Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Regards,

Larry Tabash

1598 Mail Service Center
Raleigh, NC 27699-1598
djoyner@ncdot.gov

Dear Mr. Joyner,

As a full-time resident and long-time property owner of Dare County, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. We have friends who live on Hatteras and those that own second homes there and the lack of response to this huge problem of replacing the Bonner Bridge is so dramatically affecting their lives and livelihood. And since all of us use that bridge many times throughout the year, we would feel much better crossing a new one that is safe and sound.

Thank you in advance for your action.

Dear Mr. Joyner,

As a property owner in Dare Co., Kill Devil Hills, and a 50+yr. visitor to Hatteras Island I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

We introduced our two children to the Outer Banks, as my parents did with me, when they were babies. No visit was complete without either going to Hatteras for a day in the beginning then spending our entire vacation there as often as we could. The highlight of our trips was driving out on the beach once we had 4 wheel drive, spending the day with nature at it's most beautiful and teaching our children to always respect not only the beach but the amazing wildlife we found there. They gained knowledge, history, love for the people who called it home, but above all, the amazing wonder that such a beautiful place was there for all to enjoy. Our son loved it so that after college he made the Outer Banks his home 16 yrs. ago. As we get older our visits are usually limited to one week or two a year but when I am there I am never more alive than when I stand at oceans edge with the sights and sounds of nature and beauty that surround me. It is a fragile paradise, we understand that, but just as the locals do all they can to protect this amazing place, the land, beach and wildlife, to promote respect by others, to keep the beaches clean and for many, to live the life of their ancestors, it is a place worth saving for the generations to come. Until such time that Mother Nature reclaims it if she must, it should not be wealthy environmental groups who, for reasons I myself can not understand, are allowed to claim it only to prohibit access to it from the very people it was given to as "our" National Park, the people who want to protect it all more than anyone. It should and must be allowed to be accessible and remain the "little piece of Heaven on earth" that it is. There is much in our beloved Nation that is lost each and every day, please do what you can and must to not let Hatteras Island and Ocracoke Island be lost also, they are National treasures, natural treasures and a legacy to the children to come. Please. My story may seem a selfish one as I am but a visitor yet I do not for a moment forget the people who call Hatteras Island home. Their history is long, their feelings and love for this remarkable place are strong, it is their businesses, their life, their heritage, their Home. They are a good and kind people, please hear their voices. Please.

Thank you in advance for you action.

Most Sincerely,
Marsha & Jeffrey Teeter

Dear Mr. Joyner,

As a property owner on Hatteras Island, soon to be a full time resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. The island depends on tourism to survive. We understand the concerns of the wildlife groups and the Audubon Society. But, the people of this island, some of whom can trace their family lines back to the original colony, deserve the opportunity to continue to exist here as well.

The current bridge is ranked at 2 out of 100, 100 being a safe, strong bridge. Please help us all. We have a beautiful barrier island that has managed to survive countless hurricanes and nor'easters-but we cannot survive with no bridge and no access to beaches.

Thank you in advance for you action.

Subject: Bridges on Hatteras Island

Dear Mr. Joyner,

As a business owner, Hatteras Island Property Owner, Resident of The Outer Banks and a very concerned citizen, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). I could write you several letters with different reasons, however the real issue is the fact that whether it is access to our own properties on Hatteras, emergency access and departure from the island or the provision of timely needed provisions, we just can't live without either of these options. From a business perspective, I cannot operate without both bridges. Without access the local economy and the native residents will only then resort to living off the state welfare system which will make matters worse for the rest of the State of North Carolina. Without the tourism that the island offers, the added tax revenue for the state will vanish and more of the owners of the island properties will relinquish those parcels to the lenders who will in turn foreclose and the rest is self evident. I respect the issues of the environmentalists however we must also respect the needs of our citizens.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Subject: Bonner Bridge replacement / Irene Bridge

Dear Mr. Joyner,

As a property owner on Hatteras Island for more than ten years I am writing to express my support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

This bridge is vital to the Hatteras Island and North Carolina economy. I have been frustrated by the continued delays on these projects by NCDOT and the North Carolina General Assembly who appear to have written Hatteras Island off. This ignorance has created a "dead zone" whereas real estate values and visitor counts continue to decline due to the uncertainty associated with passage along NC 12. I am certain that many of these visitors have found alternative vacation venues and will not likely return to Hatteras Island (and quite possibly North Carolina) because of this inaction. I urge NCDOT to move forward as quickly as possible to secure this crucial transportation link for Hatteras Island.

