I am a frequent visitor to Frisco, NC and I am concerned about the Herbert C. Bonner Bridge replacement project. I am writing to offer my full support of the project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment - namely within the existing NC easement alternative as the Preferred Alternative for Phase II (a). I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. Thank you in advance for your action. Charlotte K. Zovistoski, 2 Roe Street, Florida, NY 10921

Dear Mr. Joyner,

As a long time property owner since 1988, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I have followed the many meetings over the last 10 plus years, learning the pros and cons. Now is the time to move forward, as inflation is about to hit, so let's get it done, providing a road into a little piece of heaven!

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you

To: Joyner, Drew
Subject: I Favor Replacement of the Bonner Bridge

I'm writing to give my full support to replacement of the dilapidated Herbert C. Bonner Bridge, and Phase II of the related project. As a visitor to the Outer Banks for 48 years, we were there when a ferry took our family across the Oregon Inlet. Improved access via the Bonner Bridge has given us many, many enjoyable summers of memories with our families, and now our children have enjoyed the Outer Banks as their special vacation spot.

From an economic perspective, we've spent thousands and thousands of dollars for rental cottages, food, clothing, gifts, fishing gear, fishing trips, auto repairs, fuel, and more. Loss of access to the Outer Banks because of an endangered bridge would not only ruin our summer vacations, but would add to the economic woes of Bankers on Hatteras and Ocracoke Islands.

I urge NCDOT to move ahead immediately to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment—namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). For the sake of the Outer Banks, its residents, and the Cape Hatteras National Seashore, this project must move ahead.

Thank you in advance for your action.

Dear Mr. Joyner,

As a property owner I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

Please do not fall victim to the political interests that oppose replacing the bridge. The bridge's replacement is critical to the island's residents, to property owners and to Americans who want to enjoy the national seashore. Those opposing replacing the bridge, after all the hoops have been jumped through with environment impact studies, are simply trying to close the seashore. That isn't the right outcome for residents, property owners and millions of Americans that responsibly enjoy Hatteras Island.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.
Thank you in advance for you action.

NC 12 Moms and Dads...This is when it counts! ALERT>>>>ALERT!!!

djoyner@ncdot.gov.

URGENT!!! Your action needed! Less than 24 hours left to help! Take a minute right now and send a note to NCDOT

The deadline for submission is tomorrow, Thurs, March 28th. NCDOT did not anticipate much negative reaction to the Irene Inlet bridge being replaced, but in a last ditch effort to cause problems, Defenders of Wildlife sent an email blast out to their followers to oppose a bridge there in the name of saving turtles. NCDOT has recieved a lot of Defenders letters as a result. We need to get our 2 cents worth to them and it only takes about 2 minutes to copy/paste the sample letter in an email to djoyner@ncdot.gov. Please help if you can by tomorrow!

Dear Mr. Joyner,

As a property owner and concerned visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment – namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Dear Mr. Joyner,

As a full time resident and investment property owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. I do not want to see us be a victim of bridge collapse, such as the Interstate-35W Mississippi River Bridge collapse that killed 13 and injured 145. Hatteras is a popular destination place, and brings revenue to our county and our state. This needs to be a priority!

Thank you in advance for your time and attention.

djoyner@ncdot.gov

Dear Mr. Joyner,

As a full time resident, and DENR law enforcement officer on Hatteras Island I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). As a member of the DENR family I care about and work daily to preserve the environment and the wildlife that depend on the area as part of their survival, however the events taking place on Hatteras Island that are in extreme opposition of the new bridge projects as well as access to our beaches is nothing shy of absurd and all for monetary gains thru loops holes in continuous law suits. I believe there is compromise with access to our beautiful Island and it's beaches but the individuals trying to sue and stop the access have their blinders on and do not want to cooperate to reach a solution. If you were to get their honest opinion Im sure it would fall under the opinion that if they could remove all the people and visitors from the island and take out the bridge keeping people from stepping foot here they then might be a little happy and satisfied, please don't let things happen that way, I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As a property owner I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Sincerely yours,

Paul L. Arrowood Jr

Subject: Pea Island Inlet Bridge Replacement

Dear DOT Official,

As a homeowner in Hatteras Village, the replacement of the NC 12 Pea Island Bridge is critical.

