

U.S. 64 Asheboro Service Roads

State Transportation Improvement Program Project R-2536

Project Description

The N.C. Department of Transportation is planning to improve U.S. 64 in the Asheboro area. The proposed project is a new 14.6-mile freeway bypassing Asheboro to the south. The project begins on U.S. 64 west of Asheboro just west of Stutts Road and ends at U.S. 64 east of Asheboro at Dewey Road. This project is being constructed as a Design-Build project. The Design-Build Process allows NCDOT to contract with a Team of designers and contractors that is responsible for the design, right of way acquisition, and construction of a project. The Team may begin construction while they finish the design and right of way acquisition resulting in faster project completion.

The contract for this project was awarded on June 2, 2015 to Asheboro Bypass Constructors, LLC (ABC).

Tonight's meeting is to update property owners adjacent to service roads on the project.

Project Milestones

- June 2015:** Project award to Asheboro Bypass Constructors, LLC - Design-Build Team
- January 2016:** Approved Right of Way Plans
- July 2016:** Permits Obtained and Construction Anticipated to begin
- November 2019:** Project Completion Anticipated