Thank you in advance for you action.

Hi Greg,

I'm not sure what she is referring to, but I will check with Ann and Jane to see if there was anything additional that you may not already have or be aware of. Although all of the acknowledgement/grievance process letters go out under my name, Jane has access to my electronic signature and automatically sends those out. I only review them if there is some question or it is something that doesn't fit into the typical grievance process.

Thanks,

Dawn

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action,

Janice Tidwell

Subject: bridge controversy

Dear Mr. Joyner,

As a concerned visitor who has visited and spent large amounts of money at the Outer Banks since 1983, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

As a side note since obviously this is a cut and paste email, what kind of simian amoeba-brain can rationalize that a bridge over a storm cut through on a barrier island has any effect on turtle procreation? Are they avoiding Rodanthe because they haven't paid their beach access fee? Perhaps they would rather the bridge be constructed of fish heads rather than concrete....please. The turtles lumber ashore all over the outer banks, they lay seagull treats in nests, they leave. There's plenty of these rather worthless chowders on the half shell already.

Tell the enviro-Nazis to take a hike and get the work of the people completed. We should be more concerned with the extinction of common sense.

Dear Mr. Joyner,

As a full time resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Subject: Bonner Bridge

As a concerned visitor I'm writing to offer my support of the above bridge replacement project and the permanent bridge to replace the temporary one at Irene Inlet. I was over the replacement one last year and glad it was there, but it does need replacing.

I understand this is described in the Envir.Assessment - within an existing NC 12 easement alternative (Preferred Alternatiave for Phast Two (a): - this is all legal-ese but the bottom line is SO MANY visitors need this access to get to Hatteras Island. Without a link to the Outer Banks, good grief - what a decrease in state money. (I'm from Ohio.)

NCDOT should move forward as quickly as possible to secure this vital link.

To: Joyner, Drew
Subject: Phase II NC 12 Comments

Dear Mr. Joyner,

I am writing to you about the Phase II project for NC 12 dealing with the hot spots north of Rodanthe. I want to first express to you that I really wish NCDOT would reconsider the 17 mile bridge by-passing all of these hot spots. As a Monday through Friday commuter from Buxton to Manteo for my job, I depend on this transportation corridor to earn a living. The so called "long bridge" would avoid all of these hot spots and provide the safest and most reliable form of transportation for the residents and visitors of Hatteras Island. I would not be surprised if within 25-30 years that most of the area north of Rodanthe will be bridged and at a greater cost to both the taxpayers and the residents of Hatteras Island. Why not be ahead of the problem and by-pass the entire area?

As a second option, I do support the permanent bridging of the New Inlet area. A suggestion would be to look at moving the bridge a bit further north than your current stepping off point. Within the last year, the dunes north of your stepping off point have been deteriorating and unless the stepping off point is put on a more secure base, we will be dealing with erosion and threats to the north end of this bridge before it is even completed.

I do notice in your plan that all access to the New Inlet area is being removed and no plans are included for replacement. There are both commercial fishermen and eco-tourism tour leaders that depend on this area to make their livelihood, not to mention the thousands of visitors that use that area every year. I find it appalling that access is being taken away and NCDOT does not have it in their plan to replace the access. Especially considering that one of the arguments against the "long bridge" has been the loss of access to areas such as New Inlet.

I also support as a second option a bridge that would by-pass the S-Curves area by going out in to Pamlico Sound. This bridge is probably a greater need than the permanent replacement of the bridge over the inlet opened by Hurricane Irene! The S-Curves area has been a constant nightmare since I was in elementary school in Buxton and it is high time that it is dealt with in a more permanent manner. What has been done now is a band aid on a bullet wound. Nourishing that area with offshore sand and trying to keep the same road alignment would be analogous to just wrapping gauze over the same bullet wound. It may stop the bleeding for a bit, but the wound will not heal!

I do want to close by thanking you for taking the time to consider my input on this matter. I also want to commend the NCDOT employees that have been working on the ground north of Rodanthe trying to keep our lifeline open. It is time to come up with permanent solutions to this on-going problem!