Please do not allow people with faulty science and wacky agendas deter the State of North Carolina from replacing this the Bridge as soon as possible.

I am a tax paying homeowner with 6 acres of Hatteras Island which I carefully watch over. Groups opposing this bridge construction and this reasonable route and time table are misguided at best and malicious at worst. They are out of balance in their approach to stewardship of nature. They are overbearing in their eagerness to hurt people, moms, dads, kids who love and have a lively hood on these islands. Don't be swayed or slow by their deep pockets for endless frivolous legal challenges.

Respectfully,

Perry Babb

Subject: Comment on Bonner Bridge Environmental Assessment

I believe replacing the Bonner Bridge is long overdue. Any further delay risks the loss of this vital transportation lifeline. Without the Bonner Bridge, public access to Hatteras Island would be devastated with drastic consequences to residents, small businesses, property owners and millions of yearly visitors. Replacing of the bridge is vital for public safety as well as the economic, cultural, historic and social well being of the region.

I endorse the new Preferred Alternative outlined in the Environmental Assessment from the North Carolina Department of Transportation (NCDOT). This plan represents a practical solution that, first and foremost, calls for immediate replacement of the Bonner Bridge. This alternative has the support of the Federal Highway Administration and State and Local officials.

I recommend the following key components outlined in the Preferred Alternative –

- Replace the Bonner Bridge immediately with a new parallel bridge
- Eliminate the “Long Bridge” option, which is impractical and unfundable
- Use a Transportation Management Plan for development of NC Highway 12
- Begin immediate construction without further environmental studies and delays

Dear Mr. Joyner,

As a property owner, I am writing to offer my full support of the Herbert C Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment, namely within Existing NC 12 Easement Alternative as the Preferred Alternative for Phase IIa.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. My husband and I purchased a home in 2009 as a rental property and have been very successful with it up until Hurricane Sandy. The home is in need of repair and we need to get it rented quickly to make up for lost income. We purchased the home as a means to help pay for our children's college educations. We have several sub-contractors who work year round to keep our home in top-shape for our guests. Replacing the Bonner Bridge will not only allow people to keep their jobs, but it will also serve as a lifeline for the year-round residence of Hatteras Island.

If the government was not interested in supporting the lifeline of Hatteras Island, then it never should have been allowed to be developed in the first place. Please help us.

Thank you in advance for you action,

Cc: Hatteras Outerbanks Realty
Subject: Hatteras Island

Ms. Joyner, I normally do not get involved in politics, because I have little use for any of them. What does annoy me however, is when a handful of people can ruin something that is utilized by thousands, and the mass people seem to have little input as to the results.

For years I enjoyed the Outerbanks with my family, and after they grew, I continued to come for the fishing, with my friends. The Plover and the turtles eventually had me turn in different direction, but my love for that shore, has never waned.

To sit back now, when the local people whom make a living, call the place home, need support, I raise the question, why is North Carolina not taking a more substantial role in this issue? You receive monies, directly through sales tax, from people like me, when we visit. You have a vested interest in this shore, and all people involved with it. Why is it then, that from Pennsylvania, I see a State Department sit back and sit on the sideline, watching the fight, as if they have no part in it?

You have a National Treasure here, that was intended to share with all of the citizens of this great country. Why are you letting a handful then, dictate? To my way of thinking, the State here should be telling them to bring on the fight, and you can show them the will of North Carolina will be decided by the people of North Carolina, and nobody else. Where did we lose our rights here? And to whom do you think gave them those rights? People that sit back, watch, and take no action, that's who! The State, all states, not just NC, needs a new law, that states, if you sue, and lose, you pay the entire bill. I wonder how many would jump out and spend their money if that took place?

Ms. Joyner, do your part, and assist the people that live here. You are part of their structure, you are responsible to them, not a handful of outsiders, telling you they will sue. Let them! My daughter is heading to North Carolina to law school, and I know you have many good ones down there. Spend your money wisely, and open up this National Treasure again, for all of us.

Mr. Drew Joyner
Human Environment, Section Head
NCDOT
Raleigh, N.C.

