

Preferred Alternative DSA D
Monroe Connector / Bypass
NCDOT STIP Project No. R-3329/R-2559

NOTE: The Detailed Study Alternative (DSA), the light yellow area on the map, is a minimum of 1,000 feet wide. The functional engineering designs for the road have a minimum right-of-way width of 260 to 300 feet and are located within the corridor. Go to www.ncturnpike.org/projects/monroe, for a detailed look at DSA D.