Sincerely,

Brian Van Druten
Buxton, NC

Dear Mr. Joyner,

As property owners in Avon, North Carolina, we are writing to offer our full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment – namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

We urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

djoyner@ncdot.gov

Mr. Joyner,

It has been brought to my attention that a group is attempting to thwart the efforts to proceed with building the Herbert C. Bonner Bridge replacement project. Enough already with the temporary bridge, please proceed as described in the environmental assessment to build within the existing NC12 easement alternative as the preferred alternative for phase two-a.

I speak as someone who has visited the area numerous times and is concerned by the actions of some who wish to discourage citizens of this country to not just visit but to live in the region by making egregious claims.

It is my request that serious consideration be given to fast track this project and it's benefits to so many people, especially those on Hatteras Island.

Thank you.

Very truly yours,

Lloyd Vernon

Subject: NC 12/Pea Island Inlet; Please preserve parking

Dear Mr. Joyner and Dare County Board of Commissioners:

It has come to my attention that US Fish and Wildlife is willing to work with DOT to maintain or mitigate the access problems caused by building a two-mile span along NC 12 over Pea Island Inlet and bypassing the current parking. In the wake of all the access struggles along Hatteras Island, this appears to be a perfect opportunity allow people to continue to enjoy more of our pristine beaches and waterways. Please use this opportunity to maintain access and replace lost parking for the benefit of commercial fishermen, tourism businesses, visitors and local residents.

Sincerely,

Robert M. Walker

Subject: Phase 2A Highway 12

Mr. Joyner:

I am a full-time resident of Hatteras Island with a chronic illness. My Neurologist is in Norfolk, and my medication must arrive monthly by next-day air and UPS. Highway 12 is literally a life-line for me and other residents in my position, so I am keenly interested in a permanent solution for repairing Hwy 12.

Accordingly, I attended the meeting in Rodanthe last month to view the alternatives for Phase 2A, replacing the temporary bridge at Pea Island. I studied the maps and talked with two representatives of NCDOT about Phase 2A, the S-curves, the Buxton hot-spot and the Bonner Bridge replacement. And I firmly believe that the Preferred Alternative for Phase 2A is the way to go, other vulnerable sections of roadway should be elevated in place and the parallel span to the Bonner Bridge should be built, all as quickly as possible. To do less is a disservice to those of us that call Hatteras Island our home.

Respectfully Submitted,

Sandie Walker

Dear Mr. Joyner,

As a year round Employee of a local Real Estate company, I am writing to offer my full support of the Herbert C Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

I live OFF ISLAND and must use this road twice a day to get back and forth from my home in Wanchese NC. As you know jobs are few and far between in this day and time and it is EXTREMELY difficult for the businesses on Hatteras Island to operate, as the number of employees that are qualified and do want to make that drive, are limited. There are many factors that affect those of us that do come here from off island. Hwy 12 being washed out so frequently is the number one problem. Gas prices run behind that.

I love my job and the wonderful native people that have lived here and descended from their ancestors who started here hundreds of years ago. Some of them are my family, as we originated in Avon before migrating to Wanchese on Roanoke Island. and I truly enjoy the beautiful drive everyday down Hwy 12. The landscape is gorgeous no matter the weather and the wildlife is fantastic.

That being said... Nature and wildlife always find ways to adapt to their surroundings. Are you REALLY prepared to "kill an island full of human beings and their way of life for some birds and other precious creatures that will adapt to the new surroundings?" What about us??? We deserve to be protected too. This seems the best way to preserve the wildlife and the human beings that co-exist with it.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Raleigh, NC 27699-1598
djoyner@ncdot.gov

Dear Mr. Joyner,

As a property owner and part time resident of Dare County resident,(We are working on being full time as soon as possible), I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" (south end of Pea Island) exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. This critical access route is the lifeline of Hatteras and Ocracoke both for safety and commerce. Supply route for residents, businesses and visitors.

I was also pleased to see that the "S" curves area is being dealt with now. (I was one of the many stuck on the island during the NEsters a few weeks ago, when the Gov. and Sec. of Transportation were there.)