Dear Mr. Joyner,

As a property owner and family that has been a part of Hatteras Island since the 1960's, we need to express our support for the long overdue replacement of the Herbert C. Bonner Bridge as well as the permanent replacement of the temporary bridge at "Irene Inlet". This to be done exactly as described in the Environmental Assessment.

It is urgent that the NCDOT move forward as quickly as possible in order to serve and address the safety of residents as well as visitors to Hatteras Island. The island's economy is also closely linked to safe accessibility to communities via Rte. 12 as well. Please consider our concerns and support actions that will preserve this very special island.

Thank you for your attention.

Dear Mr. Joyner,

As a person who has come to Hatteras NC every year for 58 years and as a property owner for the last 3 years, I am writing to offer my full support for the Herbert C Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment namely with the existing NC 12 easement alternative as the Preferred Alternative for Phase Two. The people on Hatteras Island deserve the ability to access medical care as well as the ability to evacuate and return to their homes in a timely and safe fashion.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island and the people who live there. Please don't forget there are people that live there.

Thank you in advance!

Dear Mr. Joyner,

We have been property owners in Dare County for almost fifteen years. We are writing to express our support of the replacement project for the Bonner Bridge and for a permanent bridge to replace the temporary one at "Irene Inlet" as described in the Environmental Assessment, namely within the NC 12 easement alternative as the preferred alternative for Phase IIa.

This bridge is vital to both the Hatteras Island and North Carolina economies and we are urging NCDOT to move forward as quickly as possible to secure this crucial transportation link for Hatteras Island.

Dear Mr. Joyner:

As a long-time property owner in Hatteras, NC I am writing to offer full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment - namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

We have a huge investment in our property, and being a senior citizen and tax payer to Dare County, it is utterly important that we have continued access to our property for protection of our investment.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Dear Mr. Joyner,

As a property owner and part-time resident I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

I have reviewed the DOT planned options, and am impressed by the time and effort that was put into this project. It appears they considered all of the potential environmental impacts, and have chosen an option that is a balance of local transportation and environmental needs. I believe the preferred option will not only protect the current environment, but also allow for natural changes to progress over the next 50 years with limited human impact to the area.

Thank you in advance for your action.

Dear Mr. Joyner:

As frequent concerned visitors, we are writing to offer full support of the Herbert C. Bonner replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" as described in the Environmental Assessment--namely within the existing NC 12 easement alternative as the Preferred Alternative to Phase Two (a).

We urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Dear Mr. Joyner,

As a long time visitor and triple property owner on Hatteras Island, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a). It would really be a shame to see this lovely area of our country cut off from all of the millions of people who enjoy and love it, most of whom are tax paying citizens of North Carolina.

I understand and sympathize with those who think we are harming the environment or wildlife by our access, but the people who live and work on Hatteras Island (and have for generations) also deserve some consideration and Mother Nature has a way of coping and adapting.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

As you have seen my son has fond memories of activities, friends, sunrises, sunsets, family, as does all of my family. This will be the 46th year of a Hatteras Island vacation with my wife, son, daughter, son in law and granddaughters. We enjoy the island business and the locals. We really Enjoy our fishing tackle shopping at Frank and Frannies. Laughed til we cried when my father in law hooked a dogfish that chased us to shore over by Canadian Hole before it was there. Or the time my father in law caught a almost record sized croaked at the point using a shell as a sinker because he didn't feel like walking to the truck. The point has been taken from us, please no more

I can only try to express in words how much the outer banks mean to my family and I. My dad has been going to the outer banks for over straight and I have been going for over 25 years straight myself. This place has been a part of my life and always be a part of my life. Maybe its the memories of fishing off the end of the Avon pier and catching Spanish Mackerel or Surfing the various breaks along the coast like the Lighthouse Groins or the Cape Point. Shopping at The Red Drum tackle store or Frank and Frans, eating at the Dolphin Den, or shopping at the Food Lion. I

