.*

*Thanking you in advance for your action,*

*I am,*

Dear Mr. Joyner,

As a twice annual visitor to Hatteras Island, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

During these annual visits I rent property for abode, my family and i eat out most meals, and we spend lot's of time on the beach fishing. We need these bridges to ensure that we do not have to waste a full day getting to Hatteras Island, which would be 1 less day for our recreational activities and the related purchases.

I request that NCDOT move quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action to keep Hatteras Island a viable destination for my family's annual vacations.

Dear Mr. Joyner,

As a owner, fellow Dare County resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. These Environmental Groups are way out of line and are simply not in touch with reality. To say they are simply would be a grouse understatement. The people of Hatters Island are simply being bullied by them. Don't they count as much as any other animal. There are simple ways around there issues but they constantly choose to be unpromising and common sense is not part of the way they think. They have extreme views and they are trying to impose them on all of us. We all want to protect the environment but in a common sense way. The bottom line is there point of view is a radical one and they should not be able to get away with it like they have been. Please let common sense prevail.

Thank you in advance for you action.

Raleigh, NC 27699-1598

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As a full time resident and property owner in Dare County I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

This will help with our continued living on the island or end it, if we don't get this bridge and soon.

Thank you in advance for you action.

Dear Mr. Joyner,

I am a property owner in Rodanthe. I am in support of the Bonner Bridge replacement project. I urge you to move as quickly as humanly possible to replace the bridge before the bridge collapses and human life is lost. There have been years of study, it is now time to act! Thank you for your consideration in this matter.

Dear Mr. Joyner,  
As a property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Section Head  
NCDOT  
1598 Mail Service Center  
Raleigh, NC 27699-1598  
djoyner@ncdot.gov

Dear Mr. Joyner,

As a fellow Dare County resident I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Please note that not only those of us who live on Hatteras Island but our friends and relatives who visit here support conservation equality measures and respect for our native wildlife. However, it is extremely disingenuous and fraudulent for the "environmentalist groups" to continue to wage campaigns against this island with seemingly no respect for our right to remain here in harmony with our people population and our wildlife population. As long as we remain under siege from these groups with apparent endless amounts of money and a very narrow, extreme agenda, and, who never broaden their viewpoint or respect our ability for taking care of both, our rights will continue to be diminished and our voices rarely heard or respected.

Thank you in advance for you action.

**Subject:** Bonner Bridge replacement

Dear Mr. Joyner,

I am a frequent visitor to Hatteras Island and make four or five trips their annually and have been doing so for more than forty years.

Please add my name to the many who know the need for the Bonner Bridge replacement that is long overdue as well as the "temporary Clickity-Clack" bridge necessitated by Hurricane Irene. These two bridges are not only vital to my family's travels to Hatteras Island, but are necessary for travel by local residents as well as the great number of visitors to the Outer Banks during vacation season. I hope priority will be given to these two areas.

Cordially,

J. D. Raidabaugh, Jr.  
Maidens, Virginia

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Dear THOMAS M JR REGUL,

Today is the last day that you can show support for the replacement of a critical Hatteras Island bridge!

The public comment period for the building of the permanent bridge that is scheduled to replace the temporary bridge on NC HWY 12 in Pea Island at "Irene Inlet", is open until today, Thursday, March 28<sup>th</sup> 2013.

We urge CHEC members to write NCDOT to offer support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at Pea Island.

Please copy and paste the letter below into your e-mail and send it to [djoyner@ncdot.gov](mailto:djoyner@ncdot.gov).

ner

\*\*You will want to adjust the first line to describe your particular relationship to the

island. Feel free to add further comments to personalize the correspondence.

Thank your for your immediate attention to this crucial issue.

Dear Mr. Joyner,

As a Hatteras Island property owner, frequent visitor to Hatteras Island, and a contributor to the economy of the island; I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). This project can be done to both provide the long term access necessary to the island as well as comply with environmental regulations and still protect animals and their habitat native to the Outer Banks.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action on this as we need those critical bridge replacement projects begun this year.

Sincerely,

Charles Rhodes  
58215 Liberator Way,  
Hatteras, NC

Dear Mr. Joyner,

As a property owner on Hatteras Island, as a frequent visitor for more than 40 years, and as a permanent resident within the near future, I offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

As you know, the primary purpose of this project is to restore safe and effective access to and from the island by its residents and by all citizens of this great nation of ours. It is not meant to be an opportunity for improving natural habitat to the exclusion of people and the demands of those who insist otherwise must be dismissed. I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

I thank you for your consideration of my comments and my support.

**Subject:** Phase II Herbert C. Bonner Bridge Replacement Project

Dear Mr. Joyner:

I am an owner of three properties on Hatteras Island. Of course, I fully support the above replacement project, and quite frankly, it is exhausting that necessary projects such as bridge replacements are always being challenged by various environmental groups.

I am a firm believer in protecting the environment. Living in Pennsylvania, I am well aware of critical environmental issues. I do not support the uncontrolled fracking that is going on in our state. There needs to be more regulation.

I fully believe that natural beauty of Hatteras Island must be preserved, but not at the expense of the safety and well-being of both residents and visitors. Somewhere, there is a reasonable middle ground. From what I've read other states have dealt with protecting wildlife in sane and rational ways, and I feel that projects on Hatteras Island have been unduly delayed by environmental zealots who are unwilling to compromise or even to discuss compromise.

Without a doubt I have a vested interest in the bridge(es) replacement(s); however, when I weigh all of the factors, I am at a loss for words how any group could advocate the status quo. First and foremost, people live on the Island. It is their home. Hatteras Island originally was set aside for the American people as a recreational resource. This fact has seemingly been ignored. Importantly, there is a military base at the end of the Island. Lastly, and is what is probably very important to the state of North Carolina, there are millions and millions of dollars generated by the tourist industry. Band-Aid fixes to serious problems is not the answer. Long term solutions are necessary.

