**2016 NCDOT AERIAL PHOTOGRAPHY**  
**IMPACTS AND DRIVEWAY TIES**  
 Limits of construction and their impacts shown on this hearing map are based off of preliminary designs and preliminary ground surveys. During the final design stage, designers will attempt to minimize impacts where feasible using final ground surveys. Final driveway locations will also be determined during final design using final surveys.

**DESIGN DATA**  
 Functional Classification = EXPRESSWAY  
 Design Speed = 60 MPH  
 Maximum Superelevation = 0.08

- LEGEND**

 PRELIMINARY PLANS  
 DO NOT USE FOR CONSTRUCTION

**UTILITY INFORMATION:**  
 To provide greater visual clarity, existing and proposed utilities are not shown on these maps or on other displays. The utility information shown on these maps is limited to locations of major existing and potential utility easements. The designs shown on these maps, including utility easements, are preliminary and are subject to change.