played in the shallow waters of Canadian Hole now getting to see my two amazing nieces do the same. Or like the first day surfing really clicked for me. It was a sunny warm Thursday morning. Light offshore winds and bathtub warm water in the ocean. The water was a beautiful deep blue and the waves were absolutely perfect. Not one drip out of place. My friend Ryan and I ran to the waters edge paddle as hard as we could rushing to get the first wave even though it was going to last all day. I took off on a five foot wave at the time was over head for me and rode down the line watching the wave set up beyond perfectly. I slowed down just enough to have the wave slightly cover me up and then shoot me out. What was maybe just a 2 minute ride felt like eternity. I was packed to the brim with adrenaline and happiness, looking around as i was getting off the wave to see if anyone else saw that. I saw Ryan doing the same exact thing coming down the line towards me with the same level of happiness. We rushed back to the peak at the Cape Hatteras Lighthouse and caught as many waves as we could. I can still picture that day so vividly like it was yesterday. That was 12 years ago. I only wanted to write this to let you know how important this place is to my family and I. Not only us but every single person that has ever traveled to the OBX. This bridge needs to be here. As it is they took the Cape Point and closed that for the birds, which I cannot tell you how heartbreaking that is, but that is another story. I hope this isn't rambling on or anything I really just needed to tell you this. The turtles will be fine they have been for thousands of years and will continue to be OK.

Thank you in advance for you action.

It seems to me that elevating more of the roadway thru fragile areas makes the most long term sense. This would also be healthy for the sound as we know inlets are the sound's life blood. The business and residential communities on the islands need the best access and the sound needs the ocean. Letting the new Irene inlet be will offer both.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Dear Mr. Joyner,

As a long-time visitor to Hatteras Island & The Cape Hatteras National Seashore Recreation Area, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the **permanent** bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

The communities of Hatteras Island need this important link to the mainland, both for their own access to everything that is north of them, and to provide a means for visitors to get to Hatteras.

If the efforts of the people opposed to these measures succeed, they will effectively destroy a community with hundreds of years of history surviving and prospering in one of the most remarkable, beautiful and yet harshest environments in our nation.

Please Sir, do not allow these communities to be destroyed by the mis-guided efforts of these groups. I cannot imagine that you could possibly want that on your conscience.

Thank you in advance for your time in reading this email. and for simply doing The Right Thing.

Dear Mr. Joyner,

As a concerned visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Dear Mr. Joyner,

As a concerned frequent visitor to the Outer Banks of North Carolina , I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island and not cave to a minority concern of Eco-Terrorists hell bent on prohibiting the freedoms of tax paying residents. Remember that preservation via conservation trumps prohibition every day.

Thank you in advance for you action.

Subject: NC 12 improvements for Hatteras Island

Dear Mr Joyner

As a property owner in Salvo, I am contacting you in support of the proposed bridge over Irene Inlet on Pea Island. I realize that replacing the Bonner Bridge over Oregon Inlet has become much more complicated due to the overwash and damage caused to NC 12 between Oregon Inlet and Rodanthe during recent storms and hurricanes. However, I strongly support any decision that NCDOT makes to solve these issues because I am confident that you will put the public's welfare first. Unfortunately, the environmental groups oppose all of the common sense proposals and seem to care only about the birds and turtles.

I wish you success in fighting these groups, and I hope you are able to get the necessary permits so that the work can progress in a timely manner,

Sincerely,

Bill Blackwell

Dear Mr. Joyner,

As a Hatteras island resident homeowner, and business owner, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

This is not a plea for a recreational area, this is a plea to be able to access our homes and businesses, that will surely be lost if we loose our road AGAIN for the 3rd season in a row!!!! We do not have time to revisit these environmental groups desires. We are american citizens loosing the right to access to our homes and businesses. I cannot get home to my son after work if we loose our road again. Please move forward with these improvements. **OUR LIVES ARE DEPENDENT ON THESE ROADS.** We are not weekend bird watchers, we are taxpaying citizens that need to be able to get to work, home and school!

Thank you in advance for you action,

Cheryl Blankenship, Lac.

I am writing as a North Carolina resident and visitor to our wonderful Outer Banks to voice my full support for replacement of the Bonner Bridge and permanent replacement of the "Irene Inlet" temporary bridge exactly as described in the Environmental Assessment. I urge the NCDOT to move forward on this project as quickly as possible. Unlike many who have voiced opposition to this project who will never set foot in this state, I actually live in this state and will use this vital roadway to enjoy this beautiful place, that being a National Recreation Seashore, belongs to all of us.

Thank you.

