Monday, October 29, 2018:

4-7 p.m.

Wake Forest Baptist Church

These meetings are being held in an effort to effectively involve the public in the project planning process and the important decisions that will be made regarding the proposed improvements.

The N.C. Department of Transportation is proposing to convert U.S. 1 (Capital Boulevard) to a controlled-access facility from I-540 to Purnell Road (S.R. 1909) / Harris Road (S.R. 1931). Controlled access means that access to U.S. 1 would be made by use of interchanges and that no direct driveway access would be allowed. The purpose of the project is to improve traffic congestion and travel times and maintain regional mobility and local connectivity.

Maps of the concepts and interchange options being considered for project U-5307 are available for viewing and downloading from the NCDOT public meetings website:
