

TYPICAL SECTIONS

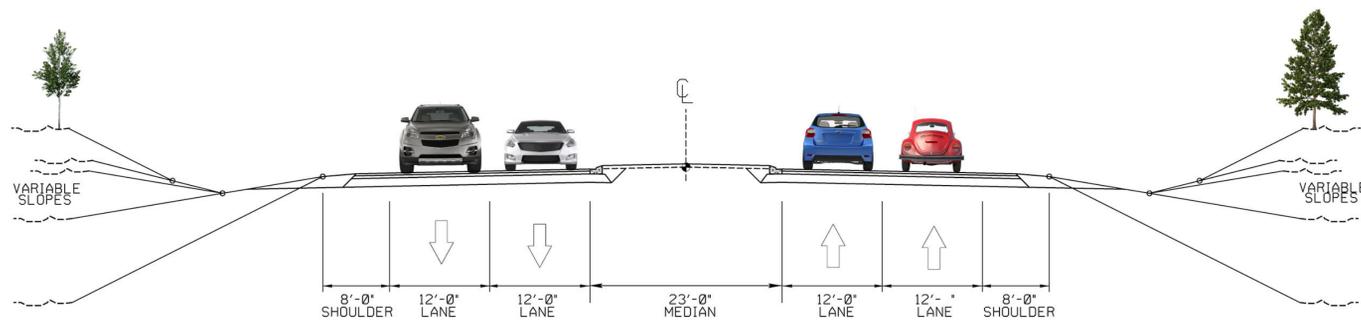

Liberty Road - 2-Lane Section Resurfacing

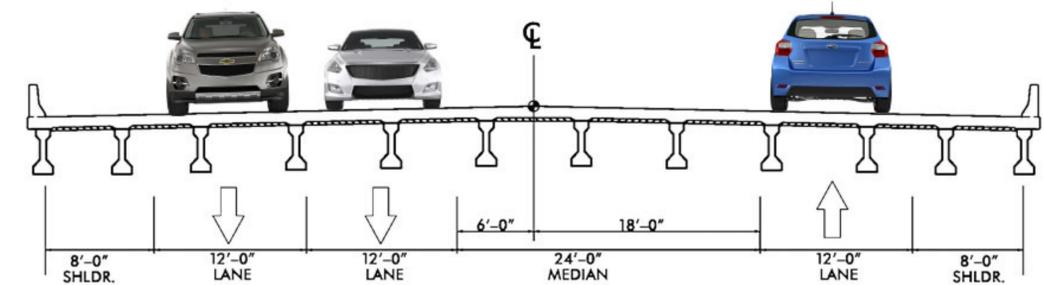

Liberty Road Bridge Over I-40 - Alternatives 1 & 2

Liberty Road - New 4-Lane Section

Liberty Road Bridge Over I-40 - Alternative 3

Note: NCDOT is working with local jurisdictions to determine bicycle and pedestrian accommodations on the proposed realigned Liberty Road.

Note: Because Alternative 3 would force the heaviest interchange traffic movement (northbound Liberty Road to eastbound I-40) to make a left turn, additional lanes and a wider bridge would be required.