Subject: Hwy 12

Importance: High

Dear Mr. Joyner,

I live on Hatteras Island in the town of Waves.
I am also an insurance agent with my office in Kitty Hawk.

I am writing because I am very concerned about the future of Hwy 12 and the bridges that are needed over Oregon Inlet, the "New Inlet", and thru the "S-Turns" into Rodanthe.
These bridges along with a stable Hwy 12 are vitally important for all residents of Hatteras Island, and to all of the property owners on the island.

There are now 5,000 permanent residents on Hatteras Island.
Hwy 12 is our only link to the mainland and it Must be preserved.

NCDOT has been trying to replace the Bonner Bridge for over 25 years, and the project has been held up by various environmental groups and their lawsuits.

The Bonner Bridge has passed it safe life span, and those of us that must drive over this bridge every day, are in danger of a collapse.
In addition, Hwy 12 is the only road to get the 5,000 residents to important services such as hospitals and other medical services.

I am urging you to please push aside the environmental groups and their lawsuits.
Hwy 12 and the three bridges must be built for the safety of the residents and other property owners on Hatteras Island.

The amount of investment on Hatteras Island should be an additional consideration, but it pales when you are considering the importance of our lives.

It is time to secure Hwy 12 and these bridges and we trust you will insure that it is done.

With sincere thanks,

Steve Bonday CIC, CBIA, AIP

Dear Mr. Joyner,

As a frequent visitor, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I was unfortunately trapped in Avon during hurricane Sandy along with many others. I witness first hand the hard work and dedication of the NCDOT crew member as they cleaned up highway 12. The current construction of highway 12 is incredibly unstable and costly. I fully support the changes believing that in the long run they will save money as well as protect the environment from repeated human intrusions. As an outdoor lover I agree upon protecting the environment but not on shutting down the island. I believe if this bridge is not put in place that will be the result in the long run and that is the goal of many of these environmentalists.

Please move forward with the bridge replacement.

Mr Joyner,

We want to respond to requests for comment on the replacement Bonner Bridge project, as well as the new bridge to replace the temporary bridge on Pea Island, by sending our vote of support for both projects and urge that they be implemented as planned.

My wife Linda and I are homeowners in Salvo, and continue to be highly concerned for the future of NC12 and view the proposed Bonner Bridge and Pea Island inlet bridge projects AS PROPOSED within the existing NC12 easement to be the best alternative. The long bridge proposal is an undesirable solution because of much higher cost, very long time needed to build such a bridge, difficulty of repairs and maintenance for bridges versus land based roadways, and safety in high winds. Additionally, the claims made by DoW and others that island erosion will continue as before are unproven claims; decisions should not be made upon such speculation.

We urge NCDOT to move forward ASAP to build the projects as proposed for the Bonner Bridge replacement and for the replacement bridge proposed on Pea Island.

Thank you,

Mark & Linda Bowers

Dear Mr. Joyner:

As a visitor for many fall seasons, I have been watching the Rt 12 road wash out for a few years now. The lack of a road - or the chance it might close before we get there - has made us spend some weeks elsewhere.

Please put a permanent bridge at "Irene Inlet" - it is needed now.

Please continue to come to a permanent solution for all of Rt 12. I would like to be able to leave New Jersey and know I was going to be able to reach Ocracoke Island! Three times now, we have had to wait in Virginia for the road or the Hatteras Ferry to open.

I consider myself an environmentalist but sometimes you have to put people that live and work in an area first. Without tourist money, and the means to get to Hatteras and Ocracoke Island, any delay will hurt the people that pay taxes in your state.

Sincerely,
Peggy Bowen - pegdiver@earthlink.net

Subject: Pea island inlet bridge replacement

Sent from my iPhone I support the replacement of the Bonner bridge & further the replacement of the temporary bridge over Pea Island inlet to preserve the lifeline to the citizens of the outer banks. I think it would be a grave mistake & miscarriage of justice to deny all citizens the right to enjoy the beauty & enjoyment of the Outer Banks of North Carolina.

Dear Mr. Joyner,

As a property owner in Dare County, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namey within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your action.

Mr. Joyner,

Please do all possible to insure secure access to Hatteras Island. During the past years I have spent days (actual days) trying to return to my home in Buxton due to road outages. Some of these were due to the action of hurricanes...those I fully understand....but Route 12 needs to be reconstructed (even if it becomes a toll road) so that residents and visitors can count on being able to travel in/out.