We have been visiting the OuterBanks for 30 years and finally aquired a home in Frisco. We are most pleased with the home and location. It is just problematic access that causes us concern. We missed Thanksgiving because of Sandy. With the Bridge repair and new bridge in place I feel that there will be a safer and more reliable means of getting on and off of the island for many years.

Thank you in advance for you action,

Dear Mr. Joyner,

As a owner of a camper renting a full time property spot in buxton, nc, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

From: ckwandjsw@aol.com
Sent: Thursday, March 28, 2013 9:19 AM
To: Joyner, Drew
Subject: Bonner Bridge

I am writing to ask the NCDOT to continue it's plans for replacement of the Bonner bridge using the approved concept of replacement of the current structure where it is and the development of a phased approach over the coming years to deal with Pea Island issues.

It is indeed unfortunate that a very small group of highly organized and well funded people can impose their will on a majority who live, work or have significant investments on that island. The current approach is the correct one and is responsible in both dollars and timing.

Any further delays place a potential disaster on this frail island and it's economy. Owning a rental property we can all ready begin to see the affects of highway 12 being felt on this season's rentals. Without that bridge there will be no Hatteras Island for people to visit.

Please do not let the actions of highly organized special interest groups change the proper course of appropriate actions. Move forward on the current replacement plans!

Sincerely,

Jeffrey Wells

Dear Mr. Joyner,

As a concerned frequent visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As a resident of Bunn North Carolina and property owner on Hatteras Island in Avon NC I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment – namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

Rebuilding and maintaining Hwy 12 is justified, not just because of the human safety, health and well-being and businesses livelihoods there. All human understanding and empathy aside, the value of commerce owing to Highway 12, the only route through Hatteras Island, which relies primarily on tourism for revenue, it is obviously imperative that the bridges and roads be kept safe and open by NCDOT.

In addition, the economy is so robust Dare County is classified as a "donor" county, a designation conferred to municipalities that provide more revenue to the state treasury than they receive in annual appropriations from the capital in Raleigh. Of course, Hatteras Island isn't responsible for all of this economic activity in Dare Co., but it contributes more than its fair share.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island, it's what's right for the people of North Carolina.

Thank you in advance for your action.

Subject: Hwy 12, Hatteras Island

Dear Mr. Joyner,

I have lived on Hatteras Island for 26 years and hope I can make it hear for 26 more. I own and operate the charter boat "Release" and my wife is a school teacher at Hatteras Secondary School. We have two sons 19 and 24 and we all love this Island very much. Hwy. 12 is our lifeline and without it I would have to move my business somewhere else. I have studied NCDOT plans for Hwy. 12 and they all make good sense to me. The sooner you get started the better life will be for me and any other business on HI. The environment and impacts caused by man have probably been studied more on this little Island than anywhere in the world. Hatteras Island just like anywhere else in the world is going to be affected by many different weather related conditions that are out of our control and all we can do is try to maintain. NCDOT has the technology, manpower, and hopefully the money to take care of Hwy. 12 for a long time to come. I am really tired of my future being controlled by a few radical environmentalist that feel a few turtles and birds are more important than the people that live and visit this island. My livelihood depends on maintaining healthy fish stocks so I am very aware and supportive of reasonable regulations to protect our environment but it has grown into a monster down here. Thank you for your time and hopefully common sense will prevail.

Ms. Joyner,

I am writing you in support of the Peal Island Bridge replacement that is necessary to maintain safe and reliable access to Hatteras Island.

As a lifelong state resident, 26 year state employee and long time visitor to Hatteras Island, I am concerned at the tactics of out of state special interest groups that would isolate Hatteras Island if they had their way.

Please add my voice to the chorus of North Carolina residents that support building the Pea Island bridges.

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action

Dear Mr. Joyner,

As a Hatteras Island out of state property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

I have been coming to Hatteras Island for over 58 years. Highway 12 was not even built yet. My grandparents visited in the 40's and my parents honeymooned there. Hatteras Island runs deep in our blood. The residents have been waiting for this "new" bridge for decades!! Is it going to take a disaster of monumental size to get something done? This is affecting so many lives of the residents and well as the thousands of tourist that pour revenue into your state!!!!!! I would hate to see a campaign of negative impact on how "unfriendly " the government has been to their constituents as well as all of those who have loved that land that is, indeed, our second home. We love Hatteras Island, and the people who live there. They are suffering in ways that I cannot even imagine. Please help them!