Thank-you for your consideration,

Edie Richards

Dear NCDOT , obviously the environmental groups opposing the replacement of the Bonner Bridge and the temporary bridge have no regard for Human Life by placing the safety and lives of our loved ones who travel this unsafe Bridge below animals. I would almost bet that not one of these folks have family that travel this bridge . Or have their home on the island or Economic consequences at stake ! As a property owner , I request that NCDOT take immediate action to begin replacement efforts of these two unsafe structures before someone is hurt or a tragedy occurs resulting in loss of human life ! While I respect and love the wildlife i am amazed that this wildlife

group would have no regard for life and safety of children and adults who travel this bridge on a daily basis . It has been way to long . And this bridge should have been replaced years ago . In my opinion a Causeway from the Coast Guard station to Rodanthe should have been in place long ago . Considering that such structures join the Florida Keys , the Eastern Shore to Va Beach . These structures have actually created thriving environments for numerous species of Marine Life . Thank you for taking the time to personally read the numerous letters you are receiving . Sincerely Joel Rigoglioso ✖

**To:** Joyner, Drew  
**Subject:** Temporary Bridge / Bonner Bridge Replacement

Dear NCDOT , obviously the environmental groups opposing the replacement of the Bonner Bridge and the temporary bridge have no regard for Human Life by placing the safety and lives of our loved ones who travel this unsafe Bridge below animals. I would almost bet that not one of these folks have family that travel this bridge . Or have their home on the island or Economic consequences at stake ! As a property owner , I request that NCDOT take immediate action to begin replacement efforts of these two unsafe structures before someone is hurt or a tragedy occurs resulting in loss of human life ! While I respect and love the wildlife i am amazed that this wildlife group would have no regard for life and safety of children and adults who travel this bridge on a daily basis . It has been way to long . And this bridge should have been replaced years ago . In my opinion a Causeway from the Coast Guard station to Rodanthe should have been in place long ago . Considering that such structures join the Florida Keys , the Eastern Shore to Va Beach . These structures have actually created thriving environments for numerous species of Marine Life . Thank you for taking the time to personally read the numerous letters you are receiving . Sincerely Joel Rigoglioso

As a Dare Co. Property owner, I am writing in full support of the Herbert C Bonner Bridge replacement project and the permanent bridge to replace the temporary structure at "Irene Inlet" exactly as described in the Environmental assessment within the existing NC 12 easement alternative as the preferred alternative for Phase Two.

I urge NCDOT to move forward as quickly as possible to secure this vital link to Hatteras Island.

Sincerely,

Robert C Rigsby, Jr DVM

**RE: Hatteras Island Access and Bridge Projects**

Dear Mr. Joyner,

My family and I have vacationed in the Hatteras Island area for over thirty years. In 2005, I became a property owner in Avon. It is presently my plan to eventually spend a good portion of my future retirement in Avon.

I am writing to offer my full support for a critical project. Specifically, the Herbert C. Bonner Bridge replacement project, as well as the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

Residents, merchants, restaurateurs, sportsmen, and other visitors to the Island need this dependable access. I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

I ask for your favorable consideration of this request.

Sincerely,

Daniel C. Riina

**Subject:** the bridge

3-28-13

As a long-time home owner at Hatteras, I've dealt with the problems of Hwy 12 for many years. Now there is a new inlet, and as you know, a temporary structure over it. Recently, the road has had to be closed nearby for rebuilding the dune. I saw waves crashing over the sandbags and onto the road. I understand that environmental groups have been pushing to prevent the building of a new bridge. But for people to visit our greatest natural resource, they first have to be able to get there.

Thanks,  
G.A. Rilling

1598 Mail Service Center  
Raleigh, NC 27699-1598  
[djoyner@ncdot.gov](mailto:djoyner@ncdot.gov)

Dear Mr. Joyner,

I grew up on Cape Hatteras. Though I currently reside in Virginia, I own property in Kinnakeet and I still consider it my true home. I am extremely concerned about the condition of the Bonner Bridge as well as the temporary bridge at the Irene Inlet.

I know firsthand from growing up on Cape Hatteras how crucial the bridges are to the livelihood of the residents as well as tourism industry on Hatteras Island. Without the bridges, the quality of life for residents and the commercial industry for visitors will be dramatically impacted.

Therefore, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

**From:** Rebecca Rollinson <rgrobx@charter.net>  
**Sent:** Wednesday, March 27, 2013 7:59 PM  
**To:** Joyner, Drew  
**Subject:** Bonner replacement project

Dear Mr. Joyner,

As a native Hatteras Islander, I am very concerned about our bridges. We, and everyone who calls Hatteras home, should have safe access on and off the island. If the bridges become impassable, lives could be lost because emergency vehicles could not get off the island except ferry. What if a hurricane occurs? What if a wreck occurred involving a school bus full of children? Not all could be flown off. Who would be responsible for their lives?

I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Generations of my family are here. My ancestry is here. I don't want to be displaced because of continual lawsuits by environmental groups delaying progress on the replacement of the bridges.

Thank you in advance for your action.

Rebecca Rollinson

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

It is ironic that the year that the piping Plover had its highest fledgling rate in the park that year coincided with the highest number of visitors to the park. You know who saved the turtles when 4 years ago so many were freezing to death? Local fisherman. It is crazy what these liberals want to do to us.

*Please re build the Pea Island Bridge !!!!!!!!!!!!!!!*