Given the location, some inconvenience is understandable....but it cannot remain as it is ---- the overwhelming concern of all island/OBX visitors.

Thank you,

Steve Bravar

Subject: Bonner Bridge Project

Dear Mr Joyner,

As a property owner in Frisco for the last 30 years and as an avid fisherman on Hatteras for the last 50 years, I would like to offer my full support for the Herbert C Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at " Irene Inlet " exactly as described in the Environmental Assessment, namely within the existing NC 12 easement alternative as the preferred alternative for phase two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for your prompt action to solve this critical issue.

Sincerely,
Bruce Bridenbaker

Dear Mr. Joyner,

As a frequent visitor to the Outer Banks and an owner of a permanent trailer in one of the campgrounds in Buxton, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

We now have to pay a high fee to drive on the beaches, which puts extra stress on our budget, but we don't want to have to take a ferry to get there. This extends the time it takes to reach our destination, and we are already driviover five hours to reach our beach home. Also, if NCDOT is not permitted to make permanent improvements to Route 23, businesses will continue to suffer.

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

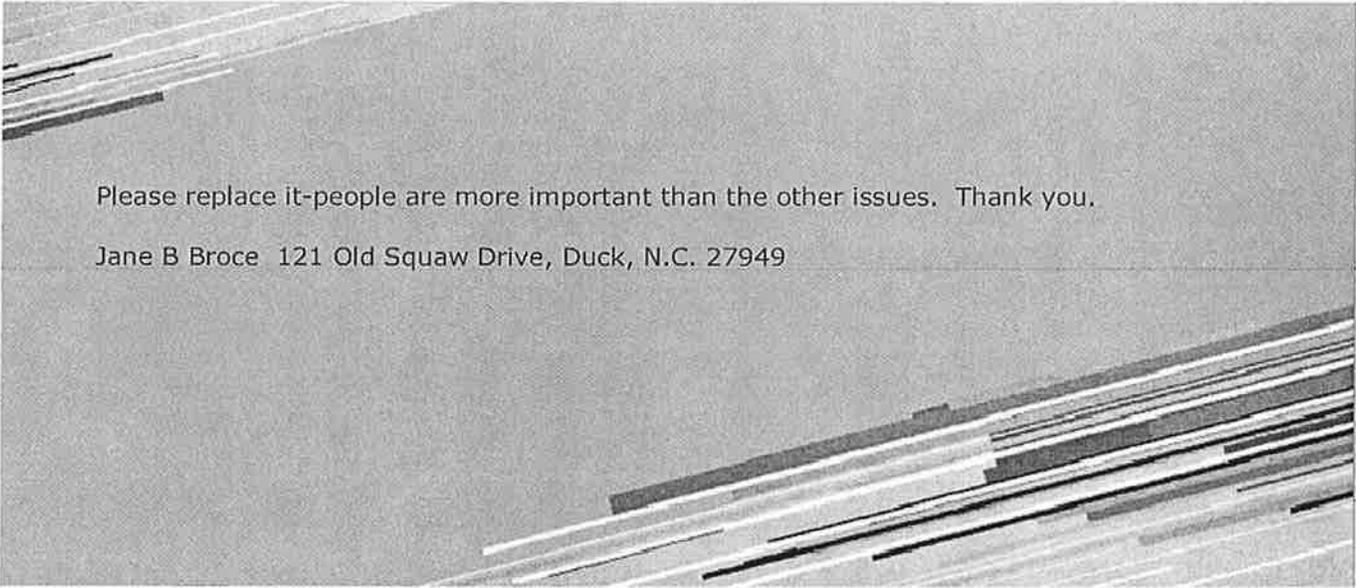

Thank you in advance for you action.

Sincerely,

Kenneth S. Broaddus

Dear ALEXANDER M BRODY,

Today is the last day that you can show support for the replacement of a critical Hatteras Island bridge!

The public comment period for the building of the permanent bridge that is scheduled to replace the temporary bridge on NC HWY 12 in Pea Island at "Irene Inlet", is open until today, Thursday, March 28th 2013.

We urge CHEC members to write NCDOT to offer support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at Pea Island.