Thank you in advance for you action.

Mr. Joyner, as a property owner of 25 years plus I surely support the plan to replace the Bonner bridge project along with the Pea Island project. As far as I am concerned you close the Pea Island Bird watching area permanently. Put those park employees to work in another area of the country. I am amazed to find the Midgett people against this project for the simple reason they have made millions of dollars off of the lowlands of that island.

Mr. Drew Joyner

Human Environment Section Head

NCDOT

1598 Mail Service Center

Raleigh, NC 27699-1598

Dear Mr. Joyner,

I am a periodic visitor to the Hatteras area, and I write to express my support for the Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

Land access is necessary for over 200,000 visitors each year to enjoy recreational opportunities at Cape Hatteras National Seashore. These visitors never could be accommodated by a ferry system proposed as an alternative to the bridge. Furthermore, the absence of a permanent land transportation solution threatens the viability of the villages of Buxton, Frisco, Hatteras and Rodanthe. Indeed, it seems the goal of project opponents is to indirectly convert these villages and the Cape Hatteras National Seashore into a *de facto* addition to the Pea Island National Wildlife Refuge by making Hatteras inaccessible over time.

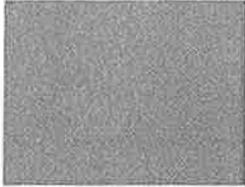

A new bridge has been under study for over 20 years. I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Sincerely,

Steven A. Witmer

Dear Mr. Joyner,

I am a resident of West Virginia but I am a property owner in Ocracoke. I have owned a home in Ocracoke for 13 years. I am frequently in Ocracoke and we plan on moving there full time in the near future. As a person who often travels over the Herbert C. Bonner bridge, I am concerned for the safety of the public traveling over this dangerous bridge. It needs replaced as soon as possible.

I remember the collapse of the Silver Bridge in Pt. Pleasant, WV in the late 1960's. That was an entirely preventable tragedy that resulted in significant loss of life. It is imperative that the State of North Carolina act as quickly as possible to replace the Bonner Bridge, or another catastrophic event could possibly occur. Please do not delay this decision.

I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Subject: Herbert C. Bonner Bridge Replacement Project

Dear Mr. Joyner:

As a concerned visitor to Hatteras Island, with a family heavily involved in environmental issues, I am fully in support of the Bonner Bridge replacement project to replace the temporary bridge at Irene Inlet with a permanent bridge, as described in the Environmental Assessment, i.e. within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I feel that this transportation link for the Island is vital, especially for emergency medical purposes, and urge the NCDOT to act as quickly as possible to secure this vital link.

Thank you very much,

Dear Mr. Joyner,

I would like to offer my support for the Bonner Bridge replacement project. I truly enjoy and look forward to my trips to the Outer Banks each year. I go at least twice a year, once in the summer and again in the fall. My summer trip is a family trip, my wife and I and each of my two daughters and their families, 11 people in all. It has become a family tradition, one I suspect will continue after my wife and I are gone. I check the fishing forum each day and am well aware of the problems with hwy 12. I am very concerned that dependable access to Hatteras Island is in jeopardy. Please do what you can to ensure that hwy 12 remains open throughout the year.

Sincerely,
Warren Yattaw

djoyner@ncdot.gov

Dear Mr. Joyner,

As a longtime visitor and now a residential property owner on Hatteras Island, I am writing to let you know of my full support for the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

It is clear that this project is necessary to serve as a vital transportation link for Hatteras Island, and I urge NCDOT to move forward with it as quickly as possible.

I also urge NCDOT not to be deterred by outside self-proclaimed "environmental" groups, or others who appear to have little or no knowledge of the area or of the vital need for the bridge replacement project. The economic consequences of failing to move forward with this project would be devastating for both island residents and other property owners who depend on the island being accessible to themselves and visitors.

Thank you in advance for your action.

