The North Carolina Turnpike Authority (NCTA) proposes to improve east-west travel through Gaston County by constructing a new toll facility between I-85 west of Gastonia and I-485/NC 160 in western Mecklenburg County. This workshop series will present updated maps and information on the alternatives to be studied in detail in the Draft Environmental Impact Statement. An Updated Purpose and Need Statement and the Alternatives Development and Evaluation Report also will be available for review.

The NCTA is authorized to study, develop and construct up to nine toll roads in the state. The Gaston East-West Connector is one of five projects currently being studied.

NOTE: Participants are encouraged to drop in at any time between 4:30pm and 7:30pm for any of the workshops. All three workshops will present the SAME information and displays. Children are welcome to accompany their parents or guardians. For more information, please visit www.ncturnpike.org/projects/gaston or call 1.800.475.6402 or email gaston@ncturnpike.org