Please copy and paste the letter below into your e-mail and send it to djoyner@ncdot.gov.

**You will want to adjust the first line to describe your particular relationship to the island. Feel free to add further comments to personalize the correspondence.

Thank your for your immediate attention to this crucial issue.

Dear Mr. Joyner,

As a property owner who has spent the last 35+ years visiting Hatteras Island I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

Subject: Hatteras Island

Dear sir:

As an 83 year old, 10th generation Hatteras Islander whose family has lived on this island since the very early 1700s, related to all the other old families, I urge you to stop those who are doing their best to clear us all off the island and claim it for themselves. Our heritage dates from long before this country was founded. Without the benefit (?) of lawyers or any of the so-called animal rights groups, whose political agenda is barely disguised, we have taken care of our own land, our waters and our families. Please, please get those greedy ---- off our backs!

Dear Mr. Joyner,

1. I have lived on Hatteras Island for over 30 years and am a business owner who's very concerned about the access problems and safety issues facing us. I'm writing to offer my full support of the Herbert C. Bonner Bridge replacement project and the permanent bridge to replace the temporary bridge at "Irene Inlet". I support the projects exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge you and NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island. It's not just our safety you should be concerned about. It's also our economy that contributes a lot of tax dollars to the state's coffers.

Thank you in advance for your action.

Sincerely,
Linda Meyer Browning

Dear Sir

I am totally for the replacement of the Bonner Bridge. As a retired person I can finally visit the Island more often. It seems that others opinion is overly protective of the critters. When the federal government kills off all the native foxes for the other animals safety, I feel things are out of control. We need to use common sense and liv e with the animals not for them. One more opinion for the box.

Thank you for your consideration,

Dear Mr. Joyner,

As an avid surfer of the Eastern Shore, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.

The Four Agreements are:

1. Be Impeccable with your Word: Speak with integrity. Say only what you mean. Avoid using the Word to speak against yourself or to gossip about others. Use the power of your Word in the direction of truth and love.

2. Don't Take Anything Personally

Nothing others do is because of you. What others say and do is a projection of their own reality, their own dream. When you are immune to the opinions and actions of others, you won't be the victim of needless suffering.

3. Don't Make Assumptions

Find the courage to ask questions and to express what you really want. Communicate with others as clearly as you can to avoid misunderstandings, sadness and drama. With just this one agreement, you can completely transform your life.

4. Always Do Your Best

Your best is going to change from moment to moment; it will be different when you are healthy as opposed to sick. Under any circumstance, simply do your best, and you will avoid self-judgment, self-abuse, and regret.

Subject: Build the Bonner Bridge

Dear Mr. Joyner,

As a full-time Dare County resident, I am writing to offer my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Truthfully, I think a bridge from Oregon Inlet to Mirlo Beach was a better option... leaving ORV access to Pea Island available, but I know that option is off the table.

Thank you in advance for your action.

Dear Mr. Joyner,

I am writing as a permanent resident and business owner on the Outer Banks to lend my full support of the Herbert C. Bonner Bridge replacement project, and the permanent bridge to replace the temporary bridge at "Irene Inlet" exactly as described in the Environmental Assessment -- namely within the existing NC 12 easement alternative as the Preferred Alternative for Phase Two (a).

I am a dental specialist with an office in Nags Head and as the only endodontist in the area I provide root canal therapy for residents of both Hatteras and Ocracoke Islands. During several recent Nor'easter storms, the road through the Pea Island wildlife reserve was closed due to ocean over wash and my patients either had to cancel their appointments, or in some cases, take the ferry to Swan Quarter resulting in a 12 hour roundtrip. It's one thing to have to make the trip for a root canal (which is bad enough), but another thing when such individuals need emergency or routine medical care and cannot reach the closest hospital in a timely fashion. Moreover, most of the residents of Hatteras Island derive their living from the tourism industry, and when the road is closed they are faced with a severe economic impact. It is therefore imperative that the replacement of both bridges proceed as quickly as possible and without meaningless objections by individuals who do not live in the area and therefore have no vested interests in the well-being of local residents and business owners..

I urge NCDOT to move forward as quickly as possible to secure this vital transportation link for Hatteras Island.

Thank you in advance for you action.