Dear Mr. Joyner,

As a vacation rental property owner in Avon on Hatteras Island, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

We have been coming to Hatteras Island regularly for 25 years, and have owned a house in Avon since 2006. Our ability to travel to Avon is important to us, and our ability to afford the payments on our house is dependent on vacationers being able to travel to it as well. But the economic impact on us if the bridge isn't built in a timely manner pales in comparison to the impact on the livelihood of all the people who live on Hatteras Island, who have established homes, businesses, and family lives there expecting that the transportation system would continue to support them as it did when they, like us, made the choice to invest in the island.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Subject: Pea Island Bridge Replacement - Support of proposed plan

Dear Mr. Joyner

I am a long time visitor to Hatteras Island and have seen the changes to Bonner Bridge and the every increasing problems for transportation along Pea Island. A lot of time and research has brought NC to the point of decision and I urge your support on the the plans as described in the current Environmental Assessment. Namely, within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

The NCDOT needs to move quickly on this. Both Bonner Bridge and the bridge over 'Irene Inlet' are liabilities to the livelihood of all North Carolinians living on Hatteras Island. It is time, now, to move forward.

Your work and support of this is much appreciated.

Sincerely,

Dear Mr. Joyner,

I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

Please do not let us down. More and more we are in need for transportation off Hatteras Island and more and more we are not able to get off when needed. On March 11 I tried to leave the Island a day early as I was scheduled for an operation on March 12. I was in line at Rodanthe from 8:00a.m. until 2:00p.m. at which time we had to have a "point vehicle" to guide us off. Yes, things such as this are most often unavoidable; however, all of the money that has been spent on the "S Curves" seems to have been wasted. We truly need help and need it quickly.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Subject: Comment on Bonner Bridge Environmental Assessment

I believe replacing the Bonner Bridge is long overdue. Any further delay risks the loss of this vital transportation lifeline. Without the Bonner Bridge, public access to Hatteras Island would be devastated with drastic consequences to residents, small businesses, property owners and millions of yearly visitors. Replacing of the bridge is vital for public safety as well as the economic, cultural, historic and social well being of the region.

I endorse the new Preferred Alternative outlined in the Environmental Assessment from the North Carolina Department of Transportation (NCDOT). This plan represents a practical solution that, first and foremost, calls for immediate replacement of the Bonner Bridge. This alternative has the support of the Federal Highway Administration and State and Local officials.

I recommend the following key components outlined in the Preferred Alternative –

- Replace the Bonner Bridge immediately with a new parallel bridge
- Eliminate the “Long Bridge” option, which is impractical and unfundable
- Use a Transportation Management Plan for development of NC Highway 12
- Begin immediate construction without further environmental studies and delays

Subject: Hatteras bridges

Dear Mr. Joyner,

My family and I have been property owners on Hatteras Island for over 40 years. We have paid state and local taxes to North Carolina and Dare County all that time. Please understand our extreme concern about present and future access to the Island. Highway 12 must be maintained (build a permanent bridge over New Inlet) and the Bonner Bridge must be replaced as soon as humanly possible. I appreciate the natural beauty and the wildlife on the Island more than most anyone, that is why I love it so, but what the environmental groups are doing to essentially close Hatteras is beyond the pale. Shame on them. Hatteras Island must remain open! Build the bridges!

Thank you for your time and attention.

Sincerely,

Albert V. Zimmermann III

you need to stop paying attention to the well funded liberals groups and do what bis needed for the citizens of the outer banks and also the tax paying tourists that like to visit the outer banks.

Subject: Comment on Bonner Bridge Environmental Assessment

I believe replacing the Bonner Bridge is long overdue. Any further delay risks the loss of this vital transportation lifeline. Without the Bonner Bridge, public access to Hatteras Island would be devastated with drastic consequences to residents, small businesses, property owners and millions of yearly visitors. Replacing of the bridge is vital for public safety as well as the economic, cultural, historic and social well being of the region.

I endorse the new Preferred Alternative outlined in the Environmental Assessment from the North Carolina Department of Transportation (NCDOT). This plan represents a practical solution that, first and foremost, calls for immediate replacement of the Bonner Bridge. This alternative has the support of the Federal Highway Administration and State and Local officials.

I recommend the following key components outlined in the Preferred Alternative –

- Replace the Bonner Bridge immediately with a new parallel bridge
- Eliminate the “Long Bridge” option, which is impractical and unfundable
- Use a Transportation Management Plan for development of NC Highway 12
- Begin immediate construction without further environmental studies and delays

Dear Mr. Joyner,

As a concerned visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.
